

LANCASTER INTELLIGENCER.

MONDAY EVENING, MAY 16, 1881.

NEW YORK TOBACCO MARKET.

SEED LEAF HAVANA.

For the Week Ending Saturday, May 14, U. S. Tobacco Journal.

There was very little stir in our market this week. The extraordinary heat and the absence of transient and city buyers caused the quietness. In '80 tobacco nothing was done. Connecticut seconds of that crop were looked for by jobbers, but the few parcels that holders showed will- ingness to sell were held at from 11 to 11 1/2 cents. The price being thought too high prevented their sale. The feeling of packers of all kinds of '80 tobacco is quite different from that which they evinced regarding the '79 crop. There exist no screw- up expectations of getting im- mense figures, nor are there any fears of great losses. As a whole, the '80 crops were bought with more consideration and judgment than the '79, and with the stability of business in general the '80 in- vestment will prove successful. It is un- foreseen occurs to effect a change in it. Of all the holders of '80 crops, those who hold the Pennsylvania feel most secure. They are perfectly at ease, claiming that even if it ferments unsatisfactorily, the texture of the tobacco is such as to enable it to stand even a violent artificial sweat- ing.

The stock of '79 tobacco on hand in this market is decreasing daily, and especially of yielding wrappers, good or bad, quite a scarcity exists already. The much neg- lected '79 Connecticut has come into slight prominence this week by a sale of about 350 cases of wrappers at about 25 to 25 cents. Outside of this we note sales of about 350 cases of '79 Pennsylvania, at previous figures, and several small lots of '79 Ohio, probably aggregating 200 cases, at an average of 10 cents.

Havana—Market remains active. The demand for good '79 and '80 is as strong as during the previous week. The uncertainty regarding the '81 crop is the cause. Prices firmer.

Less Havana Used.

While the manufacture of cigars in the United States has increased enormously, the consumption of Havana tobacco, as compared with the number of cigars made, has fallen off greatly. Since 1877 there has been a marked decline in cigar production amounting to 500,000,000. In 1871 there were imported to this country 8,294,980 pounds of leaf and 9,759,355 pounds in 1880—only 1,346,375 pounds more than in the first named year, which shows conclusively that the importation of Havana tobacco has not kept pace with the manufacture of cigars.

Re-sweating Tobacco.

During the past few months suits have been brought in our state courts for in- fringement by several patentees of the processes of re-sweating leaf tobacco, and one of these suits has been decided in a Western city. Other suits have recently been commenced against parties who are making use of processes for re-sweating leaf tobacco, and as nearly everybody con- nected with the manufacture of cigars or the selling of leaf tobacco, is compelled by the custom of the times to re-sweat in some form or other, it is vitally essential that those interested should ascertain what are their rights under the law at the earliest possible moment. Delay may in- volve them in court expenses and dam- ages.

There have been so many patents taken out during the past fifteen years for re-sweating tobacco that it is a nice question to determine what is an infringement, and what is common property, and it is time this matter were definitely settled. To aid in reaching a solution of the problem pre- sented, a meeting is to be held in this city, on Wednesday evening, May 18. There should be a full attendance.

The Philadelphia Market.

The only difficulty dealers have now is to obtain prime old stock for wrappers; the cry for such goods is daily, and the fortunate holders have the satisfaction of realizing a handsome profit. What cigar dealers are to do after awhile, is difficult to solve. Nearly all our first-class houses are busy buying and packing in Lancaster. The ruling price of seed leaf out of store is firm at full quotations.

Gains Report.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending May 16, 1881: 500 cases 1879 Connecticut, wrappers, 18 to 25; 250 cases 1880 Connecticut, sec- onds, 11c; 250 cases 1879 Pennsylvania, fillers, 6 to 7; 200 cases 1879 Ohio, 5 to 7; 150 cases 1779 New York, 7 to 8; Total 1,450 cases.

KIDNEY WORT.

DOES WONDERFUL WHY? CURES. Because it acts on the LIVER, BOWELS and KIDNEYS at the same time.

Because it cleanses the system of the poisonous humors that develop in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Dropsy, or in chronic Gonorrhoea, Nervous Disorders and Female Complaints. SEE WHAT PEOPLE SAY: Eugene B. Stork, of Junction City, Kansas, writes: "I have cured the worst case of Gonorrhoea I had been trying for four years." Mrs. John Arnold, of Washington, Ohio, says her boy was given up to be four years from living physicians and that he was afterwards cured by Kidney Wort. M. M. B. Goodwin, an editor in Chardon, Ohio, says he was not expected to live, being bedded beyond belief, but Kidney Wort cured him. Anna L. Barrett, of South Salem, N. Y., says that seven years suffering from kidney troubles and other complications was ended by the use of Kidney Wort. John R. Lawrence, of Jackson, Tenn., suffered for years from liver and kidney troubles, and after taking "hundreds" of other medicines, Kidney Wort made him well. Michael Goto, of Montgomery Center, Vt., suffered eight years with kidney difficulty and was unable to work. Kidney Wort made him well as ever.

KIDNEY WORT

PERMANENTLY CURES LIVER COMPLAINTS, CONSTIPATION AND PILES.

It is put up in Dry Vegetable Form, in plain glass bottles, of which makes six 25-cent quarts of medicine.

Also in Liquid Form, very Concentrated and of the convenience of those who cannot readily prepare it. It acts with equal efficiency in either form.

BUSINESS SUITS.

We have somewhere in the region of one hundred styles of business suits now ready to put on. A list of them would be the dullest of read- ing; and yet we want you to know substantially what they are like.

The lowest price is \$8.50, and the highest is \$20. They are all of wool. \$8.50 is very little to get all-wool cloths, sponging, cutting, trim- ming, making, watching, handling, rent, book-keeping, advertising and selling, out of; but we manage to do it by dividing the costs among so many of you that one hardly feels his share at all; he pays for materials and work, and very little more.

We'll take another day for the rest; but you may as well come and see now as later. Seeing is better than reading.
