MONDAY EVENING, APRIL 18,1881.

A Trapped Fox. Foxes have holes, or need to have and the fox John Sherman needs just now to be hunting for his. Mr Sherman is a first class type of the foxy order of men and politicians. He puts on an appearance of great virtue, but nevertheless does notoriously lie and steal. Perhaps his thievishness would be difficult to prove to a jury under the forms of the law; for he has never been caught in flagrante delictu. Foxes never are. Still, everybody knows that they steal because it is their nature too; and they have no known honest way of getting their living and keeping fat withal. Mr. Sherman is known to have a very heavy purse and nobody case will how he honestly filled it. He has been repeatedly charged with abusing his power as secretary of the treasury to enrich himself; and the New York Sun, not long ago, published an account of his connection with the operations of the First national bank of New York, during his term of office a favored medium for negotiating government loans, that was grossly libellous if its allegations were untrue. Mr. Sherman took no notice of the serious charges nor has he noticed the numerous accusations against his integrity which have for years appeared in the public press. As a natural consequence the public judgment is definitely fixed that Mr. Sherman has acquired his wealth in ways that will not bear investigation. No honest public officer will ever permit such charges to be made against him as have been freely made against Secretary Sherman without re-

It is never surprising when an unprincipled man is tripped up and his dishonesty exposed. No matter how crafty he may be, he cannot guard himself at all points and present to the world a consistent record. The man who is dishonest in money matters is pretty sure to be equally so in all his conduct. If he steals he will lie; and he may be expected to be governed by what the existing exigency may seem to show to be his advantage. And as these exigencies are always liable to change, it is reasonably sure that in the course of time a man who is thus animated will plainly expose the dishonesty of the motives that animate him. And Mr. Sherman, who has been out of his office and in the Senate but a few months, has thus early made his dishonesty so conspicuous as to have immediate occasion to hide himself in his hole.

quiring them to be withdrawn or sub-

stantiated.

The Mahone matter is the one in the discussion of which the ex-secretary has come so sadly to grief. Of course with a man so inspired there was no question that the coalition with Mahone, which promised such present profit, should be embraced; nor that it should be done with a virtuous air, however unvirtuous the thing. Mr. Sherman always poses before the public as an exponent of virtue, and he could not resist the temptation of declaring in the Senate that Mahone had been driven into the Republican party by "the logic of events," and that he Republicans on the matter and had "never made any promises to us." Senator Beck, however, reminded him that Senator Mahone had declared that he was not a Republican, but that he was responsible for the selection of Riddleberger as the Republican candidate for sergeant-at-arms. Senator Beck wanted to know how " the logic " which made the repudiating rebel Riddleberger the Republican caucus nominee was brought to bear, if the Republicans had never had any conference or engagement with Mahone who declared himself responsible for Riddleberger. Senator Sherman has

not found inclination to answer.

And now Senator Vest comes along with another troublesome question. He wants to know how it comes that Senator Sherman now wants to take Mahone, Riddleberger and all the Virginia Read- justice. justers to his bosom to break up the solid South, when Secretary Sherman eighteen months ago, the South being then just as solid, notified the commissioner of internal revenue that one Van Anken, a tobacco inspector in Virginia, should be removed because he was a "Readjuster;" Van Anken being accordingly written to by his chief that he must go, because "readjustment was looked upon by thinking men as immoral, and therefore inconsistent with the dignity of an official." Here is a great difference surely between now and then; between the actions and sayings of the secretary and the senator. The rejected Readjuster becomes the head of the Sherman corner; the old ram that was cast out for its iniquity becomes the ewe lamb that is protected for its innoshining example.

MR. C. R. WOODIN, of Berwick, Luzerne county, has instituted a novel administration. mode of temperance reform. He has made arrangements with the keepers of saloons and hotels there by which, for a pecuniary compensation paid by him, they agree to abstain from the sale of intoxicants. When Horace Greeley proposed to settle the slavery question by ransoming those held in bondage, the government to pay some billions for their freedom, he was the best abused and most ridiculed man in the country. Then came the war and its more billions of expense, not to speak of the precious lives lost and evils engendered. Before the Berwick experiment at temperance reform be laughed at, let it be given fair trial purpose to kill, fired the pistol, he is not and the cost counted.

