GENTLEMEN!

#### COLUMBIA NEWS.

## OUR REGULAR CORRESPONDENCE.

Mr. William Gordon, of whose dangerous illness we spoke in yesterday's letter to the INTELLIGENCER, died at 3 o'clock this morning of typhoid-pneumonia, at his residence a short distance below the St. Charles furnace. Mr. Gordon was a wellknown and highly respected citizen whose principal characteristic was energy, which in him meant more than a mere occupation of time. He was economical without stinting himself or his family of what conduced to their happiness and comfort, and by his blending of perseverance and tact and Bachman was inside. Two men who succeeded in amassing what is regarded as a considerable fortune. (It will be re-membered that a couple of weeks ago he the neighborhood of the house, but they purchased fifty shares of Columbia nationbank stock at \$135 per share.) The funeral will take place on Tuesday after-noon at 2 o'clock, from St. Paul's Episcopal church, on South Second street, and the remains will be interred in Mount chief. Bachman is now in jail.

Bethel cemetery. Frederick Bucher, jr., sprained one wrist and John Jackson, son of Newton Jackson, sprained both wrists yesterday. The accidents occurred while the boys were throwing themselves on arm swings in the play grounds of the public schools. No more of that kind of play for the partics in question. Mr. Joseph Desch gave a dance last

session, and six in which rehearings were granted. There was also one application for a rehearing. This is the case of John-ston, one of the Chambersburg bank robevening in his hall on Walnut street above Third. There was a rather large attendance, and to the music of Blackson's orchestra those present enjoyed themselves hugely until after midnight.

A surprise party was last evening taken to the residence of Mrs. Samuel Mullen on Walnut street, below Seventh, where was had a very enjoyable time.

The family of J. F. Frueauff, esq., formerly of this place, left here at one o'clock to day to join him at Denver, Colboard privately importuned to hear a case favorably will be disqualified from votorado, which place they will make their future home.

Susquehanna shad are becoming plenty on our streets, but none are yet being caught about here by reason of the high state of the water.

Several rafts passed here to-day.

The girls and boys are looking up their summer wear and in some cases they have have already appeared in it. We have noticed a couple of white straw hats both fastened to rolls of ladies' hair. The light colored jaunty summer coat is becoming Peoples and Snader voted against it, and quite common and we are glad of it, for it Landis voted for it. Mr. Snyder was takes a great deal of the "subdue " out of one's appearance which the eternal black is bound to give. In man's attire, however, black is neat.

The school teachers would like to know why Easter does not come about a dozen times a year. Each teacher in our public schools has received from her pupils a dozen colored eggs-on an average.

The borough tax rate has been fixed at six mills on every dollar of valuation with time of appeal from 2 to 5 o'clock, p. m., on Friday, May 13 1881. John Evans has been sworn in as special

policeman to take care of the property of the Shawnee rolling mill company and it has been dec.ded to close the borough tax duplicates by June 1, by process of law, if necessary.

A large percentage of the membership of General Welsh post No. 118, G. A. R. was in attendance at the bean bake, prepared last evening, in the post's room, for its members and those who are about

to-day by the presience of four delegations from Baltimore aggregating 60 persons who urged the claims of their respective candi-dates for the postmastership of Baltimore. The four candidates proposed were Messrs. Askew, Thompson, Henderson, and Adreon. The president gave an audience to each of the delegations and patiently listened to their arguments. To each of them in turn he proposed the other three candidates, with an inquiry as to their fitness and acceptability, and in each case was met with the emphatic 'For God's sake, Mr. President, don't appoint him " which elicited the comment that they seemed to have a di-vided house. The presidant assured them that in making an appointment he should not seek to meet the wishes of any one faction, but should endeavor to fill the office with a person acceptable to the great business interests of the city.and if such a person was not proposed with a greater degree of unanimity than yet shown, he might go outside the city or 1881 appoint a Democrat. GALVESTON, Tex., April 20.-A terrible shooting affair is reported from Pippons camp near Uvalde, General Baylor and his son and Mr. Gilchrist and his two sons being the principal actors. Both parties reside in the Neuces canon and the shooting occured over a difficulty arising from an old feud. The Gilchrists had been arming themselves and making threats against the Baylors. During the day Gen. Baylor, entirely ignorant of the threats, entered the camp in scarch of his horses, closely followed by young Baylor. The Gilchrists began firing, which was returned by the Baylors, re-sulting in the death of the elder Gilchrist and the fatal wounding of one of his sons,

Comrade Stephen J. Younger style to the forty or fifty hungrey men and J. K. Barr, esq. it is really wonderful how those beans disappeared. There were no "foreign orators" to bore the assembly and in consequence of this a really good time was ex-

perienced. Addresses were made by Rev. Henry Wheeler and Comrades Yocum and Meyers. The membership of the post is constantly increasing. The attendance of parents of children,

who are pupils in the public schools now being examined orally, is not as flattering as the officers and teachers could wish it. An invitation is extended to all to visit the schools at these examinations.

