THE CHURCH AND THE TAVERN. The Fect of the Wicked "Stand" in Slip

pery Places. Anyone who has had occasion to be upon our streets during the present winter -and, for the matter of that, during any preceding winter-cannot but have observed with what care the keepers of saloons and taverns clear the snow from the pavements in front of their places of ousiness, whenever it is possible for them to do so; and, when the pavements are covered with sleet or ice, with what expedition they strew ashes or saw-dust over them to prevent passers-by (and passers-in) from falling.

And anyone who has been much upon the streets must have observed that the sidewalks in front of nearly all the churches of this city are in winter almost constantly clogged with snow, or ice, or sleet, and not the slighest effort made to remove them. It may be set down as an axiom, in a temporal sense at least, that the safest place to go to is the tavern; the most dangerous place the church. The most considerate friends we have are the tavern-keepers; our worst enemies, the sextons, vestrymen, church wardens,&c., The former do all they can to save our lives facts being admitted, is it any wonder the

and limbs; the latter do nothing. These taverus thrive and the churches languish? What sensible man will run the risk of breaking his leg or his neck in going to church, when he can avoid the danger by going to a tavern—especially as the tavern is cosy and comfortable, and the church cold and cheerless. The crop of broken limbs thus far reported is: at the church door, 4; at the tavern door, 0. Spiritually (as also spirituously) consid-

ered, the tavern appears to have the better of the church. If, for instance, a sinner, intending to go to church, fall on the icy pavement thereof, and break his neck, he is irredeemably lost! he tarry at the tavern until the ice melts, he may afterwards repent and be saved before the 4th of July. Thus the tavern-keeper, perhaps unconsciously, becomes an agent of Providence for the salvation of souls, while the church officer, who wrestles too much with prayer and not enough with the ash-bucket, is unconsciously working in behalf of the "opposition." The tavern-keeper knows very well that it is only sometimes " the wicked stand on slippery places" and that it is much easier for him to stand on places that are not slippery; hence his faith in ashes and saw-dust, and his works do follow him. Behold the tavern-keeper, ye church officers, and learn of him. If you cannot make religious worship sufficiently attractive to draw worldlings into the fold, do not compel them to "pass by on the other side" by maintaining icy man traps in front of your on the head. church doors, dangerous alike to saints and sinners. Clothe yourselves in sack cloth and ashes, by the bucketfull. "Scatter seeds of kindness," in the form of sawdust, all along the narrow paths leading to your sanctuaries, and ye shall receive blessings instead of cursings, praises instead of revilings, and be regarded as benefactors and not malefactors, saints and not hypocrites.

-As charity is said to begin at home, it will not be at all amiss if the brethren superintendent will start, but presume it sprinkle their own pavements as well as | will be seen. the church pavements. THE POULTRY SHOW.

Closing Scenes-Successful Results. The poultry show closed last night after a successful run of five days, and the interest it created was kept up to the last oment, visitors continuing to arrive up to the time that exhibitors began to take away their birds, as many of the city ex-hibitors did last between half-past 9 and 11 o'clock. This morning most of the country exhibitors took away their fowls, and those from a distance were shipped to their owners by rail.

The books have not yet been balanced but it is gratifying to know that notwithstanding the very large number of premiums paid by the society the balance is on the right side.

Many members of the society were indefatigable in their efforts to make the show a success, but to J. B. Lichty, the secretary, especial praise is due for the time and labor he has expended in behalf of the society and for the good seuse and judgment with which he fulfilled his duties. High Priced Chickens.

This morning Dr. I. H. Mayer, of West Willow, shipped to New York a pen of no naming of the councilmen, school directions. Brahma chickens, for which he received the large sum of \$81. The doctor is a raiser of fancy poultry and had the chickens that he sold on exhibition at the show in this city.

OBITUARY.

Death of Mrs. Gen. Sutter. Mrs. Annie Sutter, widow of the late Gen. John A. Sutter, died at her home in Lititz last evening about 8 o'clock, aged about 80 years. Mrs. Sutter was born in Switzerland and there married her distinguished husband, who was afterwards destined to play so important a part in the discovery and development of the gold fields of this country. Mrs. Sutter was in declining health for a long time past, and her death was the result of old age rather than of any organic disease. leaves two sons and two daughters, of whom one son and daughter are now in Lititz, and the others in Mexico, the : 01 being the American consul at Acapulco. Mrs. Sutter was highly esteemed in the community in which she so long resided. Her funeral will take take place on Saturday, when her remains will be placed beside those of the general in the vault in the Moravian burying fine as that of stereoscope.

The Firemen.

Diamond's Pardon.

