THE LOCAL CAMPAIGN.

The Republican Organ's Disgrace. At last, after a world of trouble and nearly a week's work, the Garfield folks of the Eighth ward got their patched pole to stand on its pins late Saturday afternoon. Their repeated fallures to get it up attracted to the scene quite a crowd of peo- to one side, upset the buggy to which he ple-mostly Democrats (for Republicans was hitched, and threw Mr. Charles and are very scarce in that neighborhood)—and lady to the ground, but fortunately neither many a good-natured joke was cracked at the expense of the unfortunate fel- off at full speed, making a complete lows who had the job in charge. These sallies of humor were generally taken as they were given good-naturedly: but one poor imbecile, a scribbler for the Examiner, (a sheet that begs there may be no "mud-throwing" during the pending campaign) became so wrothy at a party of boys who persisted in cheering for Hancock that he fairly foamed at the mouth, and looked as though he would like to eat the offending youngsters. He was heard to express the pious wish that if the pole should fall down he hoped it would crush half of the young copperheads to death -there were a damned sight too many of them anyhow ! and then to give further vent to his bile he penned a lying and scurrilous article for the Examiner, which appeared in the local department of that paper Saturday, marked with a star (*). The star may mean that the article was paid for, or, more likely, that the reporters scorned to father it, and affixed the advertising mark to it to let the reader know it was not theirs. Below we reproduce a part of it, as a specimen of Republican literature, and as a sample of the esteem in which that party hold white laboring men and their families.

The attempt to raise a Republican pole in the Eighth ward was somewhat of a failure. * * * * The confederates were there in great numbers, genuine rebels, unwashed, unkempt, filthy and "chewing" heraps. Fat and greasy women with whole broods of dirty brats, were a living proof that there is a connecting link between Darwin and his ape. The men (Democrats) filled the air with oaths, curses and foul Laguage in general and the wives of these specimens of the confederacy cheered the men on with language that would disgrace any one.

A few more slanders like these on the sturdy and unpurchasable Democracy of the Eighth ward is all that is wanted to round 600.

There is likely to be another attempt made soon to raise a Radical pole in this city, as George Eline, John Doebler and other best workers were at work yesterday cutting one in Miley's woods, near Willow Street.

Ninth Ward Juniors. The junior Democrats of the Ninth ward crected on Saturday evening a fine Hancock hickory, at the corner of North Mulberry and James street, immediately opposite the one erected some time ago by the kill a pet dog that has been bitten, but & seniors. A large croyd was in attendance is still more cruel to have men, women and and cheer upon cheer was given for Han- children subjected to the risk of dying cock, English and Democracy. SOAD ACCIDENTS.

A Carriage Wrecked—A Four Horse Tear Runs Off—Axie Broken. On Saturday atternoon as Aaron Charles and lady were driving through West Willow their horse became frightened at a cow that was standing in the road, and, shying of them was much hurt. The horse ran wreck of the buggy, but escaped with slight injury to himself. He was caught by Isaac Smith about a mile from the place

the accident happened. On Friday as a four-horse team belonging to Abraham Harnish, was being driven past Amos Hollinger's tanyard on the Willow Street turnpike, the horses became frightened at the steam issuing from Mr. Hollinger's engine and ran off. Benjamin Harnish was a good deal hurt while trying to stop the runaways. After running about a mile the team was stopped as it was ascending a steep bill. Neither horses nor wagon sustained much injury.

This forenoon a horse hitched to a spring wagon which was loaded with store goods belonging to Samuel Brubaker, of Neffsville, was being driven along North Queen street, when a wheel of the wagon struck the street ear track and the axle was broken off.

A. Lane, of Neffsville, while driving on West Lemon street this afternoon had his horse run off, breaking the wagon, throwing Mr. Lane out, cutting him badly and inflicting other injuries.

About 11 p. m. to-day, a large wagon loaded with wood, belonging to Jacob Stauffer, of Washington borough, was being driven along East King street, between Centre square and Duke street, when the axle came off, one hind wheel and the fellows were broken. A new wheel had to be procured.

DOG DAIS.

