NEW THINGS FOR SPRING 1881

JOHN WANAMAKER'S

THIRTEENTH AND MARKET AND CHESTNUT STREETS, PHILADELPHIA.

In value and variety exceeding any Retail Store in Philadelphia.

We have done our best every Spring to have ready the best and largest assortment of goods for personal wear and house use. It is an easy thing to say that with experience gained since last season, this spring shall be an improvement—that it shall be the very best yet. Come and see how great the contrast for the fletter a single year can make. Our whole stock for this spring is, we believe, the very best that we have ever gathered for our customers, and in carefulness of selection and excellence of materials and variety of uses, is not matched anywhere else on this side of the Atlantic. Every railroad to Philadelphia will bring you within a few squares of the store, and if time for shopping is limited-or if it is not-we can save you in purchasing.

JUST FROM PARIS.

Paristan concelts in laces, received from our resident buyer.

Persian point lace. The foundation of Breton net is half covered with neglige chain with solid figures of embroidery interspersed. Two patterns only. In onc. the embroidery is quite subordinate, 3-inch, \$2 a yard; in the other, it is the principal feature, 4-inch, \$3. Spanish lace, for parasols and dresses to match. The combinations received are black-and-cardinal, and old-gold-and-black. JOHN WANAMAKER. Second circle, south from centre

ALSO FROM PARIS. Silk fichu, embroidered with silk and gold, and bordered with iacs which is also embroi-dered with silk and gold; \$7. Collar and cuffs of white satin embroidered with gold and trimmed with point d'Alencon,

Received, also from the same source, a genreal assortment of laces and nets. These do not call for mention of themselves, because they do not add to our variety; but they have the effect to lower prices. When we gain, you gain; for we do not care to make more than an average profit.

JOHN WANAMAKER. JOHN WANAMAKER. Nine counters southwest from centre.

DRESS-GOODS. Shepherd's plaid, black-and-white, brown-and-white, gray-and-white, at 87% cents for 23-inch, all-wool, will please many. JOHN WANAMAKER. Third circle southeast of centro. DEBEIGES,

Everybody knows, are staple goods. One looks at novelties and buys staples. Staple means something that almost everybody buys. What everybody buys is certain to be a good thing somehow. The way debeiges are good is this: the money goes all for use and none for show; or rather none for that kind of show which limits use.

which limits use.
Why last spring we bought in one lot \$30,000 worth of debeiges, and have been buying in debeiges ever since. And now we have more debeiges than you will look at, all browns and debeiges than you will look at, all browns and the way from 25 cents for 22-inch to \$1. 10 for 46-inch. A particularly good quality is 60 cents for 43-inch.

in cotton dress goods, there's no such staple as ginghams. So far as the appearance is concerned, there's fange enough in the American at 15 cents: but if fineness of fabric is regarded, you will buy the Scotch at 31 cents. BLACK DRESS GOODS. Sew things in black dress goods of almost all norts are ready.

Silk grenedines came some time ago; now the wool and silk and wool grenadines are here; and the variety is greater than we ever had before, greater than anybody ever had, so

far as we know. New armures, plain and figured, are notable. New armures, plain and figured, are notable, especially the latter. Among them are armures with small figures and plaids, that can be seen only when looked at in certain ways. The draping of a dress of these would appear to be partly plain and partly figured or plain. The figures or plaids seem to have no existence at all. You can't find them except by accepted.

JOHN WANAMAKER. Next outer circle, Chestnut Street entrance SATEENS, ETC.

Tolle d'Alsace is a similar fabric to Scotch gingham, but of softer finish, and printed; 30 cents. Sateen is even finer, and the warp is cents. Sateen is even finer, and the warp is thrown upon the surface so successfully as to leave it as smooth as satin, which indeed it much resembles. This also is printed in exquisite designs, and the printing is the more successful, because the surface is so smooth. The boquet squares (nobody else has them yet, so far as we know) appear to have been a Paristan afterthought. They are of sateen and are used as garniture of sateen dresses. Nothing in cotton printing, probably, was ever anything like so rich before.

JOHN WANAMAKER. Fourth circle, Thirteenth-street entrance.

PARASOLS. Twenty-five slik parasol covers, embroid-ered in China with sliver and gold, in quaint and rather characteristic, but not extreme, Chinese designs, with wide borders and varie-gated slik linings, have been imported and put on neat frames, with variety of sticks. Fifteen of the twenty five have come to us. They are in our collection of noveltics, at \$12. We shall have pleasure in showing you over. We shall have pleasure in showing you overy

CARPETS.

