but was recaptured. Postmaster Marshall, of this city, seeing in the morning papers an account of Coles' transactions, recollected that he had received several postal orders signed by Coles and made payable to himself in this city. The postmaster at once made a careful examination of the forged orders of which there are six for \$50 each. They are very well executed, and Coles would probably have been paid the \$300 had he presented himself here. On comparing the forged orders with a genuine one it is seen that the red ink is not of exactly the proper shade. There is also a typographical error in the printed part of the order, the word "or" being doubled, occurring both before and within the parenthesis There is also a full point at one place in the forged order where a colon is used in the genuine.

Excelsior Club Ball.

The Excelsior club, composed of colored men, gave a ball last night at Rothweiler's hall, which was largely attended by men and women of all colors and conditions. A large majority of the ladies were colored and they behaved themselves very creditgood looking, dressed elegantly and danced gracefully. A majority of the men were white and among them were many leading Republican politicians. As it was understood that the ball had been given with a view of gathering together the politicians and especially the candidates, so that the colored voters might meet them, compare them and decide upon their relative claims to colored support, these gen tlemen were assiduous in their attentions to the men and danced and waltzed vigorously with the women. Both factions were represented and it is not for us to predict which side made the deeper impresion upon te American citizen of African descent. Towards the close of the festivities there was little quarreling among the mokes who had imbibed too freely of beer, but there were no arrests.

The State Centennial Building. Mr. Gingrich, a member of the Pennsyl vania Legislature who was appointed to

sell the state building on the Centennial "There is a matter connected with this building that needs investigating. The state appropriated \$40,000 for the erection

of this building, and not more than \$24,-000 of this sum can be accounted for by the building and furniture. The contract price for its erection was only \$16,700. The balance of the money has never been returned to the state treasury, and I intend to make an examination of the records in the auditor general's office to see if the balance of the money was drawn to the account of the managers or was transferred to some other object."

Surprise Party.

Yesterday was the birthday of Mrs. Margaret Gerz, wife of the late Lieut. Alexander Gerz, who resides on Mulberry street between Lemon and James. Mrs Mary Rohrer, wife of Henry Rohrer and a daughter of Mrs. Gerz, determined to sur-prise her mother. About twenty-five couples met at Mr. Rohrer's house in the evening and proceeded to the residence of Mrs. Gerz, who was much surprised. A good time was spent during the evening. and the party adjourned at a seasonable hour wishing Mrs. Gerz many more happy birthdays,

EYES!

This morning a trio of patients, from Reading, Philadelphia and Edgewood, Bucks county, each related their unfortunate experiences under the treatment of their eyes by the Oculists, Drs. Norris, Levis and Strawbridge, of Philadelphia, and their decided improvement under my practice. One of them came to me totally blind; the second nearly blind, and the third with almost constant neuralgia in and around the eyes, with impaired vision. A fourth patient, Miss Lizzie Brubaker, of Littiz, said: "My dyspepsia and other afflictions of long standing left me in a short time after going under your charge, and my glasses, worn since I was fourteen years of age, were haid aside as useless, and my vision is naturau." No Oculist in this country or Europe can produce such results without they discover my remedies and applications, or similar ones. Persons wearing Glasses for far and near sightedness or other diseases of this organ can usually have them removed inside of two months and the vigor of their eyes restored to its normal condition. Names of persons cured of Astigmatism given upon application, a diseased condition of the eyes that no oculist ever pretends to cure. Also Cataract cured by absorption without using the knite.

A resolution was adopted that no academic or honorary title shall be used in the printed minutes of the proceedings. Rev. Geo. W. Musgrave, D. D. LL. D., of Philadelphia, was invited to address the assembly. The doctor stated that he was a member of the General Assembly in 1831, when it met in the Washington Square Presbyterian church, just fifty years ago. That meeting was held in the lecture room and that was large enough. At that time there were but 1,584 ministers, and now there are over 5,000. The churches then nymbered 2,253, now 5,489. The communicants in 1831 numbered 182,000, now they number 578,000, thus showing that this old church is going forward rapidly. He continued at some length, making comparison between the church at that time and the present. Last evening the Lord's Supper was ad-

ministered in the presence of a very large congregation.
