here, and, as we were short, both pasture and green fodder, she was fed much of the summer on hay and bran. Winter set in early; we had snow and frost in October, and the cow calved in frost in October, and the cow calved in January, just 10¹ months from her pre-vious calving. Her year was, therefore, a short and unfavorable one. Yet, in spite of this, and in spite of her sucking herself, she yielded 4,728¹ pounds of milk in nine months, which included most of her drying off, and then had her sixth calf at six years of area. I think that under at six years of age. I think that under the circumstances she has done well.

Referring to the milk record, I find she was giving 28 pounds daily, last March, on day food. In August, in the midst of the drought, and being due to calve in five months, I find her giving 22 pounds daily. I have been foolish enough to part with all her calves except the last one. Last sum-mer I sole her yearling heifer for \$300 and have since regretted it. In the years when this cow calved upon grass, she gave, at her flush, sixteen quarts a day as a three-year old and four-year old. I am aware that many cows do better ; in fact, I have larger yielders myself, but I think that, all things considered, she is a good producer.

Another Prollic Cow.

There is a very prolific cow at East Windsor Hill, Ct. April 16, 1877, she gave birth to twins, one male and one female; March 19, 1878 she gave birth to triplets, two males and one female, making five calves in eleven months and three days; July 9, 1879, she gave birth to twins, both males; October 7, 1880, she gave birth to triplets, two males and one female, making ten calves in three years, five months and twenty-one days. The calves have all been of good size, healthy and handsome, and have been raised on the farm.

---Great Merit. All the fairs give the first premiums and special awards of great merit to Hop Bitters, as the purest and best family medicine, and we most heartily approve of the awards for we know they deserve it. They are now on exhi-bition at the State Fairs, and we advise all to test them. See another column. al5-2wd&w

Glad to Get Out of Bed.

James Durham, East Pembroke, N. Y., writes: "I was laid up in bed for four months, and spent 50 on doctors, but they did me no good.