We ought not to omit earpets; but it is too late to say anything more than the general fact that we have one of the largest, and some say the very choicest, collections of carpets

CORSETS.

The Margot corset for stout figures, very long and with wide band at the bottom, which we have been out of for some time, is now here, \$2. We have also a general assortment of French, German and American corsets.

SCOTCH GINGHAMS.

More Scotch zephyr ginghams are in to-day, but not all by any means. Our price is 31 cents; 40 is the New York price.

Now, don't suppose that such a difference as that means anything whatever in the ginghams. It does not. It means simply that we buy of the makers, and save one profit.

JOHN WANAMAKER.

Fourth circle, Thirteenth Street entrance.

DOMESTIC GINGHAMS.

If you would rather buy a coarser or heavier gingham, that looks just as well a little way off, at 15 cents, the Madras zephyrs, of Ameri-can make, are what you want. They are fast can make, are white years colors too.

Then the Zanzibars, at 18 conts, are a little heavier and closer woven. The modest Cheviot plaids at 15 cents and seersuckers at 15 and 18 cents are here also.

DRESSES AND CLOAKS.

Silk dresses of our own styles, not to be found eisewhere till they are copied, at \$15, \$17 and \$18; and cloth dresses at \$10 to \$30.

Misses' and children's dresses of flannel and cloth; new. Also debeige dresses, not new, at less than half of last season's price; viz: \$3 and \$4. is, probably, no bett-r money's worth than the others; but almost exactly the same has just been offered us at wholesale for a little more money than we are selling it at.

Third circle south of centre.

Heavy rich damase silks of all colors, \$2.75; last season's \$5 and \$5 goods; are now selling in preferance to the latest noveities, of course on account of richness and price. Plain silks of the same colors to combine with them.

The following are just received from our buyer resident in Paris:

Pongees, richly embroidered by hand, with sprays of flowers and with birds. The prices of those ready to-day are \$28 to \$36 per piece of 4½ yards. More are coming.

New designs in French foulards, \$2.

Misses and boys French ribbed hose at 40 to 55 cents, according to size; 6 to 8½ inch; is sat! to be selling elsewhere at 65 to 80 cents. Cardinals, navy blue and ecru.

JOHN WANAMAKER.
Outer circle, Chestnut Street entrance. DOMESTIC CALICOES.

Chintz of indigo-blue ground with white polka dots of various sizes and other little fig-ures not unlike the dots of the American make, at 10 cents, is a great favorite.

Calledes in general are 8 cents; but some patterns are 5½, simply because they are not liked as well-state.

BOUQUET SQUARES.

The bouquet squares of sateen are a late thought from that wonderful city where everybody vies with everybody as to who shall produce the latest new thing. Nobody has them here or in New York, so far as we know. We

here or in New York, so far as we know. We should'nt have them ourselves for some weeks yet, but for our buyer resident in Paris, whose duty it is to send us promptly everything new. Since their arrival, especially, sateens are rising in favor.

At the risk of being tiresome, let us repeat: Our sateens are mostly small figured; though we have about 50 styles of large figured. There are also plain colored sateens of the celor of the ground of every style we have, for combination with the figured. The bouquet squares also for combination with the figured, though in a different way, are each less than a yard, and consist of a plain ground with wide border of darker shade, and with a large bouquet in two corners diagonally opposite. The accompanying fashion plates show how they are draped. One does not easily believe that these bouquets are cotton prints; but they are.

Fourth circle, Thirteenth Street entrance.

CHECKS.

Black-and-white, blue-white, green-and-white, and various mix-colored checks in three sizes, all quite small; fabric either wool, or cotton-and-wool, as you may prefer, at 7 when wool and cotton and wool are at the same price, you probably expect to find a difference in the appearance of the goods to make even the difference in material.

JOHN WANAMAKER.
Second circle, east from centre.

CHECKS AGAIN.

The same checks in silk-and-wool; but the silk has nothing to do with the cheeks. Three solitary heavy silk threads of bright color two checks apart, cross three other just such threads of the same bright color; and there's a coppery plaid over the checks or blue! or another color! It is like a delicate veil over a laily's face; doesn't hurt the face a bit—sometimes. \$1.50.

JOHN WANAMAKER. JOHN WANAMAKER.
Third circle, southeast from the centre.

