The defense is that by reason of a number of paralytic strokes previous to the making of the will Mrs. Stewart was not of sound mind and was incapable of making a will. It is also claimed that the deceased was influenced in making the will and that she did not have sufficient mind to make a will of her own. On trial.

Before Judge Livingston.

The case of Henry S. Herr vs. Henry H. Harnish, administrator of Michael S Harnish, deceased, and James Keener, was resumed yesterday afternoon. The de-fense is that Keener did not make any contract with the plaintiff for the crection of the building, and is therefore not liable for the indebtedness. It is also claimed that the building was built inferior to contract. on trial.

The following watchers were appointed for the election: First ward, John Schaum, Democrat Charles Martin, Republican.

Fifth ward, Peter Allabach, Democrat Peter Vatter, Republican. Sixth ward, W. U. Hensel, Democrat Newton Stauffer, Republican. Seventh ward, Fred Arnold, Democrat

J. A. Hollinger, Republican. Ninth ward, H. A. Miley, Democrat Joseph Dellet, Republican.

Mack's Minstrels. Last evening one of the best shows o the season was given by Mack's minstrels. The opera house was not as full as it should have been, but the lack of attendance did not affect the show. In the first part there were four end mea. Billy Walling and Howard Munroe were in black. Tommy Daily and Jack Conner, representing the Irish and Dutch, were in odd costume. The quartet called forth loud applause. Trewitz and Shuffy were very fine in their musical moke act and Munroe and Walling caught the house in their sketches and songs and dances. The features of the evening were the Irish acts, (neat and rough), of the Macks-Tommy and Johnny. They were received with tumultuous applause, and the actors were several times recalled. The clog dance of George Graham was excellent and so was that of Cochran and Costello. Jack Conner broke the audience up by his Dutch speech, and he received lots of applause. The Scranton Republican, speaking of the late flood, (not Noah's), asks: "Are gorges gorges when they case to gorge?" We answer, No; an ice gorge, though gorgeous, is not a nice gorge at all; and vet it is not like a lunch-fiend. When the latter ceases to' gorge he is gorged, and gets tight. When an ice gorge ceases to gorge, it is no longer tight; it makes a nice break and is an ice-brake no longer. Literally, the ice is broken, and in political parlance is no longer "solid for Mulhooly," or anybody else, nor will it become solid again unless it "re-form." The gorges have, of course, caused much damming and not a little damning, but a broken dam is not always a broken oath. A broken dam has been known to make a heavy run on the banks, but the deposits it makes are also heavy-a single one sometimes weighing several tons. This would be a nice chunk if it were gold, but being cold it is only an ice chunk. Patent applied for.

THE UNION

And the Fire Appropriations, Mr. G. Edw. Hegener, secretary of the Union steam fire engine and forcing hose company No. 1, by direction of the officers of the company, furnishes for publication the following communication which explains itself:

"The Fire Association of this city, of which this company is not a member, and therefore is not bound by its action, having resolved to go out of service if the appropriation is not paid before March 15. 1881, this is to give notice to the citizens of Lancaster that the Union will, in the future, as they have done in the past, respond willingly to any call in their district or to a fire in any part of the city, when requested to do so by the chief engineer of the department, whether or not they receive their appropriation from the city on or before March 15th or later."

The City Election,

The election for school directors and ward officers is passing off very quietly. In several of the wards not more than half as many votes were polled at 3 o'clock this afternoon as were polled at the same hour at the late presidential election. In the Second, Sixth and Ninth wards the vote is being more fully brought out. Every go to the polls before they close and vote. Our Democratic mayor has done much for the city, and could do more if he had a with Hop Bitters on it, and I thought I would Democratic majority in councils to back

Obituary.

Mr. John Fitzgerald, who died at an early hour on Monday morning after a brief illness, at his residence on West Walnut street, was a native of this city. During his early life he served a term on a man-of-war, after which he worked at cigar-making and subsequently at cigarpacking in which capacity he was emloved by H. L Stehman & Co., to with in a few days of his death. Deceased was a single man, of genial disposition, and leaves a large number of friends to who m his death is a source of regret.

Our readers may remember an article in our paper concerning the gentlemanly clerk, Steve Peoples, of the Stevens house, who on the 2d of January took a sleigh ride with a young lady, and when in the vicinity of Binkley's Bridge, the horse shying turned out the contents of the sleigh P. lost a valuable onyx ring which he prized very highly. What was his surwhen Mr. Jacob Book called in ves terday and handed it to him saying that be found it where the sleigh was oversurned.

A Double Birthday Party. Yesterday was the 37th anniversary of the birth of Wm. W. Huber, barber, No. 70 Locust street, and the first anniversary of the birth of his youngest child. In commemoration of the event and in honor of St. Valentine, Mrs. Huber organized a surprise party for her husband and child, which proved to be a very pleasant affair attended by a number of friends and

Going South. Col. Wm. B. Fordney left Lancaster this afternoon for Philadelphia, where he will join Thos. A. Scott and several distinguished gentlemen and proceed to Pa. COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE First Sergeant L. W. Richards had chief ommand of Company H in its drill last evening. It was the first time in the history of the company that one or the other of the commissioned officers were not present. At a meeting held after drill the final arrangements for the trip to Washington on March 4 were made and a new

member was elected. To-night in the opera house will be given by home talent an entertainment for the benefit of the poor. The object is lieve the poor little sufferer immediately—deaworthy one and this will insure it such pend upon it; there is no mistake about it.

