

THIRD EDITION.

FRIDAY EVENING, NOV. 5, 1880.

WEATHER INDICATIONS. WASHINGTON, D. C., Nov. 5.—For the Middle states, cloudy and threatening weather, with occasional light rains, possibly following by Saturday morning to colder northwesterly, stationary or higher barometer in the southern part.

PHILADELPHIA & READING.

The Road's Finances.—An Injunction Against the Receivers. PHILADELPHIA, Nov. 5.—The American committee appointed by the managers of the Philadelphia & Reading railroad company to confer with the English company has been appointed as follows: J. B. Lippincott, Eckley B. Cox, Moses Taylor (or a representative to be named by him), Daniel R. Bennett, J. V. Williams, H. Pratt McKean, James H. Rogers, Isaac Hinekey, Frederick Fraley, Thomas Cochran.

The receivers of the Philadelphia & Reading railroad company gave notice that they would pay on November 9, on account, the one-half of the interest on the July coupons of the general mortgage, bonds of the company, returning the coupons to the holders stamped "half paid," and that they would also pay on the same date the entire July coupons of the general mortgage deferred scrip. The announcement was taken exception to by the trustees of the consolidated mortgage loan, the Fidelity trust insurance and safety deposit company, who on October 28 filed a petition in the United States circuit court through their counsel, John C. Bullitt and others. The petition concluded as follows: "That an order be made upon the receivers restraining them from making any payment on account of encumbrances on the railroad's estate, real and personal, and franchises of the Philadelphia & Reading railroad company subsequent in date and lien to the consolidated mortgage of June 1, 1875, until all payments in arrear, under the said mortgages, have been fully paid; that the receivers be ordered and directed out of the net profits of the Philadelphia & Reading railroad company to set apart and appropriate the sums of money which on the first day of June, 1877, and annually thereafter should have to be repaid and appropriate for the purposes required by the second covenant of the consolidated mortgage of June, 1871."

It is officially announced this afternoon by Mr. Gowen that Mr. Bullitt has notified the receivers of the company of the withdrawal of his objections, as far as the payment of one-half the interest on the July coupons is concerned.

AN OPEN SWITCH.

Two Men Killed by a Railroad Collision. JERSEY CITY, Nov. 5.—At 7 o'clock this morning a freight train on the New York, Lake Erie & Western railroad, went on a switch at Pennsylvania Horn creek to permit a passenger train to pass. It is alleged the switchman had omitted to close the switch, and consequently when the passenger train came it crashed into the caboose of the freight train, instantly killing David Quackenbush, engineer of the passenger train, and Garret Voorhis, conductor of freight train. The fireman of the passenger train received fatal injuries. As far as could be learned no passengers were hurt. Clark Bogert, the switchman, cannot be found by the authorities, he having promptly fled.

The Fraudulent President Visiting the President-elect. MENTOR, O., Nov. 5.—Among the callers at Lawfield yesterday were Mr. and Mrs. Hayes; Hon. Thos. Case, for many years a member of the British Parliament, with his son; George C. Gorham and Mr. Thomas Donaldson, of the national Republican committee, and Edwin Cowles, of the Cleveland Leader. After a pleasant social visit of an hour or two tea was announced, after which Mr. Hayes's party were taken to the depot, where they took the train for Cleveland, on their way to Washington.

The body is that of a man of small stature with sandy hair, and dressed in dark clothing. The body had evidently been hanging, when found, for a long time. It was suspended by two pocket handkerchiefs tied together.

SHALL WE SELL THEM?

There is in Philadelphia a clothing house which has no double in all the world. The world is full of clothing houses; and it is a good deal to say that one is unlike all the rest.

First, in its dealing; and it is surprising that one house should differ much from another. Selling clothing is so simple a matter, that it is likely, one would suppose, to be done in very much the same way in Philadelphia, New York and London. But Philadelphia is ahead; and, curiously enough, one house in Philadelphia is ahead of all the rest.

