SPECIAL ANNOUNCEMENT.

AL. ROSENSTEIN, THE LEADER OF FASHIONS,

Two hundred and twenty-five suits for

Two hundred and forty suits for boys. One hundred and sixty-five suits for children.

And about three hundred pairs of trousers for men and boys of all styles and quality, is the balance of my stock of readymade Clothing, which I will dispose of at very low prices, prior to removing on May 1st to my new store room, No. 37 North Queen street, at present occupied by Mr. J. Robrer, the liquor merchant, which will be remodeled during the month of April, where I propose to do a general Merchant Tailoring Business, making it a specialty.

The prices of ready made Clothing range ns follows: Children's Suits, \$1.50, \$1.75, 82, \$2.50, \$3, \$3.50, \$4, \$4.50 and \$5. Boys' Suits, \$2. \$2.50, \$1, \$3.50, \$4, \$4.50, \$5, \$5,50, \$6, \$6 50 and \$7. Men's Suits, \$3, \$3.50, \$4, \$4.50, \$5, \$5.50, \$6, \$7, \$8 and up.

Overcoats, of which I have a large stock on hand, I will close out at 25 per cent. less than the original cost. The above figures are positively about half of my former prices, and then I sold goods for much less than any clothler in this city.

I have also a large stock of Wool and Fur Hats which must be closed out regardless of price, as I intend to do away with that department altogether.

I have purchased a large lot of Finc White Shirts from a manufacturer of this city, which will be sold for 75 cents; they were sold formerly at \$1.50. Don't fail to procure some of them before they are all sold, as they are selling very rapidly, and you may never get the oportunity again to purchase so rare a bargain. With this lot of shirts I also purchased 100 dozen Linen Collars, best quality, which I will sell at the very low price of focents per dozen. As I desire going into my New Store with an entire New Stock, therefore I have made the great reduction in prices.

A call will convince you of the truth of my representations. I have added to my large stock of ready-

made Clothing an elegant and well assort-

AMERICAN SUITINGS,

which are of the fines: fabrics and equal in quality to the imported. These goods are generally represented by Merchant Tailors as English, Scotch and French makes, thereby commanding higher prices. I guarantee every SUIT of CLOTHES made to order at my establishment a perfect fit.

Employ none but first-class cutters and tailors. The best trimmings procured will be used.

As an inducement to those prepared to pay cash, having adopted this system. I will make to order handsome Spring Suits at from \$12 to \$20. Pants from \$3 to \$5.50, which will compare favorably with thse of other Merchant Tailors charging for suits from \$18 to \$25; Pants from \$5 to \$10.

I make my \$15 Suits a specialty and am sure that if you call and examine the material, trimmings and the style in which they will be made up. I am confident it will be an inducement for you to leave vour measure.

DRESS GOODS.

Among our new ail-wool dress-fabrics is an extraordinary flannel, if it is a flannel. It is so extraordinary as to take it out of flannels altogether, perhaps; but we have no better name for it. Many ladies will be obliged for this notice.

JOHN WANAMAKER.

DLACK DRESS GOODS.

New things in black dress goods of almost all sorts are ready.

Slik grenadines came some time ago; now the wool and silk and wool grenadines are here; and the variety is greater than we ever had before greater than anybody ever had, so iar as we know.

New armures, plain and figued, are notable, especially the latter. Among them are armures,

DRESS GOODS.
What art and skill are doing in cotton dress tabrics! Two counters are gorgeous with them. The lowest price is 5½ cents a yard, and the highest 62½ cents; but they are made in soft and delicate ways by texture or print or dye, to rival the stuffs of luxury. Here are the familiar names:

Seersuckers

not often asked to admire so modest works of
art and skill; but see if you can pass these
counters without a new view of modern
achievements. JOHN WANAMAKER. Fourth circle, northwest from centre.

COTTON DRESS GOODS.

A lady who has bought \$45 worth of sateens at several visits here, and who has been everywhere in town, says there's no such collection of wonderful goods anywhere. Our assortment is so large that many patterns are nowhere else perioree; but this is especially true of small figured goods, the choicest of all.

WOOLLEN DRESS GOODS. W Some neat checks to-day, browns and grays, 23-inch, 25 cents. Will pass for all-wool; but a little cotton is carded in.

