It may frequently interest some reader to know on which day of the week a certain event has occurred. Here is a very simple way of finding out. First, divide the date of the year of the occurrence by 4. The quotient (leaving away all fractions, if there be any) add again to the date of the year of the occurrence. To this add the number of days from the first of January to the date of the month of the occurrence (always counting February twenty-eight days). The result of this now divide by 7, and here the fraction gives the exact day of the occurrence, 1 counting for Sunday, 2 for Monday, and so on, 0 counting

for Saturday. For example : Washington was born February 22, 1732. To find out on what day he was born: 1782 divided by 4 equals 433. 1732 plus 433 equals 2165. From the 1st of January to 22d of February are 53 days. These added to 2165 equal 2218. Now we divide by 7. 2218 divided by 7 equals 316, leaving us the fraction of 6. Hence, Washington was born on Friday.

Example for a coming event : If we wish to know on which day in 1882 our parents will have the pleasure of celebrating their golden wedding, January 14; 1882 divided by 4 equal 470. 1882 plus 470 equals 2352, plus 14 equals 2366, divided by 7 equals 338, leaving 0 as a remainder, which falls on Saturday.

Kicked by a Horse,

Samuel Hoffman, residing near Mount Joy, was kicked by a stallion belonging to George Grossman at the stables of the Merrimac House this forenoon. He had one arm broken, and was otherwise badly bruised about the body. Dr. M. L. Herr attended his injuries. It appears that this stallion was standing near another with only a board partition between them. The horses grew restless, and one of them began kicking Mr. Hoffman was in the stable at the time he was struck.

Amos Warfel, of Conestoga township, who was in the stable at the time, was also kicked, and had his shoulder-blade fractured. He received surgical attention from Dr. J. C. Gatchell.

The New City Loan.

The bids for the new city 4 per cent loan, were opened at the mayor's office this afternoon. There were about forty bidders in sums ranging from \$100 to \$100,000. The bulk of the bids (about \$120,000) were at par, and the remainder (about \$40,000) at premiums ranging from 1-20 of 1 per cent. up to 1 per cent premium The total amount of the bids to-day was \$161,500. which, added to \$25,000 bid for and awarded under a prior advertisement, makes \$186,500 of the loan that has been bid for, leaving only \$13,500 to be disposei of

And deprived of renown New Milk Wagon.

There appeared on our streets for the first time to day a milk wagon, built es pecially for Mr. Daniel Fegley, and of an entirely new style and pattern known as the "Guernsey dairy." The body of the vehicle is raised on a light platform gearing in a manner that enables it to be turned about without any difficulty in the narrowest quarters. The front, sides back are composed of glass, the exception of the frame, of course. In the rear are two folding doors, and on the sides sliding doors, the latter being provided also with smaller doors, through which the driver can serve his customers, and which, being kept closed, prevent grain, wind or cold from penetrating. It is also furnished inside with a writing desk, money drawer and revolving chair. The body of the wagon is painted black with gold stripes, and the gearing is cream colored. It presented quite a nobby appearance on our streets to-day, being as handsome in construction as it is novel and ingenious in pattern, and reflecting credit upon its owner, Mr. Fegley, and its maker, G. W. Killian, whose shop is at the corner of Christian

Consumption Cared. Hundreds of people throughout the New England States who were consumptive will testify to their being alive to-day from the use of speer's Port Grape Wine, produced in Pas-anic, New Jersey. It is prescribed by physicians generally and used in hospitals for this purpose. Weakly and deblitated females, consumptives, and all aged persons, find a great benefit by its use. Nothing is better for overworked or exhausted ladies. This wine is endorsed by Drs. Atlee and Davis, and for sale by H. E. Slaymaker.

FRIDAY (EVENING, APRIL 1, 1881. WEATHER INDICATIONS. Washington, April 1 .- For the Middle states, partly cloudy weather, occasionally light snow, northwest to southwest winds, slight fall in temperature and slowly rising barometer.

The chief signal officer furnishes the following special bulletin to the press: The severe storm which was central near Boston yesterday, has moved northwestward, and is now central near Halifax. Brisk to high northeast to northwest winds prevailed on the Atlantic coast during Thursday night from Eastport to Hatteras, and cloudy weather with light snow continues in the lake region, the Ohio Valley, Tennessee and Pennsylvania. The temperature has fallen in the lake region and northwest, and thence southward to the gulf states, and is below freezing in Northern Texas, Tennessee, West Virginia and thence northward over the lake region. It is 10 degrees below zero in Northern Minnesota and from 25 to 35 degrees below the mean from Lake Superior and Minnesota southward to Tennessee, Arkansas and Norhtern Texas. A severe norther prevails on the Texas coast. The indications are that fair colder weather will prevail in the districts on the Atlantic coast on Saturday, and fair weather with slowly rising temperature will prevail during Sunday in the districts east of the Mississippi. The temperature will prob ably rise in the grain-growing regions of the Northwest during Saturday and Sun-

Rush of the Office-seekers. N. Y. Herald Washington Dispatch. While the business of the Senate is at a dead-lock on the question of electing a new set of officers the heads of departments also complain that their time is so consumed by applicants for office that it is almost impossible to attend to the routine

the month of March.

business of their respective departments. The seekers for official pa-tronage are daily increasing in volume and intensity, urging their claims through congressmen-elect, ex members and others who assert the right of access to the private office, of cabinet officers whenever they call. Of the seven departments of the government, the navy has the least in the way of patronage. Some idea, therefore, may be had of the pressure brought upon Secretary Hunt when it is said that for a prospective vacancy in the paymaster's corps for the position of assistant paymaster there are already on the file 126 applications. Almost as much influence is presented for the the appointment of a clerk, messenger or laborer, as though the place sought was one of naval rank. Of course the secretary has no vacancies to be filled, yet the bearer of the recommenda tions expects, and, in some cases demands that his petition shall receive his imme diate and favorable consideration. The most the head of any department can do is to treat the visitor politely which expends his time, and during the seven hours alloted for the daily duties of his department he finds that more than one-half of the time has passed in hearing the demands of the importunate office seekers. The head of a bureau in one of the departments told your correspondent few days ago that he had some important matters which he wanted to present to the head of his department, and for that purpose had made repeated visits to the

official's attention, and was seriously thinking whether it wouldn't be a good plan to get some congressman to present