About Mad Dogs. Ever since the dreadful case of hydro phobia resulting in the death of the little daughter of John W. Booth, there has been a great deal of anxiety and fear among our townspeople lest other cases may occur. It is known that several dogs to run the Democratic majority up to a exhibiting symptoms of hydrophobia, have been seen on the streets and have bitten other dogs. Some of these have been killed but others have not. The mayor's proclamation, ordering all dogs to be muzzled or penned up until the 1st of September, has been very generally observed, but this does not allay the fear of the people The 1st of September will soon be here, and the dogs, some of which are known to have been bitten, will be again turned loose, and there is no assurance that some of them may not go mad. It may seem cruel to

Heat and Sickness. During the hot and sultry weather an un usual amount of sickness prevails in every community, especially among females and children, caused by the fermenting mla-ma gas or nitrogenous matter floating in the air arising from decaying vegetation. This bad draffects everything we cat, and engender. in it a semi-fermentation, which, when taken in the system is like leaven, and operates on the whole, starting in the bowels and soon pro ducing a violent fermentation, causing diarrhos and dysentery. It has been found that that the use of Speer's old Port Grape Wine of New Jersey has an extraordinary effect in checking this termentation and restoring the system to its original strength and vigor. Invalids and debilitated persons have found it the most nutritious and strengthening 80 11c in the market, and the greatest help in resist-ing the poisonous effects of the vitiated atmosphere. This wine, so long established, has become the standard wine upon which physicians rely as the most rich in body and genuine in character, containing the greatest amount of medicinal properties with the least intoxicating qualities. Speer's vineyards produce a larger yield this year than usual, and he has reduced the price of his wine that any person can now purchase it of druggists for \$1 per bottle. GARFIELD AT CHATAUQUA.

Cheers for Him and for the Next President.

At Chatauqua this morning hundreds

of persons visited Garfield at his hotel and shook his hand. In a speech to the assemblage he commended their efforts in the direction of religion and said that as this was a mixed gathering politically he would not attempt to touch upon controverted points, or to make a political speech. While there might be many present of different political opinions, he hoped there was not in that great assemblage, no matter what his party affiliations, one man who would not endeavor so to mould our beneficent institutions as to permit labor to carn its well-merited leisure. Speaking of the Jubilee Singers he said : "I heard yesterday On THURSDAY, AUGUST 19. and last night the songs of those who were lately redeemed from slavery, and I felt that these too were one of the great Good to return on any train from Atlantic City and Philadelphia on second day, without extra charge. Parties desiring to return same day will take special train, leaving Atlantic City at 6 and West Philadelphia Depot at 8 p. m. triumphs of the republic. (Applause.) . I believe in the efficiency of forces that came down from the ages behind us, and I wondered if the tropical sun had not distilled its sweetness and if the sorrows of centuries of slavery had not distilled its sadness into voices which were touchingly sweet, voices to sing the songs of liberty as they sing them wherever they go." (Applause.) Three cheers for Gen. Garfield were given,

followed by three cheers for the next president. The visiting party then made its way through the throng to the boat laudlanding. Here the jubilee singers repeated two or three of the sougs that the general had taken the most pleasure in. He After arriving at Philadelphia, parties desiring to go through to Atlantic City, will take street cars to the foot of Market street, where the ferry boat will convey them to the West Jersey Depot, where cars will be taken to Atlantic City, arriving at the latter place at 10:48 a. m. As this will probably be the last excursion cast tor this season parties who desire to thanked them, and in a tone audible only to those close by said : "The old prophet said Ethiopia shall stretch his hand to God, I believe God has stretched out his hand to the children of Ethiopia." (Three cheers for Garfield.)

At Lakewood a stoppage and landing was made and the party stopped a few minutes at the Lake View house. Garfield made a few remarks and the party was then driven to the station and started on the train at 9:45 a. m. At Corry a large crowd met the train, and Garfield again addressed the people, saying that any man might be proud to be a citizen of the Keystone state, but it is a still greater thing to be a citizen of the whole republic. Stop pages were also made at Cambridge, Sae. gertown and Meadville, where the general made brief speeches. At the latter place the party stopped a half hour for dinner.

Luncheons and Refreshments in abundance. Din-POTTSVILLE, Pa., August 9.—The inside workings of the Kelly Run colliery at Shenandoah were discovered on fire in two of the breasts this morning. All the eons and Refreshments in abundance. Din-ners and suppers provided. Oysters and Fish served for supper a tew moments after taken from the western workings were filled with smoke but the mules and all loose property were rescued. The fire is a serious one and will prove very expensive. The mine cannot be flooded, and to extinguish the fire will present one of the greatest engineering problems yet presented in connection with anthracite mining. This is the mine where the three men Resse, Wasley and Willman lost their lives several days ago, in endeavoring to remove the gas from the old workings.