More Scotch zephyr ginghams are in to day, but not all by any means. Our price is 31 cents; 40 is the New York price.

Now don't suppose that such a difference as that means anything whatever in the ginghams. It does not. It means simply that we buy of the makers, and save one profit.

DOMESTIC CALICOES.
Chintz of indigo-blue ground with white polka-dot of various sizes, and other little figures not unlike the dots of American make, at 10 cents, is a great favorite.
Calicoes in general are 8 cents; but some patterns are 5½, simply because they are not liked so well.

JOHN WANAMAKER,

New armures, plain and figued, are notable, especially the latter. Among them are armures, with small figures and plaids, that can be seen only when looked at in certain ways. The draping of a dress of these would appear to be partly plain and party figured or plaid. The figures and plaids seem to have no existence at all. You can't find them except by accident.

CHIRTING LINEN of a certain make which we know all about we have in ten weights. The coarsest is suitable for men's drawers; the finest for the finest shirt fronts.

This linen we order six months in advance of our wants, have it bleached wholly on the grass, finished without dressing, and labeled "Old-fashioned linen." It is a perfect linen, if care and skill can produce such. We sell it by the side of Richardson linen at two-thirds to three-quarters the price of the latter, which is not a whit better. 28 to 75 cents.

All our linens are bought with just such care and skill as this statement implies; and the and skill as this statement implies; and the largeness of our dealing enables us to add an inducement in price also.

A Large Gathering of Democrats—Speeche by the Especial Guesta of the Evening, General McCleilan, John T. Hoff-man, and Others.

THE DINNER GIVEN IN HIS HONOR AT THE MANHATTAN CLUB.

Gen. Hancock was the guest of the Manhattan club in New York on Saturday evening, the occasion being a dinner given in his honor. He and other guests and members of the club to the number of about 160 sat down to the tables soon after 7. The president of the club, Mr. Aaron J. Vanderpoel, presided. General Hancock sat upon his right hand, and a place for Samuel J. Tilden was reserved upon the left of the president. Mayor Grace and ex-Speaker Samuel J. Randall, were to have occupied the second seats on either side. Both sent word they were prevented from attending by illness. The gentlemen who sat at the table with Gen. Hancok were Clarkson N. Potter, Judge John R. Brady, August Belmont, M. Ro-mero, the Mexican minister, Frederick R. Coudert, John McKeon, Waldo Hutchins, Judge Shea, Col. Doliphan, of Missouri, Peter B. Olney, Edward Cooper, William C. Whitney, Judge L. R. Larremore, Wm. L. Scott, Abram S. Hewitt, F. F. Gunther, ex-Gov, John T. Hoffman, Gen. Geo. B. McClellan, John T. After dinner Gen. Hancock was presented by Mr. Vanderpoel and greeted with prolonged and enthusiastic cheering. When it had subsided he spoke as fol-

ly in consequence of the position I held in the recent canvass for the presidency. I regard my connection with that subject as practically closed. I, however, maintain the principles I held when I accepted the nomination of the Cincinnati convention, and believing as I do that the triumph of those principles would promote the wel-fare of our whole country, I hope to see them prevail at some future time. Their success must rest with the Jeffersonian Democratic party, which to night. To you I concede the presentation of that true republicanism on which our fathers founded the constitution, which has made us great among the nation of the earth. I can only say in relation to the political canvass of 1880 that I have no fault to find with the support of my friends and nothing to regret or modify of my own acts and words. I thank you, gentlemen, most heartily for the honor and pleasure which

you confer upon me by this entertain-In the absence of Mayor Grace, President Samuel D. Babcock of the Chamber of Commerce was called upon to respond in behalf of the city of New York, and

spoke briefly. Ex-Gov. John T. Hoffman was called upon as a veteran Democrat. He said that the assemblage was not a caucus or a convention, but a social gathering in honor of Gen. Hancock. In conclusion he said that after a few more funerals of Democratic persons and resurrections of Democratic principles the Democratic party would come to those true principles upon which alone our republic can continue to

