## Price Two Cents.

I have also a large stock of Wool and Fur Hats which must be closed out regardless of price, as I intend to do away with that deartment altogether.

I have purchased a large lot of Fine White Shirts from a manufacturer of this eity, which will be sold for 75 cents; they were sold formerly at \$1.50. Don't fail to procure some of them before they are all sold, as they are selling very rapidly, and you may never get the oportunity again to purchase so rare a bargain. With this lot of shirts I also purchased 100 dozen Linen Collars, best quality, which I will sell at the very low price of 10 cents per dozen. As I desire going into my New Store with an entire New Stock, therefore I have made the great reduction in prices.

A call will convince you of the truth of my representations.

I have added to my large stock of readymade Clothing an elegant and well assorted stock of

Mr. Chalfant and Mr. Hensel followed in brief explanations of the desire of legitimate journalism to be protected against the inequalities of the law which often operated harshly against reputable newspapers. All of the editorial speakers paid high tributes to the liberal libel laws of the state and declared that they favored the strictest accountability for the abuse of the prerogatives of the press.
