With this issue it is proposed by purchase or exchange to retire all present indebtedness and to acquire by purchase the secu-He come 'ome at noon in mighty good | rities of the companies owning the leased lines. It is estimated that \$140,000,000 of the new issues will provide for all of this, the total interest on which would be \$7,-657,116.88, making an annual saving of \$3, 657,116.88. Mr. Gowen does not expect to secure so large an annual reduction, owing to the impossibility of purchasing the higher securities, and to the appreciations of marked value of the lower ones upon its being known that a fund is provided for the purchase, but he expects within the next year to accomplish a saving of at least 11 per cent. on \$100,000,000, making \$1,500,000, and to save still further \$600,-000 by the deferred issue, and \$600,000 on the sinking funds, making an annual reduction of fixed charges of \$2,700,000. An elaborate report upon the condition of the company was issued Monday by Mr. Gowen, embracing the above plan, and containing the statement that all the capital necessary to carry out the plan is offered him, and that he is about to visit Europe for the purpose of negotiat-ing the issue. Mr. Gowen's statement "You seem excited, Mrs. 'Opkins," he contained a condensed balance sheet of the hanswers, "pray be calm and tell me wot- railroad and coal and iron company, showhunchristian spirit as wishes harm to and share capital.
