Obstuary-Tobacco Sales-Exploring the The friends of Miss Lizzie Kammerer will be pained to learn of her death, which took place last evening at 61 o'clock, although the event was not an unexpected one, for her disease was consumption and her last illness confined her to her bed for fourteen weeks, during a great part of which time it was expected that she would be taken away at any minute. Miss Lizzie was a consistent member of the Episcopal church. She was possessed of a gentle and lady-like disposition; and, although somewhat retired, was known loved and respected by many in our community who sincerely regret her loss. The parents

OUR REGULAR CORRESPONDENCE.

ary of the superintendent of public schools was fixed at \$1,400 | preach. per annum-the same as heretofore-and action was taken on a report that some fences in " Tow Hill" alley had been torn lution, which were adopted, we present in full, because we believe they will be of interest to Columbia tax-payers:

"WHEREAS. The contract for the collection of the school tax for 1889 was given to the collector at the rate of 3} per cent.:

"WHEREAS, It is greatly to the advantshould be collected before the close of the present school year, therefore be it "Resolved, That upon a full settlement,

by Thomas B. Dunbar, collector, of the tax duplicate for 1880, on or before June 1, 1881, he, the said collector, be allowed an additional commission of 11 per cent. on the full amount collected. The five per cent, commission, which is

given to the collector by the increase of the 11 per cent, embodied in the above resolution, puts the collector's commission where it has always stood prior to this year, and is not "a new departure" as may believed by some of our readers. At a meeting of General Welsh post No. 118, G. A. R., held last evening, it was decided to have a "bean bake" for the members of the post at a very early date. A number of recruits were mustered in and the post adjourned to meet

subjected to the same treatment. The proposed new establishment for the manufacture of small articles in steel, of which we have already spoken, will be given a new turn in the development wheel very shortly. In a couple of days we will

have more to say on this subject. This very pleasant weather is being taken advantage of by the farmers roundabout. Among those who are already ploughing the ground is Mr. Henry Wisler the well-known tiller of the soil residing

just beyond the borough limits. The soil is in excellent condition to be turned up. River Pilot Warren Brown, of Washington borough, has recently received letters from timber men up the river who say that the ice has not yet been carried from | The cleansing and tonic power of this medithe upper portions of the north and west | cine on the bowels and kidneys is wonderful. branches of the Susquehanna, and that

until it is carried away they will not start any rafts towards the eastern markets. Between here and the timber lands the river is now in good rafting condition and it is only the fears of what this late-moving ice may do that causes this effectual check. The trouble at Turkey Hill with high water may be averted, as the rocks in the channel are sunken to such a depth that a raft may pass over them without striking, in high water only. A couple of light raits, which had been been lying near here since last fall, have been taken over the Turkey Hill rocks and through to Port Deposit. The sunken rock nearest the surface of the water was felt for with the rear oar blade of one of the rafts as it was passed over, and it was found to be two feet or more below the water's level. With a fall of a foot in the river, however, it will not be safe to run from here down. The river is yet falling.

Mr. Henry Stevenson, a former resident of Columbia and well-known here, is lying seriously ill at his home in Duncannon. Mr. Stevenson has several sons here, three of whom are in the service of the Penusylvania railroad company in the different offices in town and one as book-keeper at H. F. Bruner's coal yard.

A circular has been distributed the past week to the patrons of the People's, requesting all per-sons not to deliver their policies to anyone but Mr. Metzler. I have no objection to Mr. Metzler retaining all the business he had made for the German America, but I do object to him trying to capture a trade which he never had, and which justly belongs to me. I think it very discourteous, it not impudent, to do so. Myself and my Solleitor, Watson H. In my own case, with a badly Ulcerated Throat, after a physician penciling it for several days to no effect, the Eclectric Oil cured it thoroughly in twenty-four hours, and in threatened croup in my children this winter it never failed to relieve almost immediately.
