In these recommendations, like the learned Dr. Wickersham in his appeals to his Republican "business" friends to lift their advertisements out of the INTELLIGEN-CER, the New Era veils its threats under a thin disclaimer, but its broad hints to employers to discharge their Democratic employees are too plain to be misunderstood. We understand that to-morrow evening when the Democratic clubs of this city will have their street parade and mass meeting the Republican organizations will indulge in a similar demonstration. To the zealous partisans of both sides the example of Reading is commended as worthy of all acceptation. On Tuesday evening the rival organizations of that city paraded the streets, and the Eagle says when the Democrats passed under the Republican flags they lowered their torches, and so did the Republicans when they passed under the Democratic fiags. This is the right way for one side to treat the other. Friends and neighbors and residents of the same city, should endeavor to treat each other kindly.

It has pleased one of our contemporaries persistently, during the present campaign, to seek to arouse party passion by the filthiest and most inflammatory abuse of the men, women and children of the Eighth ward. It has pleased another to indulge in malignant misrepresentation of the INTELLIGENCER for rebuking the attempt "to influence public sentiment against business interests" on political grounds and the effort to introduce partisan views into the purely business relations of our everyday life;" and, following the same line of thought, it has been lavish with covert suggestions to Republican employers to discharge their Democratic employees. Chief Justice Sharswood, of the supreme court, now in session at Pittsburgh, filed an opinion last Monday morning in the case of Steinman and Hensel, members of the Lancaster bar and editors of the Lancaster INTELLIGENCER, who were disbarred from practice in the court of common pleas of that county, for an adverse criticism of the conduct of Judge Patterson, in their capacity as journalists. The arbitrary action of Judge Patterson is reversed, and the victims of this Jeffreys on a small scale are fully restored to their violated rights and privileges. The opinion is a very clear and thorough exposition of the points involved. While characterizing the publication of the two lawyer-editors as being such as to expose them to indictment for libel, Judge Sharswood is justly emphatic in his rebuke of the summary and high-handed conduct of the quarter sessions judge of Lancaster and in vindicating the equal right and du ty of a lawyer with other citizens to bring to the notice of the people, who elect their judges, every instance of what he believes to be corruption and partisanship.

DIED AT 101. Colonei Ben Brownfield, Who Has Voted Since 1800.

Colonel Ben Brownfield, aged one hundred and one years, six months and ten days, died at his residence, two miles south of Uniontown, Pa., yesterday afternoon. He was the oldest man in Fayette county and leaves a large estate, the fruits of his own indomitable energy, industry and good management. In 1871, on his birthday, March 28, he fell out of his farm wagon on the public road and broke his leg. As early as the 29th of July subsequent his mind and body were so vigorous that he went out to superintendent the repairing and cleaning out of a coal mine and while so engaged a portion of earth and timbers at the mouth of the pit fell in on him and broke two of his ribs. But nis wonderful vitality was not yet overcome and his physician says he was actually going about the farm in less than four weeks after the last accident happened. He attended a pole-raising and was president of the meeting on the 18th of September last. He made a speech on taking the chair and told his audience that he had mingled with their grandfathers and great-grandfathers; that he voted for Jefferson in 1800, never missed a presidential election in his life, and hoped to live to vote for General Hancock. The immediate cause of his death is not known.

LOCAL INTELLIGENCE.

THE HOUSE OF REFUGE CASE.

sonal application :

A Note From Mr. Emil Aust. Prof. Emil Aust, whose two boys were sent to the House of Refuge yesterday by order of Judges Livingston and Patterson, as stated in yesterday's INTELLIGENCER, makes the following rather startling statement, it having been said that the children were sent to Philadelphia on his own per-

knowledge of the public, that the act taking away my two boys to Philadelphia was from the first to the last not done according to my will and I was not sworn to any complaint against them to my knowledge. On that very day I was myself too much troubled with my own law case and the slip containing the complaint I was ordered to sign by the constable, which I repeatedly refused to do. It was this one hour before my hear ing and Mr. Eichholtz present said : "You must not send them boys away if you

don't want it." Besides this Mr. Haas came to me, called me out, and said he would tell me in confidence that a party of men had made out the children should be taken far away

Some of the Republicans from aroun Landisville thought they would have some fun by putting up a Garfield pole in front of Landis's store near the zinc mines, the proprietors of which are sturdy supporters of Gen. Hancock, the soldier-statesman candidate of the Democratic party. They got the tree up after the usual amount of puffing and blowing and naughty words, and then Davy Derby made a speech which only served to amuse the Democratic portion of the audience, who comprised more than than half of those present without arousing a corresponding amount of enthusiasm on the part of the few Republi cans, who will have to try again if they want to frighten the stannch Democrats