A very complete programme has been gotten up for the entertainment to be even in the opera house on Tuesday evening, February 22d for the benefit of the Reformed church. Mr. D. F. Reese is musical director and F. M. Sauerber stage manager. The acknowledged best voices of Columbia have been secured for the occasion, which with the instrumental music and other features of the programme are assurances enough that the entertainment wil be worth seeing.

Two car loads of Philadelphians on their way home to vote, from Washington D. ., passed through here yesterday afternoon on the 1 o'clock train. They will be shadowed the whole time they are in the city, and we may be sure their votes will be polled for the "right man." To-day, in Columbia, is a day of scratch-

ing, and this fact will be realized when the clerks at the polling places start in on the count of the votes. The weather is all that could be desired, and if a full vote is not brought out it will not be by any fault of the candidates for office, who, one and all, are at the polling places supporting their friends and themselves, with trusty lieu tenants scouring the town on a stillhunt for the aged, infirm, indifferent or any others of the right stamp. There is not so much interest centred in the fight at the Third ward as at the First and Second wards, where the real battle is confined to the election of justice of the peace. The vote on this office in both wards will be close, and it is impossible to say who will come out ahead. There is but little doubt that John A. Slade, Democrat, and A. J. Meyers, Republican, both from the First ward, will be elected to the school board. This will leave but one school director to be wards and best man wins. William Patton, Democrat, is a strong candidate for council from the Second ward, and his election probable. Of the others we can say nothing except that A. C. Guiles, Democrat, for council from the Third ward will also be hard to beat.

During last night a fall of about three feet took place in the river at Columbia, and now all fears that may have been entertained by damage from the ice are at an end. The condition of affairs down the Port Deposit road is unchanged. The Pequea bridge, which was washed from its piers, has gone up the creek and the three miles of ice, on the tracks below, is still there. There is no change in the position of the train which left here on Saturday night and in the opinion of Mr. James H. Daily, P. R. R. despatcher at this place, it will not be able to get through for two weeks, as it will require all of that time to replace the old or put up a new bridge and clear the track of the immense quantity of ice washed upon it. The three feet fall of water here last night indicates that the gorge at Mundorf's island has broken, but we have no positive informa-

tion that such is the case. St. Valentine's day was a day of life in the post office, and the officers there were kept busy from the time the doors were opened until the office was closed for the night. In the evening the ante-room was so crowded that one had trouble in navigating his way through. Of course all or most of the mail of yesterday was received by the children.

The unprecedented success of Speer's Wine in North and South America and Europe, has gained for it among the medical faculty a standing reputation. Chemists and scientific men have visited his cellar in New Jersey, and malyzed his Wine, and pronounce it the most healthy and beneficial in the market. The following letter was received by Mr. Speer from Dr. A. D. Wilson, one of the oldest and most celebrated physicians of New York city: "I have been in the habit of using Speer's Port Grape Wine, and I have found it an excellent stomachic, a gentle stimulant and tonic. It is especially useful in cases of great nervous debility and stomach weakness."

The disposition of unprincipled dealers to adulterate wines has compelled Mr. Speer to bottle all his productions, and place his signature over the cork so as to insure to the public its purity. It is being used in churches for communion purposes. This wine is endorsed by Drs. Atlee and Davis. and sold by H. E. Slaymaker, Lancaster

Proceedings in the Senate. WASHINGTON, Feb. 15 .- The Senate this morning took up the funding bill.

Mr. Bayard spoke to an attentive audience on the floor and in the galleries in explanation of the amendments of the Senate finance committee upon the main features of the bill. He advocated the 31 per cent. rate and a 5-20 bond as a modification of the two propositions of the secretary of the treasury and the House of Representatives, and the compulsory feature of the provision of the House in the fifth section, compelling the banks to exchange bonds of a higher rate for those of a lesser rate Proceedings in the House,

THE TUE. How the French Sell Tickets to the The-

A threatened difficulty over the sale of tickets for the Bernhardt performances, which was to have taken place yesterday, which was to have taken place yesterday, was happily obviated by the very sensible determination of Mr. Agent Myers to postpone the sale until Wednesday next, by which time a pen will be constructed at the theatre, in which a cue may be formed that will prevent either confusion or dispute. Elsewhere we publish the pros and cons of an affair that for a while it was feared would result in the most serious consequences to all concerned. It had its origin. as we understand, in a misapprehension of the custom governing the formation and management of the cue, a custom that in France, where it originated, has all the force of law. The eue is formed upon the just and fair principle of "first come first served." Its formation may commence immediately upon announcement of the object or purpose had in view, as, for instance, the sale of seats for opera or theatre, or the taking of a government loan; but once in line a man can neither surrender his place to another nor leave it, no matter under what pretence, without forfeiture. The place is his by right of seizure for the purpose of securing the seats or loan according to the stipulations of the managers, but he cannot sell it nor give it away without the consent of all or a majority of the parties interested. Thus, even a negro servant who takes his place in a cue cannot surrender the cue. It is only by a rigid adherence to this rule that the rights of the majority in knows a man only by his place in the cue. It knows nothing of the relationship existing between the master and the ser-

it to the person employing him. He has the place and must again take the end of such cases can be maintained. The crowd uant, and cares nothing. If the servant has a place he can keep it until his turn is served, because the crowd is will L'of Eden township, deceased. To prevent any trouble on Wedneday next the management have determined to erect, as we have said, a pen in which a cue may be formed as early as 12 o'clock on Tuesday night. This will be guarded by police, and the rule governing such occasions will be rigidly enforced by them. If a man falls out of his place, no matter what the emergency that calls him, he will lose it, and will have to go to the end of the line again. The law of the cue must prevail; it is the law of the majority; it is for the good of the
