THE LEAF.

Local Tobacco Market.

Last week may be said to have been 'red letter" one among growers, buyers and packers of tobacco. It is believed that more than twice as much of the crop of 1880 was bought as was bought during any other week of the season, and certainly more than twice as much was delivered at the packing houses in this city. It is impossible to tell what proportion of the crop of this county has been purchased; but from the large number of dealers the field, from their unusual the weather has since become favorable for operating, and from the great number reported and published, the total amount cannot of 15,000 cases. much short The prices paid thus far have been decidedly higher than was thought possible earlier in the season, and they are to-day fully maintained. Whether the "boom" will continue and prices be maintained to the end, no one can now tell. Thus far the operations have been confined principally to the better grades of the crop though a number of sales of flea-bitten leaf have been made at low figures. By consulting the list of sales printed below it will be seen that prime leaf has brought as high as 30 cents per pound, and that few wrappers have brought less than 16 cents, while a great proportion runs from 20 to 25 cents. A report of the New York market will

be found on our fourth page. The following named buyers, in addition to those heretofore operating in Laneaster county, are registered at the Calwell house: Julius Ehrman, New York Lobenstein, New York: George Brownstein, San Francisco. Assault and Battery.

On Saturday night Charles King made complaint, before Alderman McConomy, against Benjamin Harman, a one legged man, whom he charges with having hit him on the head with a crutch, near the Pennsylvania railroad depot. King's head was terribly cut, and he claims that he had done nothing whatever to Harman. Later in the night A. L. Kemerer went

to McConomy's office and complained against King, whom he charged with cutting his nose. Both cases will be heard executive committee to have the matter at a future time.

Frederick Williams, arrested by Officer Leman for refusing to give up goods after being informed that they were stolen, and with assaulting and resisting the officer, was given a hearing by Alderman A. The March meeting of the Lancaster County Poultry society was held in the Agricultural society's room, in city hall, this

H. H. Tshudy, the president, being absent, George A. Geyer was called to the chair. The minutes of the last meeting were

read and approved. The following named members were pre sent : President H. H. Tshudy, Lititz; Secretary J. B. Lichty, city; S. P. Eby. esq., city; Wm A. Schoenberger, city; F. R. Diffendersfer, city; C. A. Gast, city; Chas Lippold, city; J. W. Bruckhart, Salunga; T. Frank Evans, Lititz; Geo. A. Geyer, Spring Garden; J. B. Garman, Leacock; Chas E. Long, city; John E. Schum, city; J. C. Linville, Salisbury; W. L. Hershey, Chickies; J. M. Johnston, city; John M. Grider, Mountville; Joseph F. Witmer, Paradise; J. A. Stoher,

The following named gentlemen were proposeed and elected: J. F. Johnston, Maytown; Cyrus B. Neff, Manheim A. C. Musser, Marietta; Dr. Samuel Keller, Elizabethtown; J. S. Keller, Salunga; Henry S. Musser, Marietta; C. Musselman. Witmers : J. H. Tyson, Cordelia. The question "Are the smaller breeds of fowls more subject to injury and diseases caused by changes of the weather than the Asiaties?" was taken up for dis-

Mr. Bruckhart said that one of the worst diseases with which fowls are affected is oup, which is nothing more than a very bad cold, caused by sudden change of weather. His experience had been that the smaller breeds of fowls, as Games, Leghorns, Napoleons, &c., were much more liable to suffer from it in winter than the Asiatics. The Leghorns, which were the best layers in summer, are not so in winter, and he believed it was because they were less able to stand the severe weather than the Asiatics.

Chas, E. Long agreed with Mr. Bruckhart. The large breeds being protected by full fluffs and a heavy coat of feathers, escape the roup, while the Games, Hamburgs, Polands, Leghorns and especially the Bantams, are affected by it and die. In summer the small breeds are no more iable to disease than the large breeds.

S. G. Engle said he had never been

troubled with roup among his fowls; he believed that the Asiatics being large strong birds would stand the weather bet ter and be less liable to discase than smaller birds.

J. A. Stober had had considerable expe rience in breeding large birds, as well as small. He now breeds Hamburgs, and "Mr. J. S. Masterson, of Masters nville, cholera, and since he quit breeding them, took part in the inaugural procession and it is said, has purchased over one hundred he has had no cholera among them. He the members, during the balance of their cases of tobacco from growers in that considered the Hamburgs a very hardy neighborhood.

were in excellent condition, and had been laying since November last.

J. F. Witmer said he had not had much experience with pure breeds, as he allowed his Brahmas, Black Spanish and Leghorns to run together and they were pretty well mixed. He finds that the Cochins hold their own while the smaller laying, he did not get many eggs during master Mullen, James L. Pinkerton, November and the early part of Deember. but about the 20th gof December his hens commenced laying and have been doing well ever since; and he and A. J. J. C. Linville had had no experience in & Son, a lot at 10 round; Gantz & breeding small fowls. During 12 round; Miller, Mengle & Gautz, 3 the past winter he had more eggs than ever before from the same number of hens.