John J. Diamond, an inmate of the Lancaster county prison, whose pardon was ended by the pardon board yesterday, was indicted for the burglary of Dr. J. O. Boyd's office. He plead guilty and was sentenced to pay a fine of \$50 and to undergo an imprisonment of three years and six months. His health has been failing for some time past, as he has consumption, and it was this circumstance that induced his pardon.

OUR REGULAR CORRESPONDENCE In the match, yesterday, on the rive in front of the Continental hotel for the 600 pound hog, Charley Keesey came out the victor and took the stakes. Harry Sholl repurchased the hog, giving for it a twenty dollar gold piece. The winner of the stakes, according to the rules adopted, was to be the man who put in the two

closest shots. A raffle was held after the shooting match yesterday, and Levi Williams, residing near Mountville, who was represented by a man named Witmer, came out ahead with a dice throw of 41 and won the stakes, consisting of two bears, arranged, in military parlance, on a fixed pivot and enabled by some complicated mechanism to fight and hug one another, and to do other funny things with which a bear is supposed to be familiar.

Mrs. Adam Snyder had the misfortune to fall yesterday on a slippery pavement at her residence on Seventh street near Walnut and break her right arm above the wrist. Proper treatment was at once administered and the lady is now suffering but little pain.

In the Second ward Justice Evans is a candidate for re-election, and he will probably be the unanimous choice of the Republicans. Who his opponent on the Democratic ticket will be it is hard to say. It is reported that W. H. Grier, of the Herald, will run for the office. In the First ward the Democratic candidates for the office are few, but the names of three Republicans have already been announced with probably more to follow. Squire Becker is a candidate for re-election and to enter the race with him are Samuel Allison and Peter Fraley. The incumbent will receive the Bull Ring vote almost solid, while between the two last named will be divided the Hog Ringers until the name of one is withdrawn, when the fight will narrow down to the rings. Coasting Prohibited.

Mayor MacGonigle this morning issued an order to the city police force to put a stop to the coasting on the several hills within the city limits. Several serious accidents have already occurred, travelers complain that it is dangerous for them to pass many of the crossings, and residents along the line of the favorite coasting grounds declare that they are much annoved and their slumbers interfered with in consequence of the unreasonably late hours kept by some of the coasters.

The mayor claims authority to put a stop to coasting under the provisions of the law to prevent an obstruction of the public highways.

"Salviati" To-night.-Frederick Paulding, a young actor, will to-night appear at the opera house supported by his own company in the play of "Salviati; or, the Silent Man," an adaptation from the French. On Tucsday evening he played Bertuccio in "The Fool's Revenge," at Reading, and the News of that city, in a very favorable review of the performance said he showed himself to be possessed of "ad-mirable training and dramatic skill of a superior mould. Mr. Paulding was repeatedly applauded, every point receiving hearty recog nition. He has proved himself an actor o genuine merit and a worthy compeer of such

He cited Mr. Clay's interpretation of that doctrine while he was secretary threw a quantity of the acid in Mrs. Rever's face. Mr. Holmes sprang to her assistance and he also had a quantity of self had been President Monroe's secretary of state. That interpretation being, first that the American continents are not subject for future colonization by any European powers, and, second. that whilst we do not desire to interfere in Europe with the political system of the allied powers, we should regard as dangerous to our peace and safety any attempt on their part to extend their system to any position of this hemisphere. This was contained in instructions to Mr. Poisett, the United States minister to Mexico in 1825. Mr. Thompson argued that the whole doctrine culminated in the declaration that the independence of the South American states was to be preserved and that there should be no attempt on the part of any European power or government to interfere with their right of self-governmenttheir right to manage their own affairs in their own way.

Taking Flesh from His Arm to Transplant on His Wife's Body. About five weeks ago a Mrs Wilson, of Philadelphia, was so dangerously burned by her clothing igniting that her life had been despaired of. For weeks she lingered without an intermission of her agony or apparent improvement. Last Wednesday Dr. McLean informed Mr. Wilson that it would be absolutely necessary to transplant live flesh to those parts where the tissues had been called in, decided in favor of the operation. Although her mind was wandering, Mrs. Wilson appeared to have some idea that a painful experiment was impending, and screamed to the doctor to take away the lancet, although he had not displayed, nor indeed, at the time, spoken McLean informed Mr. Wilnervous exhaustion was so great that it

cut ten pieces of skin a quarter of inch square from its upper surface and trans-planted them into the back of Mrs. Wilson. During the whole operaation Mr. Wilson never moved a muscle or showed a sign of the pain that he suffered, while it required the strength of six women to hold Mrs. Wilson as the delicate transfer was made. After the operation was finished the patient seemed more comfortable, the brain trouble gradually subsided, and she is now in a fair way to recover. The self-sacrificing fortitude of Mr. Wilson is the more remarkable because of the fact that for two years past his health has been failing.
