

COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE. Officers Fisher and Lytle made a raid this morning on a gang of tramps at the Susquehanna rolling mill and succeeded in capturing eight. They were taken to Lancaster on the clock train.

The regular monthly meeting of the Vigilant fire company will be held this evening. Mr. Fred. Bucher last evening gave to his Old Fellow friends of Susquehanna lodge No. 80 an account of his recent trip through Europe, his experience at different cities and places of note, etc. His account of the trip is said to have been very interesting, as Mr. Bucher has a good memory and can get out of a story all that is in it.

To-night the audience in the opera house will witness a present appearance, very large. Gus Williams is the attraction. The company arrived here this morning. A fall of very fine snow commenced at about 12:40, p. m. The weather is in fit condition for the continuation of the fair. It was given on a couple of days ago that no service would be held in the United Brethren church on next Sunday, but as the conference has returned Mr. Meiley to his old charge, the present arrangements will probably be changed. There has been a rise of some inches in the river during the past couple days. The water is muddy—all the result of the recent rain.

Mr. A. O. Baker, master mechanic at the P. R. R. road house, is ill, and during his absence the duties of the place will be performed by Mr. J. H. Black. Mr. Black has charge of the appearance of this office.

Mr. P. S. Bruhl, of this place, has sold at private terms his drug store at Wrightsville, to Dr. T. A. Fritzel, of Farmington, Iowa. Dr. Fritzel will assume possession to-day. March 1st—blustery and cold. The March winds came in early. The United Brethren conference at Steelton has decided to return Rev. C. Seltzer Meiley to his charge at this place. Mr. Meiley has given entire satisfaction to his large congregation here and this action of the conference will be heartily approved by the United Brethren.

A rigid inspection of the arms and equipments of Company "C" of the 11th Regt. P. I. was given on the words of Captain Case "they were found to be in exceptionally good condition." Extra drills will be held this and to-morrow evenings and on the latter the final order for the trip to Washington will be issued. A drum corps has been organized for the place.

Charles Saurber, a freight brakeman on the Pennsylvania railroad, residing in Columbia, was injured in the West Philadelphia yard on Saturday. Saurber had been ordered to bump a car he was running on a siding, and in so doing he struck on the same siding which was positioned so near the main track that moving trains would hardly clear it. Saurber allowed his car to run at a higher rate of speed than usual in approaching other cars, and he struck them with such force that he was thrown from his position, that the car was to "bump" farther in on the siding was bumperless. The cars collided, and in the absence of a bumper upon one of them, they came so close together (they were box cars) that Saurber was caught between and severely squeezed. His injuries are not serious, but they are very painful and keep him from work.

As our readers will know a great amount of the timber from the heavily wooded regions of the upper waters of the Susquehanna, when cut, is built into rafts and floated to the eastern markets where the state of the water will permit it. Early spring with its high waters, is the time chosen and during the four or six weeks in which the river runs in such condition the pilots and other raftsmen are as busy as the bees in getting their charges to market. The time is now drawing near when we may expect to see fleets of rafts dropping in, and possibly they will drop in at the rate of a raft every day. They will be compelled to remain here. The recent ice gorge down the river had a damaging effect on the raft course and near Turkey Hill large rafts have been rafted directly into the centre of it. Before rafting can be commenced the ice will have to be cleared away and to clear it the rocks which have caused the trouble will have to be blasted and removed. A great deal of work will have to be done before a clear channel can be provided and at the time the work is done it is feared the season will be over. Several river pilots have been down to Turkey Hill within the past couple of days and have viewed the channel with critical eyes. Their report is that it will require a heap of time and work to get the river to get things in rafting shape and they are not very sanguine of accomplishing much in the way of piloting rafts through to Peach Bottom or Port Deposit this spring. The up-river people will probably be notified of the state of affairs by the arrival of a steamer from Port Deposit, and will make other arrangements to get their timber to market. The canal and railroad companies will profit at the expense of the river men.

WASHINGTON BOROUGHS. Items of interest from there. Many of our people are busy with their tobacco at present. Quite a number have finished stripping and are looking for purchasers. There have been very few lots sold in this section. We have a goodly number of very fine lots waiting for a buyer.

The ladies of the church in this place, consisting of Misses Melinger, Kaufman and Hoover and Mrs. D. R. Saylor, D. N. Kaufman, Brenner, Livergood and others, held a social in the church in order to raise a portion of money for the minister's salary. The refreshments consisted of cake, ice cream and lemonade. The whole affair was a decided success. The tax collector is on the rampage in the borough. Some seizures have been made and others are threatened if not paid until Saturday next.

