The Lancaster Tobacco Trade. There has not been anything in the trade during the past week worthy of especial remark. Packers are still in the field buying such lots as are offered at reathere is not 5,000 eases left in the hands of the growers, while others, perhaps not so well supplied or more sanguine, affirm there is not less than 12,000 or 15,000 cases yet unbought. Much of it is flea-bitten, but not so badly as was feared. There is certainly a good deal of "white vein" in it, but careful handling has pretty well eliminated it and the sum total thrown aside is not unusually large. On the other hand, it has been found that a great proportion of the crop is equal to any ever grown in the county; and a skilled operator of twenty years' experience remarked this morning : There's no use in people saying that York, Columbia & Port Deposit railroad this Berks, Lebanon or other Pennsylvania to- morning, in which it is said there were bacco is as good as that grown in Lancaster county; I have seen and handled all

county. We paid a visit to E. Rosenwald's large as well as the head waters of the last packing warehouse, on the Harrisburg named river. The fish ought to be plenty turnpike and were shown it by Mr. Wm. Shultz, the manager and agent. The building is of brick 100 feet in depth by 66 feet in width, is four stories high, in cluding basement, and calculated to hold about 4,000 cases of packed tobacco. We found nearly 2,000 cases of packed leaf in the warehouse and a great deal of loose tobacco undergoing the process of packing. Mr. Shuitz has about 65 men at work, all busily engaged in sorting and packing. He is yet buying, when he can find lots that suit him in quality and price. The highest price he has paid this season was 25 cents for wrappers, 8 cents tor seconds and 3 cents for tillers. The lowest price paid was 4 cents round. The bulk of his purchases consisted of the better grades, and some samples shown were exceptionally fine. In one packing of one hundred were ten cases of 5 and 6 A's ; ten A's ; fourteen of I A's, the balance being short wrappers, seconds and fillers. Mr. Shultz says the crop of 1880, of this county will average fully 60 cases of wrappers to 40 of seconds and fillers. We mention the above as a fair sample

of what has been done and is being done at other warehouses in the city, at a few of which larger quantities have been packed, and at others much less.

The plant beds generally look well, and has thus far been too dry and too cold, and at any rate it is as yet a little too early

FATAL RAILROAD ACCIDENTS. Two Men Killed Between Parkesburg and

About half-past three o'clock yesterday afternoon Wm. Moore, an old man, aged 76 years, while walking on the Pennsylvania railroad between Parkesburg and Coatesville was struck by the locomotive of the Chicago day express cast and instantly killed. Mr. Moore lived with one of his sons in Parkesburg, and yesterday started down the track for the purpose of visiting another son residing in Coatesville, and it was while on his journey that the accident took place. His body was taken to Parkesburg to the residence of his son Charles E. Moore, and inquest was held on the body by Coroner Umstead, of Chester conuty. Dec eral children. A young man named William Dorsey. belonging to Baltimore, and an iron worker by trade, was found by the track watchman lying dead upon the track of the Penusylvania railroad, about two hundred yards west of Hope's telegraph station etween Parkesburg and Coatesville about 12:30 this morning. It is supposed that he fell or jumped from the freight train drawn by engine 376, and was run over and killed. He was wedged in between the cross ties, and being a slim young man was not much disfigured, the brake-beam passing over him. A companion who was with him states that he jumped the freight train to ride to Coatesville to get work, and fell in getting off the train. He was only about 21 years of age. His body was taken to Parkesburg where an inquest will be held by Coroner Umstead.

A Daring Highway Robbery. A very daring highway robbery has been committed upon the person of Constable William S. Quigley, who is also the collector of taxes for East Nottingham township, Chester county. Mr. Quic ey had been out all Friday making collections, and had in his possession \$454 of taxes, which he intended to pay over the next day to the school board. When within about hundred yards of his house, it being about 8 o'clock in the evening, he was met by three men, one of whom suddenly stopped and seized hold of his horse. Mr. Quigley drew his revolver and ordered man to let go. He had not time to act further, for the other two highwaymen sprang upon him, and one gathered a handful of dirt in the road and threw it into his eyes; he was then dragged out of his vehicle and beaten over the head and rendered insensible The robbers then took his pocket book and revolver. The thieves had hardly escaped before a neighbor came along and found him lying on the road. Nothing was done until the next day. when search was made for the villains. which resulted in the finding of the revolver and the pocketbook in the woods with nothing in the latter but some papers. Mr. Quigley was unable to give any description of the men excepting that he thought they were white men blackened so as to disguise themselves.

