OUR GEORGETOWN CORRESPONDENCE.

Mr. Howard Whiteside, proprietor of Nine Points hotel, who died on Thursday, the 24th inst., was buried at Colerain Baptist burial ground on Sunday, 27th. Two men came into the village of

Georgetown on Thursday evening of last week with a few oysters and shad in their wagon. They stayed over night at the hotel, and during the evening told a story of being robbed of some thirty odd dollars at London Grove hotel in the afternoon. Whether the story was a correct one or not is not known, as the parties complaining were considerably under the influence of "fire water."

The past week has witnessed some changes in the village and township, but the coming will witness considerably more. Some of the parties who have changed residence have gone out of the state, while others remain in the township.

Some little hopes are entertained that the railroad transactions between the P. W. & B. company and the P. R. R. will resalt in the construction of a road that will go through the iron lands in this vicinity and open up a new industry among The contemplated road, from New York to Washington, now spoken of, would find a good trade and easy construction through this neighborhood, as the Octoraro branches would give access to the river with little heavy grading. Let it come.

The band concert at Nickel Mines proved a success. The house was crowded and good order was maintained. The "band boys" were decked in their new suits, of blue-gray cloth, blue cap and white and red plumes, and looked remarkably well are members of the society or not-and to for men whose days are spent at hard the amount of certificates they hold, each work. A curtain was drawn across the plat form of the school house, behind which the band arranged itself, and when the curtain was drawn the bright horns and suits looked remarkably well. Shelling nodded and the band struck up a tune which was executed with an ability that would be creditable to older bands in this far as known, their residences. neighborhood. Even those who were skeptical in regard to the success of a band at Nickel Mines were compelled to admit that the "boys" were improving rapidly. The entertainment was varied with an orchestra composed of two of ownership, under the resolution of 29th violins, cornet and organ, vocal of July, 1871. music with organ accompaniment, organ ducts, and some comic songs by Master Schelling, which brought either finaly or the progress it has made in down the house. Miss Jennie Doble was the work assigned it. their organist and soprauo singer, and performed her part with commendable ability. Davis and Baker said committee. The Nickel Mine band is composed of

young men who are employed at the mines and was started some seven month ago. With very little drawbacks they have pushed along until at the present time they have a full band of sixteen pieces, fully equipped, and have mastered the minor elements of band music. They have displayed an amount of perseverance, which if maintained, will soon place them in the lead of country bands.
