For five days past the weather has been extensively hot, -hotter indeed, than any other five consecutive days during the present summer. Everyday during this period the mercury has risen above 90 degrees, Fahrenheit, and the air was excessively close and stifling, unrelieved for hours together by the slightest breeze. Today the mercury marked 92 in the shade, and there are no signs of a change for the better. Can it be that the recent sickness

immense Destruction of Property at 13th and Willow Streets, Early This Morning. PHILADELPHIA, Aug. 25 .- A fire broke out shortly after four o'clock this morning, in the flour mill of Wm. B. Thomas & Co., northwest corner of Thirteenth and Willow streets. The flames are said by some to have originated in the engine room, but others state that the fire was the mill. Spreading rapidly the flames communicated to the stove and hollowware foundry of Stuart & Peterson, on the west, which extended, as did the mill, from Willow to Hamilton street, and thence to the large building at the southwest corner of Thirteenth and Hamilton streets, occupied by Gumpert & Brothers, manufacturers of cigars. Thomas & Co.'s mill

was in operation at the time the fire was liscovered, and the workmen beat a hasty retreat. One of them, Wm. Miller, foreman in the milling room, is missing. The building was soon in ruins, all the walls falling and filling the streets by which it is beunded.