Millions of Feet of Lumber. All the lumber manufacturers in the valley of the West Branch are happy. This state of affairs has been brought about by the splendid flood which has pre vailed in the river for three days past, and which has brought tens of thousands of the finest pine logs ever felled in any forest to the booms of Lock Haven and Williamsport. The highest point at tained by the river was twelve and a half feet, and it is falling so slowly that it is scarcely below nine fect. Lumbermen estimate that there are now two hundred millions of feet of logs in the boom, and that there is every prospect of fifty millioms more being received on this stage of water, which will give sufficient stock to keep all the mills running to their utmost capacity until next September. The Lock Haven boom is packed solid with about forty millions and cannot hold another log. The stock to come to Williamsport will reach fully three hundred millions, and as nearly all the great drives will get out of the small streams into the river on this flood there is but little doubt that there will be another rise some time during the summer that will bring the last log to the boom.

## LOCAL INTELLIGENCE

THE LEAF.

Local Tousco Market. The report of the tobacco markets in New York and Philadelphia for the week past will be found on our fourth page. Contrasted with the activity which prevailed some weeks ago the transactions among local growers and buyers may be said to be dull; and yet there are many growers who want to sell and many dealers who want to buy, and who do buy when they find leaf that suits them in quality and price. The difficulty appears to be that the growers ask more for their leaf than the buyer thinks it is worth. The recent lull in buying has had the effect of bringing to town a great many growers, each with a few hands of tobacco under his arm as samples of the crop he desires to sell. Some sales are effected in this way, but as a rule the buyer likes to take a look at the whole crop before he invests his money in it. On the whole it may tion Day orator at Scranton and "Susie | be said that first class leaf brings as high prices as when the buying season opened, but that it is much harder to find than formerly. The New Church people, or Sweden borgians, as they are more generally called, held Easter services in their Tem ple in North Queen street. The children's meeting commenced at 9 o'clock a. m. and continued until 10:30, at which time the regular services followed, conducted by the leader Dr. S. Ordinarily Easter Monday is a big day in this city and is marked by a large attendance of country folks, especially when it falls in court week. Partly owing to the unfavorable weather, and more particularly because they are holding back for Barnum's big circus day next Saturday, the visitation of rural lads and laddies today is slim.

## A MODEL JUROR.

Albert Barnes, better known as "Cully," is a resident of the Seventh ward, and this week is a member of the grand jury, "Cully" had considerable liquor in him during part of last week, and it got him into trouble. On Saturday morning after having been out all night he went home and demanded money of his wife, who had saved up a small sum. She refused to give it to him and he chased her out of bed, tore her clothing and in other ways abused her, "Cully" remained around the house and finally succeeded in getting \$5 with which he started off. His wife went to Alderman A. F. Donnelly's office and made complaint against him charging him with assault and batery and drunken and disorderly conduct. Saturday night was set as the time for the hearing, and "Cully" after being arrested gave bail to that time. The facts as above stated were developed and it was further shown that Mrs. Barnes has been abused upon former occasions by her husband. Week before last she had saved \$17 with which she intended to buy him a suit of clothes to attend court this week. He, in some way, got the money from her and spent it all for rum, leaving his wife at home with her child, both suffering for want of the ecessaries of life. At the hearing "Cully" was very sorry for what he had done and made all sorts of promises. He said that he wanted to serve on the jury and he told the alderman that he would pay the costs, swear off drinking and support his wife if she would agree to arrange the suits. The alderman at first thought of sending him to jail for 20 days, but the wife did finally agree to settle the cases. After they were arranged Barnes said he would never swear off. Mrs. Barnes told him then that he should never come near her as she would support herself. He seemed pleased at this and left the office in a good humor. This morning he sat on the grand jury big as life, and the taxpayers may expect through investigation of everything by a grand jury of which Barnes is a member. Another Building Set on Fire.

AFTER PUPTEEN YEARS. Three Men Arrested in Reading for an old

Fifteen years ago, George Gottschall was the proprietor of a resort in Codar street, in Reading, known as "Buck hall," which during the war was frequented by soldiers passing through Reading. It was in this place that David Good, a soldier, is aid to have met Gottschall, Samuel Butterweck and Wm. Eyler in October, 1865, and to have got into an altercation with them and a certain John Tomly, who is still at large, and whose present residence is unknown. Good was badly beaten, and the next morning his dead body was found at a lime kiln in the southern section of the city, about a mile from the scene of jury made a verdict that death was caused by suffocation by the poisonous fumes arising from the kiln. The public was satisfied with the verdict, and thus the

case rested quietly for over fifteen years.
Yesterday Gottschall's wife, who is sick and believed to be at the point of death, make a confession that Good was kicked and beaten in her husband's saloon-until life was extinct, and the body was put into a bag and carried a mile to the place where it was found. Another witness is said to have seen four men carrying a suspicious looking bundle at a late hour and to have seen them return soon afterward without it.