Miss Lou Davenport, of Eric, Pa., is visiting at Norwood, near Columbia, the guest of Miss Clara Myers. A stated meeting of General Welsh post No. 118, G. A. R., will be held this evening in Vigilant hall.

> A representative of the Spawn & Dennison manufacturing company, of Reading, is here making an examination of the Columbia engine, in compliance with a communication to that end addressed to the firm by the fire committee of the bor ough council. The engine is said to be in bad repair, and a number of members of the company think it needs a thorough overhauling. An estimate of the cost of necessary repairs will probably be presented in a day or two. The Amoskeag manufacturing company (New Hamp-shire) are the builders of the engine, and they would very likely be asked to put in a bid for repairing it were it not that the cost would be so great in sending the engine on and returning it.

Prof. B. G. Ames, superintendent of the Columbia public schools, in speaking of of 4 A's; twelve of 3 A's; sixteen of 2 the oral examinations of the pupils, which closed yesterday, said they were more satisfactory than he had any reason to expect. The written examinations will commence on Monday next and whatever promotions are to be made will be from among those who acquit themselves creditably at the written examination to come; though distinction in the examinations which have just taken place will meet with its due reward. Several reasons were in view when the oral although some of them have been visited examinations were decided upon, chief by insects there will be no lack of plants. among which was the desire to show to The growers this year have larger beds parents the progress their children were than ever before. > From Theology to Tobacco. The Lancaster correspondent of the Boston Transcript, after giving an account of the meeting of the State Medical society here and the theological seminary commencement, passes thus to the 'staple:" "From theology to tobacco seems a wide step, but it is easily bridged in this locality, for if the dwellers in Lancaster county are eminently church-going in their habits, they are quite as noticeably tobacco growers, the annual product of that commodity amounting in value in this county alone to several millions of dollars. Were King James First alive and meditating another 'counterblast against tobacco,' he would find, should chance bring him to this part of the world, plenty of fuel to kindle his indignation. His tobacco-hating soul would be vexed within him every day. All over the county large tobacco warehouses are found, and in Lan caster there are some forty-five such buildiugs, not a few being huge four-story brick buildings and one or two hundred feet in length. During the spring, on certain mornings, the streets are filled with immense blue Conestoga wagons coming in from the country and piled high with bundles of tobacco. The neighborhood of the wareliouses on such days is an exceedingly lively locality.

"In adjoining counties, that of York. for instance, much tobacco is raised, and throughout this portion of Pennsylvania, but practically in Lancaster county, the tobacco interest is becoming a very powerful one, as each year additional acres are devoted to the cultivation of the tobacco plant.

Drank and Disorderites. Steve Brown and John Parker, colored, indulged in a fight on Middle street last evening and they were promptly gobbled up by Officers Elias and Leman. They

were held for a hearing before Alderman A. F. Donnelly on Friday.

John Drachbar got drunk at a ball last evening, and he was found in the neigh borhood of West King and Water streets at an early hour this morning by Officer Coyle. He was making a great deal of noise and when the officer told him to keep quiet he began abusing him. The officer finally took hold of him and landed him in the station house after he had resisted the whole way. This morning the mayor gave him a reprimand and discharged him on payment of costs. One other drunk, who was before the mayor was sent, out for five days, and three vagrants were dis-

charged. There was a great deal of drunkennes in this city yesterday afternoon and evening. Men who had obtained money from candidates were roaming over the city in large gangs, and at every headquarters of the politicians beer flowed like water, and the chin music drowned the voice of the organ grinder now heard in the land.

This morning about 10 o'clock the street sprinkling wagon belonging to John Stauffer was upset and fell upon the water plug at the corner of North Queen and Lemon streets, damaging both the wagon and the plug. The accident was caused by the horses backing while the shafts were at a right angle with the body of the other business. wagon. The wagon was taken to Ze for repairs.

> Keeping the Head Clean. Keeping the head perfectly clean is a great aid to health. A distinguished physician who has spent much of his time at quarantine, said that a person whose head was thoroughly washed every day rarely took contagious diseases, but where the hair was allowed to become dirty and matted, it was hardly possible to escape infection. Many persons find speedy relief for nervous headache by washing the head thoroughly in weak soda water. We have known cases almost wholly cured in ten minutes by this simple remedy. A friend finds it the great est relief in cases of "rose cold," the cold symptoms entirely leaving the eyes and nose after one thorough washing of the hair. The head should be thoroughly dried afterward, and avoid draughts of air for a little while.