The Hancock pole which was raised at the Susquehanna hotel was taken down on Monday afternoon. Messrs. Dostler & Siple have embarked in the butchering business in this place. The young men are very active, and there is no doubt of their success.

The new firm at the steam saw mill, Messrs. Havestick & Seifield, are busy drawing out round logs. They purchased all the logs between Turkey Hill and Chickies.

Death of Jacob Shand. Jacob Shand, the well-known carriage builder, died last evening at his residence, No. 422 North Queen street, in the 51st year of his age. He had been suffering for some months with a general ailment, and from this his death resulted. He was a first-class workman and was for a time in partnership with Mr. Edgerley and later with Bailey & Co. He was a member of the Moravian church of Conestoga county, O. T. A. M., and of the Degree of Odd Fellows.

Notary Public Commission. Yesterday Governor Linn issued a commission as notary public to Charles B. Kaufman, of this city, the commission to date from Feb. 28, 1881 and continuing in force for three years.

Death of Asst. Comptroller. Benjamin Ritter and wife, of Warwick township have made a deed of assignment of their property for the benefit of their creditors to Peter S. Reist, and Joseph Hess.

An Old English System Revived. Baltimore Gazette. The agriculturists of Harford county have undertaken an enterprise of considerable importance, under the auspices of the "Deer Creek Farmers' Club," which, there is good reason to believe, will prove of great advantage in several ways. The club is about to initiate a series of co-operative sales of its produce, and its manufacture, to be conducted under the same system as the fairs which are periodically held in the market towns of England and other parts of Great Britain. The first is to be held on the 30th of March, and its success or failure will probably determine the future of the association, but judging from the interest already aroused on the subject and the character of the gentlemen enlisted in the enterprise there is little doubt that it will soon be established on a safe and permanent basis. While the sales will be conducted, as we have said, under the direction of the Deer Creek club, neither the committee nor the club will have the smallest pecuniary interest in them, the object being to provide a means for the disposal of an important portion of the produce which they are enabled to obtain such supplies as they may need at home, and farmers to get rid of worthless or surplus supplies. It is also believed that the facilities to be afforded will have the effect of encouraging farmers from various parts of the county to introduce into Harford county superior stock from which farmers could make their selections advantageously. The expense of conducting the sale will be provided pro rata among the sellers, but it is provided that in no case will the profit be less than 10 per cent, and the probabilities are that it will be much below that figure. For amounts under \$20 cash will be required, and on all sums in excess of that six months' credit will be allowed. The interest that has already been aroused on the subject is shown by a article in the "Eggs," which states that a number of thoroughbred short horn and Jersey cattle, good grade cattle, oxen, mules, fine horses and colts, thoroughbred swine, sheep, poultry, and agricultural implements have been entered and a list of articles to be sold will reach a respectable before the sale takes place. We shall await with considerable interest the result of the first sale, although, as we have indicated, the mutual interests in promoting and in the words of Captain Case "they were found to be in exceptionally good condition." Extra drills will be held this and to-morrow evenings and on the latter the final order for the trip to Washington will be issued. A drum corps has been organized for the place.

Contract Awarded. This forenoon the county commissioners opened the bids received for taking apart and piling upon the bank the timber of the county bridge at the mouth of the Pequea, thrown from the piers and other parts of the upper waters of the Susquehanna, when cut, is built into rafts and floated to the eastern markets where the state of the water will permit it. Early spring with its high waters, is the time chosen and during the four or six weeks in which the river runs in such condition the pilots and other raftsmen are as busy as the bees in getting their charges to market. The time is now drawing near when we may expect to see fleets of rafts dropping in, and possibly they will drop in at the rate of a raft every day. They will be compelled to remain here. The recent ice gorge down the river had a damaging effect on the raft course and near Turkey Hill large rafts have been rafted directly into the centre of it. Before rafting can be commenced the ice will have to be cleared away and to clear it the rocks which have caused the trouble will have to be blasted and removed. A great deal of work will have to be done before a clear channel can be provided and at the time the work is done it is feared the season will be over. Several river pilots have been down to Turkey Hill within the past couple of days and have viewed the channel with critical eyes. Their report is that it will require a heap of time and work to get the river to get things in rafting shape and they are not very sanguine of accomplishing much in the way of piloting rafts through to Peach Bottom or Port Deposit this spring. The up-river people will probably be notified of the state of affairs by the arrival of a steamer from Port Deposit, and will make other arrangements to get their timber to market. The canal and railroad companies will profit at the expense of the river men.