Gen. McClellan said he was reminded of his age by the fact that he was the oldest defeated Democratic candidate living. Horatio Seymour, he said, was his son, Samuel J. Tilden his grandson, and their guest his great-grandson. He was thank-ful to be able to see the last of his line, and hoped that with him the line would end. The Democratic party recognized what an army does—discipline, trusted leaders, and recognized principles to fight for. Without them no party or army could be

Other speakers were Augustus Schell, Frederick B. Coudert and Judge Brady. Among the letters of regret that were read was one from Thurlow Weed, in company as may, in my judgement, be which he said that, owing to age and its infirmities, he was compelled to decline. Danger in Baby Carriages. Infants More Healthy when Carried by Nurse

New York Sun. The physiological or hygienic effect of the baby carriage on the child has been recently considered by Dr. Henry H. Smith in a paper read before the Philadelphia county medical society. Inquiry among physicians tends to fully sustain many of Dr. Smith's conclusions. Divested of techicalities, the results of investigation while other considerations are suggested full of interest to those who have the responsibility of bringing up children.

Attorney-at-Law, of Washington, D. C., form erly an examiner in U. S. Patent Office, offers his services as solicitor before the U. S. and Foreign Patent Offices. Careful work at fair prices. Was associate of Mr. Jacob Stauffer, or sits on its nurse's arm, its head and upper nearly at rest. When, however, a child sits on its nurse's arm, its head and upper extremities are balanced on its pelvis, thus calling into play the spinal erector must such shareholders and bondhold was ordered to be paid with a deduction of the plan for the financial relief of the company. A claim by Mrs. Booth, for each plan for the company which was being carried out with calling into play the spinal erector mus-cles and those of the abdomen, together with those which control the lateral motions of the body. "Hence," the doctor of the court made upon the application of

in balancing its head and shoulders, while the abdominal muscles, acting as flexors of the spine, compress the liver and other viscera, and aid in both respiration and the peristaltic action of the bowels. Such infants are sooner able to sit alone, creen, and walk than the supine product of the baby carriage. Their improved respiration assists the oxygenation of the blood, the waste of tissue ensuing on muscular action increases the necessity for repair, and we find increased appetite with improved nu

It has been contended that the carriages are beneficial by enabling nurses to keep children longer in the air. The doctor con siders that a nurse unable to carry her child is unfit for her duty, and that a fondness for flirtation underlies the nurse's excure of fatigue. He says, moreover that the infant is often neglected and allowed to hang its head over the side of the carriage in a way to induce a certain degree of brain congestion, or is too often found in some position which in time may result in curvature or caries of the spine. Another evil likely to ensue from the constant use of the baby carriage is concussion of the delicate brain or spinal cord of the infant, caused by bouncing the vehi cle over curbstones, a matter as severe upon the nervous system of the child as railroad travel has been shown to be upon the more mature organization of the man. While Dr. Smith fully appreciates the fact that the use of the baby carriage permits the poor, tired mother a little relax-ation, and values it in cases of children recovering from illness, he believes that as a general rule the facts referred to are suffi cient to call attention to the abuse of " a custom that is by no means a necessity in the case of infants, or those under twelve months of age."

In illustrating the foregoing he gave the following two cases: "An infant now nine months old has never been allowed to enter a baby carriage, but has taken its exercise out of doors for several hours at a time on its nurse's arms. It is now able to sit alone; creeps around actively; seldom falls or bumps its head; is bright and observant of everything; creeping to obtain any article that attracts its notice. It has a bright color, nurses and sleeps well, and has had no trouble in teething its digestion being perfect. Another child much larger and weighing twenty-seven pounds, has been kept constantly in its carriage, this being regarded as an excellent place for it to sleep in during the day. It is at present entirely unable to sit erect even when aided by pillows; has a feeble digestion, suffering constantly from flatu-"MR. After referring to the contrivance known as the "baby jumper" as having been set aside some years ago, on account of its giving rise to the development of pes equinus or club foot, the doctor expresses a fear that a somewhat similar deformity is likely to be created by the use of the bicycle by young and growing lads. The cause of this is stated to be the extreme flexion of the toes to reach the treadle that works the machine. To the Stockholders of the Philadelphia & Reading Railroad Company: We beg to state that notwithstanding the unofficial circular, signed "Franklin B.
