The Citizens' band at its meeting last evening elected four new members. It now begins to look as if the winter is just commencing. The weather if getting colder in place of warmer.

A wreck occurred to the forty-two car freight train going down the Port Daposit railroad yesterday which caused a detention of more than three hours to trains in both directions. We understand that a car load of iron was thrown into the river. The wreck occurred on a short curve. Singularly enough the first freight of the Philadelphia, Wilmington & Balti more railroad, passing over this line, was on the wrecked train.

Tramps are again becoming thick in town, and going from door to door begging for something to eat.

day, is still lying along the shore near Ed. N. Smith's planing mill, and is well worth a visit from any of our townspeople who have never seen one, as it is composed of the choicest timber which the timber lands of the north and west branches of the Susquehanna can produce. This raft like all spar rafts is put together of sticks perfeetly straight and with very few knots, and is especially valuable from the fact that its timbers are intended for masts for vessels. The pieces to it measure from 84 to 92 feet in length, and in diameter from ideas of the builder, but in all cases means are provided for fastening or lashing without resorting to boring the wood. Each stick of the raft now lying here is estimawinds fall.

WASHINGTON, B. C.

Things Down the River. One of our schools has closed, the other two will close in a week when the school master will most certainly be abroad, in fact one of the number was abroad on last Saturday and our pavements were Lardly

broad enough for him. Owing to the cold weather and much wind the civer is getting rather low. A few rafts have passed down, but before there is anything like rafting there will have to be warmer weather and another rise in the river. The obstruction that was in the raft channel at Turkey Hill. has been removed by the raftmen of this place

so the course is now clear. Our new council were sworn in on Monday forenoon, and to them the burdened taxpayer of the borough looks for relief if if there was any money taken out of the borough treasury to pay any bills for which the borough was not responsible. It is hoped that all such crookedness will

be shown up. The old town conneil held their last meeting on last Saturday evening, at which time they proposed to audit the account between the secretary and treasurer. The auditors were all present and they commenced to audit the account. All went "lovely" until the auditors wished to see the bill for which the orders were granted; but as soon as that request was made, the councilmen who were present, said that the auditors had no right to ask for the bills; no matters what the orders were granted for, i they (the orders) were properly signed, it was no business of the auditors to see the blls, but the auditors semed to think that in order to audit the account correctly they should see all bills for which orders were granted, hence they would not sign the report as correct, they claiming that it was impossible to tell whether all things were right or not; no sooner

did the auditors refuse to sign the report than one of the "Fathers" moved that the finance committee take hold of the matter which was agreed to by two ayes and a grunt, after which two of said committee idvanced and signed a report which the auditors elected to attend to such affairs refused to sign.

Providence Township News. The 1st of April is over, and moving is nearly an end for this year. A great many changes have been made in this section of the country.

Farmer are very much behind with the spring work. The wheat looks as though it might be a small crop this year. They have not done much plowing yet, for the ground is to full of water. The waters in general are very strong, springs that have not run for twenty-five years are running now, and give fair promise to run all summer.

A great deal of building is going to be done this year. Several are at the work already.

Teams and wagons loaded with tobacco are still seen on the roads. Yet there are still lots of the precious good to sell here. On Tuesday, March 29th, Aaron Charles took possession of the Blue Bell hotel and on the evening of the same day there was quite a crowd gathered together to have a dance. Some of them, who felt somewhat good from the moving, got into a rough quarrel, and one man, by the name of Harry Scott, in trying to restore peace, was turned upon and some four or five struck and kicked him in a brutal manner. Scott is not able to be out of bed yet from | combination the palm." his injuries received in trying to keep down a quarrel in a man's house. Inasmuch as it has pleased Almighty God in His mysterious and wise providence to call away to-day from the midst of his family and from his field of labor the Rev. W. That we bow with profound sorrow to this sad but wise dispensation: resting assured that our Father in heaven will overrule this affliction to the good of His people, Resolved, That we recognize in the departure of Rev. Amusements "Evangeline."-To-morrow night Rice's company will present the new version of that sparkling operatic extravaganza, " Evangeline," one of the brightest and cheerlest of modern travesties, and popular wherever it has been performed. The New York Sun of Late date says of the company: "Mile. Jar-beau, in the character of Evangeline, was par exe. lience, and the hero of the play, Gabriel, was done to perfection by Miss Louise Searle. The portly George K. Fortesque presented a mirthful object as the shy Catherine. In fact all the characters were well taken, and we find no room for criticism than awarding Rice's

"Carmen."-On Thursday evening M. B. Leaviti'a burlesque opera company will produce in this city the travesty of "Carmen; or, Soldiers and Seville lans." The New York Herald noticing a recent rendition of the piece there, says: "The performance may be described as a success, and one that justified the approbation that was frequently expressed during the evening. The plece is well fitted for the entertainment of an audience that seeks no higher pleasure than that which attaches to rolicking music, rich costumes, handsome limbs and faces, a picturesque en scenic effects, and last night there was little or no cause for disappointment."

SPECIAL NOTICES.

Consumption Cared. Hundreds of people throughout the New England States who were consumptive will testify to their being alive to-day from the use of speer's Port Grape Wine, produced in Pas-saic, New Jersey. It is prescribed by physicians generally and used in hospitals for this purpose. Weakly and debilitated females consumptives, and all age: persons, find a great benefit by its use. Nothing is better for overworked or exhausted ladies. This wine is endorsed by Drs. Atlee and Davis, and for sale by H. E. Slayidaker.

"You Den't Know Their Value." "They cured me of Ague, Billiousness and Kidney Complaint, as recommended. I had a halt bottle left which I used for my two little girls, whom the doctors and neighbors said could not be cured. I am confident I should have lost both of them one night if I had not had the Hop Bitters in my house to use. I found they did them so much good I continned with them, and they are now well. That is why I say you do not know half the value of Hop Bitters, and do not recommend them highly enough."-B., Rochester, N. Y.

Wonderful l'ower. When a medicine performs such cures as Kidney-Wort is constantly doing, it may truly be said to have wonderful power. A carpen ter in Montgomery, Vt., had suffered for eight years from the worst of kidney discases, and had been wholly incapaciated for work. He says, "One box made a new man of me, and I sincerely believe it will restore to health all that are similarly afflicted." It is now sold in both liquid and dry torm.-Danbury News.

THE FIRE FIEND.

Serious Work of the Flames to Philadelphia PRILADELPHIA, April 5 .- Early this morning a fire broke out in the large factory of the Farmers' Bone and Fertilizing company at Mifflin street wharf on the Delaware, which completely consumed that property, about sixty boat houses and a small frame refreshment saloon near by, and which was only controlled when there was nothing more left to burn. Three or four of the yachts were burned, the remainder being removed to a place of safety. The total loss is about \$15,000. There is no doubt but that the fire was the work of an incendiary. The works gave employ-ment to about 100 hands.