The scalding of the little child of Peter Bittner on Monday evening, an account of which appeared in last evening's INTELLI-GENCER, resulted in its death at about seven o'clock last evening. The sufferings of the child were intense up to the time of its death.

#### After Many Days.

In the month of January, 1880, it will be remembered that a peddler named Stephen Lambert was robbed by some parties near the Gap. Three young men named Eckert, Chamberlain and Hess were arrested on the charge, and after a trial were convicted and sentenced to terms of imprisonment, which they served. Miller Smith was the name of another party who was charged with being a partner in the crime. He fled at the time and was not seen in this part of the country until about two weeks ago, although offi-cers have been looking for him. He has been traveling around the country and for a short time within two weeks he has been in this city. Yesterday Constable Miller, of Paradise, heard that Smith was traveling with the circus of John O'Brien as a canvasman. The officer visited Mt. Joy last night and arrested Smith, who was brought to this city this morning and placed in the lockup. When Smith was arrested he was with the circus employees and claimed to be working for the show.

Smith was taken before "Alderman Barr this afternoon and was committed in default of bail for a hearing.

### Keep Your Eyes Open.

A communication to our police authorities from Pinkerton's detective agency states that the Barnum-London show have in their employ a large number of Pinkerton detectives, whose duty it is to protect the patrons and visitors to the show from thieves, pickpockets, three card monte men, thimble-riggers, &c., who are drawn to cities where large crowds are collected. They ask for the co-operation of the police force of the city. In a special notice they state that all banks, jewelry stores and other places where valuables are kept should be carefully watched, while the street procession is being made, as thieves often take advan tage of the attractions on the street, which draw the people to the door, to rob honses.

#### Charged With Larceny.

George Wilson, a young and well known negro dwarf from around Paradise, has been lodged in jail on the charge of stealing \$20 from the desk drawer of Elem Trout's mill, near Paradise. Wilson hau!ed flour and feed around for Trout, and was much about the mill. Being suspected of the theft his room at his lodging place was searched and the money found among his effects and identified ; it was also discovered that he had bought a key to fit Trout's drawer-on pretence that it was wanted for his valise-and this key was found in the desk drawer from which the money was stolen.

#### Head Cut.

C. A. Reece, formerly in the shoe business in this city, but who is now a resirespectfully invited to attend the funeral, prepared and served the beans in good dent of Easton, is in town, the guest of from his late residence, 639 High street, Thurs day morning at 9 o'clock. St. Joseph society A Sapphire.

In real beauty, probably none of the precious stones can excel the sapphire. A really good one of any considerable size, without flaw, is extremely rare. There is now to be seen in Philadelphia the finest sapphire in this country. It is half an inch in diameter, of faultless shape, and in color the perfection of that soft, changeable blue which has made the sapphire so familiar a comparison. This beautiful gem is in the possession of Messrs, Balley, Banks & Biddle, and its value is up in the thousands.

A INUMBER of beautiful African antelopes, representing species never before imported to America, are with the Barnum-London shows, having been imported during the winter of 1860-51.

#### City Bill Posters.

Carson & Hensel, city bill posters, office In-TELLIGENCER building, No. 6 South Queen street. Conspicuous and well protected boards in all parts of the city. Circulars, programmes and small bills judiciously and generally distributed.

Ax evidence of the colossal magnitude of the Barnum-London combination, is the fact that it requires no less a number than seventyfour advance agents and advertisors.

#### Amusements.

Maggie Mitchell .- This gifted and popular ctress will on Monday evening appear at fulton opera house. She has been here before, is a favorite with our community, enjoys a fame that is national in its scope, and it needs only to be added, to assure a thoroughly delightful evening, that the role she proposes tion. to play is her great creation of Fanchon. The sale of seats will begin at the opera house of fice to morrow morning.

An attractive curiosity of the Barnum-Lon don collection is a dwarf Burmese, or Sacred Bull, undoubtedly the most diminutive animal of its kind in existence.