Here the discussion closed. About Partridges. J. M. Johnston said that he was wintering a number of partridges brought from North Carolina for the Lancaster County Game association. Many of the birds had sickened and died. He had fed them almost exclusively on wheat screenings, giving them plenty of fresh water and gravel. The birds were fat and in fine feather, and were only sick a day or two before they died. He asked for information as to the cause of the disease.

Chas. E. Long recommended a change of diet. Screenings often contained weedseeds, some of which might injure the birds; he recommended pure wheat and a portion of cracked corn.

Paying for Stolen Exhibits, Mr. Lichty-said that the executive com mittee recommended the payment to Mr. John E. Schum of \$3 for a pair of valuable pigeons stolen from the late exhibition. He thought under the rules the society was not liable, but Mr. Schum had been a very active member of the society and the stolen birds were worth much more than price above named. On his motion Mr.

Schum was paid \$3. A general discussion was had on the li ability of the society for losses of a similar tacked by Walsh and used the knife in character, Mr. Long, Mr. Lichty, Mr. Evans, Mr. Johnston and others arguing against the liability of the society, and Mr Lippold, Mr. Schum, Mr. Bruckhart and Mr. Grider maintaining that exhibitors must have some guarantee for the safety of their birds or they would not exhibit them. The matter ended in the adoption of a resolution offered by Mr. Long that hereafter at all exhibitions given the soci ety shall not be held responsible for any

ess of exhibits except by fire. Secretary Lichty said that there were reports that appeared to be well founded that birds had been exhibited at both our fairs that did not belong to the exhibitor. This was a violation of the rule, and he hoped that if the fraud was repeated it would be exposed and the offender, if a member of the society, expelled.

A resolution offered by T. Frank Evans

SERIOUS STABBING AFFRAY.

Staman, W. Hayes Grier, of the Herald,

One Man Badly Cuts Another at Robrers-On Saturday evening a party of men,

mostly employees of the rolling mill, among whom were Michael Walsh and Owen Coneys, were gathered at Deitrich's hotel in Rohrerstown. They had all been drinking and about 10 o'clock Walsh and Coneys became engaged in a quarrel. They fought in the house for a time and got out into the street. While there Coneys pulled a knife and stabbed Walsh several times, inflicting an ugly wound in his face, extending from his right eye to his chin, another in his left breast and a third in the abdomen. Walsh was carried to his home where he was attended by a physician, who pronounces his wounds very serious, although he may recover with proper care. After the fight Coneys fled and came to this city. He was followed by parties, and he was found at the "Schooner House" near the depot, where he was arrested by officers Kautz, Coyle and Flick. He was taken before Alderman McConomy by whom he was committed to jail to await the result

of Walsh's injuries. The injured man is probably 30 years of age. He is a resident of Rohrerstown and is employed at the rolling mill as a night boss. He is well known in this city where he has many friends who speak well of him. Coneys is a puddler and is said to be from Philadelphia. He is also over 30 years of age and is considerably larger that Walsh. He is very reticent concerning the affair and refuses to say much about it, but he claims that he was atself defense.

A FINE CROWD They Wanted to Fight and Did

This forenoon there was a merry crowd n Ziegler's hotel, on East King street. A number of them were tramps, peddlers, umbrella menders, etc., and after they had drank considerably they began fighting. Several of them were badly hammered and Ziegler, the proprietor, finding that he was unable to quiet the gang, sent for Officer Holman, who soon arrived and he got into the party. They were bound pure and the most reliable for medicinal purto fight, but finally Officer Holman, assisted by Officers Coyle, Creamer and Flick, succeeded in getting seven of the men to Alderman Barr's office. They there gave their names as follows: James Murray, John Burke, James Dailey, John Lyle, Wm Hart, Wm Burns and Wm Kative, Win Hart, Win Burns and Win Kative.
Burke and Dailey were both sober and they claim that they were not in the row. They were merely in the saloon when the gang was pulled. Win. SPECIAL NOTICES.

Wine Products in New Jersey. This state is becoming celebrated for its wines. Some of the richest in the world are produced in New Jersoy, by Mr. A. Speer, whose name has become celebrated as a producer of strictly pure unadulterated Port

Grape Wine. The wine of Mr. Speer is not bottled or put in market until it is four years old, and has become thoroughly fine and mellow. It has proved itself a wonderful assistant to physicians, who prescribe it. This wine is recommended for debilitated parsons, and is given to consumptives. The difficulty of getting an imported or even a pure California Port is well understood to be so great as to preclude doctors from allowing their patients to run the risk of its use. Mr. Speer being aware of this fact has taken the utmost care in the making of his wine, so as to supplant the imported wines by producing a genuine article. His wines are known by chemists to be poses. The druggists throughout the country sell it, as bottled by Mr. Speer.-N. Y. Tribune This wine is recommended by Drs. Atlee and Davis, and for sale by H. E. Slaymaker.