A new woolen plaid of very quiet though marked effect, has a figure about three inches square. The peculiarity of it is, perhaps, that you don't know exactly where the figure begins, or comes to an end; and the colors are no more pronounced than the figure. From the double modesty of form and color, comes the quiet effect of the whole. \$1.10.

JOHN WANAMAKER. Third circle, south of centre. FURNITURE.

A clue to the character of our furniture without seeing it. Take, for example, a bed-room suite of three pieces.

THE FINNEY-HURD HOMICIDE

CORONER'S INVESTIGATION. The Testimony of the Bostors and Others. The coroner's inquest to take testimony

and ascertain the cause of the death of Luther J. Hurd drew to the orphans' court room last evening a very large throng of interested spectators, the court room being much crowded. District Attorney Davis represented the commonwealth, and Wm. represented the commonwealth, and Wm. Leaman, J. W. F. Swift and J. Hay Brown

esqs., represented Mr. Finney. Coroner Mishler after calling over the names of his jury turned the case over to

the district attorney.
Dr. S. T. Davis, who had been previously sworn, was the first witness called and testified that he was present at the Grape hotel on Sunday morning, April 10th, and made the post-mortem, assisted by Dr. Wm. Compton, the other physician of the coroner, in the presence of Dr. John L. Atlee and Dr. Oliver Roland. Upon making an incision of the medium line over the perineum there was discovered ecchymosis

ecchymotic spots-one on either side of the in that part which is railed off; Mr. Hurd anus; blood and urine, to the amount of about half a pint was contained in the bladder. The cellular tissue of the perineum was filled with grumous blood; there was, upon opening the parts and exposing the urethra, a rupture or laceration on the left side to the extent of about three-quarters of an inch, through which witness pressed coagulated blood in considerable quantities. The arteries involved, and which were injured, were the left internal public transversalic perinea and the superficial perineum. In addition to this the large net work of veins which lie over the arteries were also injured.

The immediate cause of Mr. Hurd's death was hemorrhage or loss of blood, caused by violence immediately in front of the anus; it was done by a blunt instrument; a kick with a boot or a shoe might have produced it. Witness said he was a regular practising physician; had prac-

ticed 15 years. Dr. Wm. Compton testified that he was present at the inquest and assisted Dr. Davis in making the post mortem; witness corrroborated Dr. Davis's statement just made, and said he had practiced medicine 25 years : the immediate cause of Mr. Hurd's death was hemorrhage, produced by violence with blunt instrument.

C. A. Rittenhouse, affirmed. Was present at the Grape hotel when the altercaproper to his case; he was somewhat quieter at the second visit, but the hemorrhage had not ceased; visited him again the same evening about 8 o'clock in consultation with Dr. John L. Atlee, ; he was quieter, though the hemorrhage was the hall; was attracted to the office by still going on but not so rapidly. Fur- some loud talk; when a step or two from

tion occurred between Mr. Finney and Mr. Hurd; was coming down the stairway into ther remedies were resorted to to check it the bottom of the stairs I looked through and they succeeded; he left him in fair the window between the hall and office, condition, quiet and free from pain. Visit- and saw Mr. Finney, who was inside the ed him early Friday morning; witness boarded at the house, he visited him five or six times during the day, to carry out to the left to be seen; witness's attention the line of treatment agreed upon; he was then for a moment directed to some person in the hall; when he next saw Finney he was outside the railing, moving Friday there was no hemorrhage; saw him Saturday morning and several times during the day; in the evening he had a slight hemorrhage; witness and Dr. Aton account of the office desk being in line; lee had a long conversation with him; left him at 8 o'clock; his condition was then excellent, physically and mentally, coninside the office railing and Mr. Hurd apexcellent, physically and mentally, con-sidering the nature of his injury; next proaching from the door as though he had saw him a little before 8 o'clock Sunday just come in; witness resides in College-morning; had been sent for; one of the girls was in the room with him when witness arrived ; found that he was dying, or uated at the theological seminary, Lancas

Had the blow myself when he died, Dr. J. L. Atlee, Wm. Leaman, esq , and C. A. Ritten-house. At the third fist. visit, when Dr. Atlee was present, Mr. Hurd asked how long he would likely be confined; witness told him probably for

This ended the inquest, and the jury re tired to make up their verdict. In a short time they returned the following verdict: "Luther J. Hurd came to his death by violence produced by a kick from Wm. B Finney.