The confession of Mrs. Gottschall has recalled the fact that there were marks on Good's face and on the heels of his shoes as though he had been dragged on the ground. There were also several hol s in his head which the coroner's jury as the time decided were caused by falling upon the limestone rocks in the neighborhood of the kiln. Joseph Good, a brother of the deceased soldier, has lodged information against the above named men. and caused their arrest. Gottschall and Butterweck, who recently embraced religion, were arrested in church, causing great excitement. Butterweck is said to have made a confession, and it is said that this fact, coming to the ears of Gottschall's wife, worried her to such an extent that, with death staring her in the face, she resolved to make a clean breast of everything. The confession made by Mrs. Gottschall is in the hands of the district

THE COUNTY AUDITORS AGAIN. Musser Files His Protest and the Court Ap-

Mr. Frank Musser, of the notorious

board of county auditors, has filed in the prothonotary's office a well composed and ed) was in town yesterday driving with legibly written document embodying at three ladies. His buggy was upset a coulength his reasons for non-concurrence in the report of his associates, Mr. Musser, in substance, says that the other auditors erroneously approved bills for \$2,100 printing paid by the commissioners, all of which was unnecessary and for part of which the county was not legally liable; they fail to state what is due from the sheriff for jury fees and the accounts of that official have not been properly audit ed; the approbation of the treasurer and his clerk is an unwarranted "puff;" the treasurer's testimony shows a balance in his hands, not deposited, of \$22,694.56, his clerk swore that \$16,000 or \$19,000 was in the safe in cheeks, drafts, &c., the discrepancy, is not explained; Musser had down the river on Saturday struck a rock made an effort to investigate the condition of the treasury under the act of March 25. 1868 but was overborne by a mob of court house officials and one or twn members of the bar ; Mr. Collins had agreed with him to re-investigate the treasurer's accounts. but afterwards he and Curran had refused to do so; the auditors should have reconvened; they should have urged legislation to make the offices of justice and alderman salaried in Lancaster and Columbia; in the auditors' report on all other accounts Musser concurs, except that ex-Prison Treasurer Shaeffer should be charged with \$99.46. In conclusion Musser repeats that the county treas-urer and his clerk ought not to have had " puff" and he calls on County Solicitor Fulton to appeal from and except to the auditors' report before its final confirma-

The bill of the county auditors for their services has been filed and approved by the court. Each one takes \$20 for auditing the state accounts. Besides this they claim pay at \$3 a day and mileage at 10 cents a mile as follows : Musser, 36 days, total \$128; Curran, 36 days and 400 miles, total \$168; Collins 31 days and 320 miles, total \$145; clerk, \$100; janitor, \$5, sta tionery \$5. Grand total, \$551.

Sent to House of Hefuge. Samuel Herbert Wright, a boy 17 years of age, who formerly resided in Little Britain township, but for two years past has resided at the poor house, was before Judges Livingston and Patterson on Saturday. It was shown that the boy is very bad and the superintendent and other officers at the institutions are unable to control him. They and James Wright, the boy's uncle, wished him to be sent to the house of refuge and it was so ordered by the court.

Removing an Old Landmark. This morning workmen began tearing down the old one-story white house belonging to Judge Long, on Grant street, in rear of the court house. It is the intention of the judge to erect a handsome building on the site of the old one and the lot adjoining. The old landmark has weathered many a gale, but for all that its replacement will constitute an architectural improvement to be hailed with pleas-

Appointed therk. Mr. Charles B. Lehman, son of H. C Lehman, has been appointed to a clerkship in the First national bank, made vacant by the death of Mr. Lewis Suesserott. Mr. Lehman has had very considerable experience in book-keeping, having been formerly employed as bookkeeper by Dr. S. B. Hartman & Co., and also by the Lancaster fire insurance company, and at the time of his appointment was book-keeper for Dr. Mishler's herb bitters com-

The Greenback Orator. It has already been noticed that General president, was coming to Lancaster. Few men have ever made so many speeches in the same length of time as General Weaver has in the last ten months. The celebrated campaign of Lincoln and Douglas in Illinois, when each spoke continuously, does not compare with it. Gen. Weaver was nominated for president by the Chicago Greenback-Labor convention in June, 1890, and in pursuance of a resolution of the convention at once commenced the canvass in person. From that time until the November election he spoke once,

sional speeches in other states as he passed through. The presidential canvass was barely ender when he took his seat in Congress, coming at once to the front as among the best debaters in that body, a position which he held until