Cost of Educating Pupils. From Superintendent Wickham's report it appears that the cost of educating each pupil in the Wilkesbarre public schools is \$1 per month; in Williamsport 85 cents; in Easton 93 cents; in Albion 56 cents; in Harrisburg \$1.08; in Lancaster 81 cents; in Norrisburg 91 cents; in Parkersburg 85 cents; in Reading 65 cents; in Senanton 70 cents and in York 83 cents—65 cents.

Passed Through. Gas Williams and his company passed through this city this morning on their way to Columbia, where "Our German Senator" will be pushed to-night.

Lucky Boys. John E. Zeeher, who won the sewing machine at the Keystone fair, and Henry Dorwart, who won the bass violin at the Humane fair, gave a set-out to the Shiffler fire company at the Shiffler house last night.

Interesting Reading Matter. Judge Agnew's important paper on railway corporations; some stories of the great freshets in the Susquehanna, and an account of the "Columbian" and its anniversary celebration will be found on our outside pages to-day.

Hot, hot. St. Stephen's Reforming divine service in the chapel of Franklin and Marshall college, to-morrow (Ash Wednesday), at 10 1/2 a. m. Sermon by Rev. T. G. Apple, D. D.

No snuff shall share us except it be with Cuticura Shaving Soap.

Nursing mothers and delicate females gain strength from Mall Bitters.

There is a Holm in Gated. The success which has marked the introduction of Cuticura into the market, prepared by Ely Bros., N. Y., is indeed marvellous. Many persons in Pittston and vicinity are using it with most satisfactory results. It is recommended by the highest sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her hair as incurable. Mr. Barber, the druggist, has used it in his family and commended it very highly. In another column, a young Tankanook lawyer, known to many of our readers, testifies that he was cured of partial deafness. It is certainly a very efficacious remedy. -Pittston Pa., Gazette, August 18, 1879.

Wine Products in New Jersey. This state is becoming celebrated for its wine. The rich soil of the western part, produced in New Jersey, by Mr. A. Speer, whose name has become celebrated as a producer of strictly pure unadulterated Port wine. The wine of Mr. Speer is not only of fine quality, but it is also of a low and has become thoroughly fine and well known. It has become a wonderful assistant to physicians, who prescribe it. This wine is recommended for debilitated persons, for those who are suffering from indigestion, and for those who are suffering from a general debility. It is a very valuable and reliable medicinal preparation. The druggists throughout the country sell it, as bottled by Mr. Speer, -N. Y. Tribune, Philadelphia, Pa., August 18, 1879.

Lady Beautifiers. Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes with all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength and beauty as Hop Bitters. A trial is certain proof. See another column.

It is impossible for a woman after a faithful course of treatment with Lydia E. Pinkham's Vegetable Compound to continue to suffer with a weakness of the uterus. Enclose a stamp to Mrs. Lydia E. Pinkham, 233 Western avenue, Lynn, Mass., for pamphlet.

"Brown's Bronchial Troches" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

"Brown's Bronchial Troches" are not directly on the organs of the voice, they have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produces a clear and distinct enunciation. Speakers and Singers find the Troches useful.

A Cough, Cold, Catarrh or Sore Throat requires immediate attention, as neglect often results in some incurable Lung Disease. "Brown's Bronchial Troches" will almost invariably give relief. Inhalations are offered for sale, many of which are injurious. The genuine "Brown's Bronchial Troches" are sold only in boxes.

Mothers! Mothers! Mothers!!! Are you disturbed at night and broken with crying by sick child suffering with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor child in ten minutes. Depend upon it; there is no mistake about it. There is not another on earth who has ever used it, who will not tell you at once that it will regulate the bowels, give rest to the mother, and relief to the child. It is a perfectly safe and pleasant to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians in the United States. Sold everywhere; 25 cents a bottle.

What It Does. Kidney-Wort moves the bowels regularly, cleanses the blood, and radically cures kidney disease, gravel, piles, bilious headache, and pains which attend indigestion, liver and kidneys. Thousands have been cured why should you not try it? Your druggist will tell you that it is one of the most successful remedies known. It is sold in both Dry and Liquid form, and is perfectly safe and sure in either form. -Dialer, Test, Herald.