To be ahead in dealing is to deal on a higher plane, in a more liberal way, to give the buyer more well founded confidence without loss of the merchant's safety. This Philadelphia clothing house says to a stranger: "We want to deal with exact justice. We want what belongs to us, viz., a fair profit; and we want you to have what belongs to you, viz., a liberal money's worth. Our way to arrive at this result is to mark a price on everything we sell, which price is absolute; and to let you buy what you like, go away and think the bargain over, and come and trade back, if you want to. We find by experience that this liberality is harmless to us. Of course, you like it. And it makes quick and ready dealing. We don't want you to bring back what you buy—it would cost us money every time; but we would rather you would bring back than keep what you don't like. So, we try to see that you get at first what you will like the better the more you know of it. This is really the whole philosophy of our dealings." Is it any wonder that no other clothing house in this city, or New York, or London, deals in the same way?

Second, in its goods—the amount and variety of them. There are other houses where excellent clothing is kept, and a great deal of it; but there is none, anywhere, that keeps so much. The dealing related above has won the largest trade the world has yet seen. To supply such a trade great quantity and variety of clothing are required; and these in turn increase the trade, because everybody likes to choose out of many things, rather than out of few.

This is the country of ready-made clothing. Great Britain makes the most of any European country; but there is not in all London any clothing business a quarter as large as that of Oak Hall. New York has several large clothing businesses; but no one nearly equal to that of Oak Hall; Boston likewise.

Look back twenty years! Have we done you good service, or not? But that is not what we had in mind; we were thinking of the clothes you are going to buy to-day. Shall we sell them?

Fire.

On an early hour yesterday morning the house of Mrs. Foley, in Danville, Montour county, and who lately resided in East Orange street, this city, was burned. All the furniture, &c., was saved.

Attention is directed to the sale of valuable city property at the Franklin house this evening at 7 o'clock.

Remarkable Success.

The sciences of medicine and chemistry have never produced so valuable a remedy for the treatment of kidney disease as the accidental discovery of Prof. Guinette's French Kidney Pad. Its reliable character, desirable qualities and masterly curative power have deeply won upon the confidence of the medical profession and countless sufferers who have used it.

COUNTY OFFICERS ARE EVER ON THE ALERT TO FIND IRISH BELTS TO WORK, but they never find one so worthless as the one contained in Dr. J. H. Knepp's Pad. It was brought out about ten years ago, and since then a host of claps without skill or conscience have sought to imitate it by making worthless affairs, but a certain matting public will hold "fast to that which is good," and the Guinette Pad more than holds its own. It cures all kidney diseases and succeeds where medicine and countess salves fail. Ask your druggist if this is not so.

Beautifies the complexion by stimulating the small blood-vessels—Cuticura Medicinal Soap.

SAMPLE NOTICE.

When wise men speak let the multitude give ear. "Sellers' Liver Pills," sold by all druggists.

Wines for Medicines.

Some three weeks ago at Passaic, N. J., and were really surprised to see the amount of Mr. Speer's stock of Port Grape Wine on hand. It is almost fabulous. Four store houses are filled, and the wine is being carried down stairs, and in some cases huge casks occupy every available spot, leaving only little alleys through which to walk. It is an illustration of the success of this wine. It has been in use for the age of four years, and the buildings 1, 2, 3 and 4 are of the first, second, third and fourth years' vintage. Our druggists have some of the oldest of the above wine direct from Mr. Speer.—Paterson Guardian.

This wine is now in demand for common uses purposes. It is excellent for weakly persons before retiring.

This wine is endorsed by Drs. Atlee and Davis, and sold by H. E. Slaymaker.

My life was saved by Warner's Safe Kidney and Liver Cure.—E. B. Lasky, Selma, Ala. 2.

"What's the matter, John?" "O! a big boil." "Well, why don't you take 'Dr. Lindsey's Blood Purifier' and be cured?"

The Tidy Housewife.

The careful, tidy housewife, when she is giving her house its spring cleaning, should bear in mind that the dear inmates of her house are more precious than houses, and that their system of health depends upon the purity of the air they breathe. The best way to purify the air is to regulate the stomach and bowels to prevent and cure the diseases arising from spring miasms and miasm, and she should know that the best way to do this is to use a reliable and sure as Hop Bitters the purest and best of all medicines. See other column.

Mother! Mother! Mother!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once to a bottle of MRS. WINSLOW'S SWEETENED SYRUP. It will relieve the poor little sufferer immediately—depend upon it. There is no pain about it. It is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child. It is a perfect and pleasant to the taste, and the prescription of one of the oldest and best female physicians and best of the United States. See every where 25 cents a bottle.