THE REPUBLICAN PARADE

LARGE AND GLITTERING DISPLAY

The Rural Districts in Force-1,500 Town Folks in Line-A Riotous Affray. The great Republican parade for which such long and careful preparations were made by the political leaders, came off last night and was quite a handsome and imposing affair, but not so large as was ex-pected. Although large delegations were in line from all parts of the county, the total number was only about 3,000. The 'Veterans" so-called, some of whom were boys when the war closed, numbered 225 men, and the "business-men" so-called, many of whom were never in business in their lives, and some of them not even residents of the city, numbered 359 men. The ward clubs, which had been depleted to swell the ranks of the business men, were filled up with boys and young men from county districts whose squads were too small to parade alone. The large his own temple and fired. Every shot county delegations were so dovetailed among the city delegations that it was a very difficult matter to separate them and count them accurately. Some of them made a very fine appearance. brought good music with them, and marched admirably. The Columbia and Mount Joy delegations looked especially fine. Other clubs, which had evidently never drilled much, presented a rather straggling appearance. Neither the city ward clubs nor the Young Men's; club looked as well as they did in the former

> parade. The residences and business places of Republicans along the route of parade were generally illuminated, some very prettily, and some liberal-minded Democrats also turned on the gas to add to the display. There was a pretty good display of fireworks along the line, but nothing to compare with the Democratic display of last week. Although the most untiring efforts were made to beat the Democrats there were not as many city voters in line last night as at the Democratic turnout last week. The total number in all the city delegations did not reach 1,500 mer and boys.

The Fighting. At the corner of Manor and Dowart streets a serious affray occurred resulting in a series of fights on West King street that threatened to break out into a general altercation near the Plow tavern. As usual on such occasions there are different stories about the origin of it and each party tries to put the blame of it on the other. From two reliable, conservative and dispassionate observers of almost the whole affair we have an account which seems truthful and fair. According to their story a number of boys on the sidewalk-not one of them a voter-jeered at the Young Men's club and one or more stones were thrown. The attack was vio-lently resented, stones were thrown from the ranks promiscuously, one of them striking H. Z. Rhodes, and horsemen from the parade charged on the pavement, mak-bystanders flee and endangering the lives of women and children. When the parade was opposite the old Humane hose house a little boy halloed "Hurrah for Hancock," and our informant says Capt. Nick Goodman, "who was half full," struck him with a cane. Then another row ensued, and there were quite a number of punched heads and battered bodies, among them Goodman's. Greatly exaggerated reports of the affair are in circulation and it is as usual very difficult to fix the reponsibility for the affair. It is to be hoped that it will be fully investigated and no guilty man escape. This journal has from the beginning of the campaign urged for-bearance by all parties and the extension of the right of free parade and it condemns without qualification, anyone who refuses to concede this.

It will be noticed that the disturbance did not take place in the Democratic Eighth ward, but in the Republican Fifth Another report is that while the parade

was passing along Manor street a boy carrying a torch waved it aloft and hurrabed for Hancock, whereupon a colored man who was in line seized him by the arm, pulled him into the ranks and said : 'Come along and march with us." In the struggle the boy was thrown down, and then some men on the sidewalk rushed in and there was quite a scrimmage for a short time, but nobody was much hurt. The trouble was renewed at the junction of Manor and West King, one report saying that the men on the pavements behaved badly, crowding close up to the men in line and shouting for Hancock. When Nick Goodman's company came along, he requested the look-ers-on to stand back and give his company more room, and attempted to push them back with the cane he carried. Another report is that Goodman used very offensive language and struck the first blow. A general row followed, during which Goodman was pretty roughly handled and a number of others were slightly injured. The crowd was somewhat broken up and the combatants separated by the horsemen who rode leisurely in among them. The policemen are reported to have done all in their power to quell the disturbance, and many prominent Democrats present used

their influence to restore order. A reliable Democrat assures us that the assault on the parade was utterly unjustifiable, and a few drunken rowdies are entirely responsible for it; he and other Democrats doing all in their power to prevent it. A Republican tells us that a drunken Democrat seized McMellen's horse and tried to stop it; and that the police when called on to arrest him and other disturbers of the peace utterly failed

to do their duty. Points of the Parade. Harry Diller stuck to his high silk hat. The "business men" started bravely with 300, but quit with 88. That is a rate of decrease which will end fatally if kept

up until election day. Tom Furniss bravely bore the Little Britain flag. If Levi Sensenig could have marched aside of him it would have been beautiful example of reconciliation. The colored troops declared on their banner that they vote as they shot. But most of them shoot with a razor.

Andy Flick, the Ninth ward cop, carried the flag for his ward, and he looked well under a straw hat which "has long been called in.

To march the colored troops in a body 'all alone" was a drawing of the color line that Letter-Carrier Deen . should not have countenanced.

While the Second ward club was passing the Grape hotel, having with them : wagon filled with fireworks, a spark from a roman candle ignited the fireworks and exploded all of them, making the most brilliant light imaginable, but filling with terror the multitude on the sidewalks and in the parade. The rockets and roman candles sent their fiery balls in all directions, and it looked for a time as though many persons might have been killed or seriously hurt, but fortunately only a few were slightly burned. Matthew Trapnell, who, in company with George Gardner, had charge of the fireworks, says that the from a rocket which had just been sent off. set fire to the loose powder which he had in his coat pocket, for the purpose of making blue and red lights, and that the powder ignited to the other fireworks.

Mr. Gardner was considerably burned, and Mr. Trapnell only slightly. The horse was cut loose from the wagon and escaped injury. The wagon bed was badly burned. Samuel Nixderf, while on his way home from the parade, stepped on a loose stone

spraining his ankle so badly that he could not walk. One of the features of the parade was
