

Lancaster Intelligencer.

MONDAY EVENING, DEC. 20, 1880.

Two Subjects of Taxation.

We cannot agree with the Chickies iron company, whose memorial we print elsewhere, that the tax upon the dividends or capital of manufacturing corporations is unjust or unwise. On the contrary we think it both just and wise.

MINOR TOPICS.

FRUIT CAKES ARE TIPE.

CHRISTMAS IS COMING NOW.

GARFIELD will make a tour of the different canals next season. Hayes is good for one more year of agricultural fairs.

NEITHER Flood, the millionaire, nor Stanford, the railroadier, will run for United States senator in California. Gen. Miller's election is anticipated.

THE GOVERNOR FOSTER has simplified the senatorial situation in Ohio by withdrawing in the interest of harmony. This clears the way for Sherman.

SINCE Mrs. Hays got her new china guests at White House dinners take soup from plates fashioned after the laurel blossom and eat fruit from a porcelain leaf of a apple tree.

THE Harlan & Hollingsworth company, of Wilmington, is building passenger cars for a Spanish railway, entering a field which England has hitherto monopolized.

NEW YORK Sun: "Some people think that Congress has not done much, so far. They probably do not know that it has passed a bill compelling the name of the yacht Nettie to Nohonia."

"On, dear!" exclaimed Penniman, "I wish I could excel in something! I do believe if I should kill a man it wouldn't be anything but murder in the second degree."

A BOSTON woman, 80 years old, was found starved to death a few days since. The philanthropists of Boston were so busy paying five dollars and upward to see Sarah Bernhardt that the unfortunate woman's case was entirely overlooked.

EX-CANDIDATE WEAVER was the recipient of a stand of flowers from "ladies of Washington" the other day. The floral gift was accompanied by a note to this effect: "To the real hero in the late political contest: his defeat is more glorious than victory."

IT was nearer the first of April we could more easily be induced to believe that a delegation of gentlemen from Indiana, Westmoreland and Armstrong counties had returned from a trip to Mentor, Garfield's home, where they had been pressing upon the president-elect the name of General Harry White for a cabinet position, either the army or navy portfolio.

THE New York society which aims to introduce and to promote the erection of better dwelling houses for the poorer classes is engaged now in putting up thirteen buildings each six stories high, built of brick. Inside the block will be a square, which will be planted with Linden trees.

Every room has a large window to the open air, and the star cases will be made of fireproof slate and iron. About 132 families, averaging five to each, will be accommodated, and the rents will not exceed from \$7 to \$12 per month, or the same that is now charged for the dark unhealthy rooms of the tenement houses.

If the experiment is a success, other ventures of the same kind will be made.

POTTER county, Pa., is without railroads, populous towns, manufactures, or extended industries and enterprises. No licenses to sell liquor have been granted since 1852, fourteen out of twenty-six townships levied no poor tax whatever for 1879.

The jail is empty the greater part of the time. The cost of boarding prisoners for 1879 was \$50.36, and the commonwealth court costs for the same year was \$448.87. In 1851 with less than half the present population, they paid \$605.43 in commonwealth costs. The county had three jury courts last year, all adjourned before the close of the first week. The grand jury for the past year cost the county \$500. At the same price per day the grand jury of 1851 cost \$804.02, showing that with more than double the population, the criminal expenses are less.

GARFIELD sweeps the snow from his own stoop. Useful man, that.

LORD BESANT'S "Endymion" is said to have paid him about fifty cents a word.

MR. JOHN W. MACKAY, millionaire, has promised Bowdoin college an endowment of \$50,000.

SECRETARY EVARTS is said to have an eye directed towards Justice Hunt's seat on the supreme bench.

Mrs. CHRISTINE NIELSON in her home wears a simple, dark dress and no jewelry. She does not like to receive interviewers.

EX-QUEEN ISABELLA, now a fat, ungainly, but good-natured-looking woman, drives about Paris in a handsome landau, drawn, not by horses, but by four mules.

MR. WILLIAM H. ENGLISH pays taxes on property in Indianapolis alone valued at about \$700,000. That sum doesn't include his mortgages, bonds, stocks and property in other parts of Indiana.

JOHN RANDOLPH, of Virginia, on being asked why the "Old Dominion" did not prosper more, he replied: "Why the negroes raise the corn, the hogs eat the corn and the negroes eat the hogs."

JUSTIN MCCARTHY is of medium height has a delicate face, with a long, fair beard, and appears to be a severe student. His son has already made his way in literature.

VICTORIA WOODHULL was to have been married in London on the 15th inst. to Martin Lombard, a banker, but the marriage was postponed in consequence of stories from America assailing her character.

Senator BURNSIDE entertains like a prince. He has retained his camp servants and cooks since army days. The butter and vegetables used at his Washington dinners are made and raised on his Rhode Island farm.

LAST JOHN KELLY visited Boston to deliver a lecture for charitable purposes, and the following bill, approved by Mayor Prince of that city, has just appeared: "To refreshments on occasion of the visit of the controller and friends of New York, \$44.10."

THE late Mrs. GROVE, wife of the historian, was a high spirited, boyish sort of a girl; a role without a saddle and sailed
