Tabacco. The New York Market Last Week. United States Tobacco Journal.

Quite a scramble for old stock was no-ticeable this week. People begin to care very little whether lots offered are offered under the name of Pennsylvania, Connec ticut or New Jersey. Yielding wrappers are wanted, and such bring excellent figures irrespective of where they were

This state of things illustrates further our oft expressed opinion that the satistics of the agricultural department regarding the yield of crops for the past several years have been utterly false. This country produced in '79 but 50,000 cases more than were required for home consumption. This surplus Europe has taken while business depression was reigning there. The home consumption of '79 tobacco for the year up to date may be set down as having reached 130,000 cases. There are probably not over 20,000 cases of '79 tobacco in the country. Therefore figuring the 50,000 cases that were taken for export, the total yield of the '79 crop may safely be set down as having been no more than 200,-000 cases. The agricultural bureau at Washington calculated the '79 crop to have vielded nearly 300,000 cases.

The reports regarding the yield of the '80 crop are to day seemingly as much exaggerated. In view of many proofs, it may be taken for granted that the '80 crop was no larger than the '79, and that there is a reasonable show that packers of sound goods will realize an adequate profit on their investments, and that packers of cigars, will at least, be able to make selections at figures not exorbitant.

As far as could be ascertained, only 300 cases of '80 tobacco changed hands this week, They consisted of Wisconsin Havana seed, and were taken by a large city manufacturer. The summary of the week's transactions

Wisconsin-Crop '80; 200 cases, p. t. Pennsylvania-Crop '79; 500 cases wrappers, 37 to 43c; fine running, 24c; low, 13e; fillers, 7c.

Connecticut-Crop '79; 250 cases wrappers, 22 to 27c. Ohio-Crop '79; 160 cases; wrappers, selections, 15 to 18c.

Havana-Market continues active. There was one sale of 750 bales. The number sold during the week reached 1500 bales. Some samples of the '81 Partido crop have arrived here from Havana. In the opinion of a few it hasn't sufficient gum. The leaf, however, is silky and wrappery, and if the samples fitly represent the crop, it is our belief it will turn out well.

Gann' Report. Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending May 31, 1881:

400 cases 1880 Wisconsin, Havana seed p. t. : 100 cases 1880 Connecticut, seconds 101 to 111c.; 200 cases 1879 Pennsylvania, 22 to 23c. ; 50 cases 1879 Ohio, 121 to 13c. 100 cases 1879 New England, 14 to 15c. 200 cases 1879 Connecticut, 20 to 25c. 100 cases 1879 Pennsylvania, 84c.; 250 cases 1879 Sundries 12 to 25c. Total 1,400

A Self Contradiction The United States Tobacco Journal says: "The Lancaster, Pa., press was too much taken up this week with local politics to devote a great deal of attention or space to the weed. How much valuable information and knowledge the tobacco world has lost thereby is incalculable."

All the same, the Journal republishes every word the Lancaster papers say on the subject as its only reliable way of informing its readers on the subjects in-

Tebacco Fertilizers, A New England farmer writes: I have tried a great many different fertilizers for tobacco and have given up the chase after a substitute for stable manure. I cannot find anything which will carry out the last end and stand by till cutting time. Many merchantable fertilizers actually damage the quality. I suspect, from the salt which is sure to get in, much of the ground bone has salt in it. A good rule is: Save the home-made manure for tobacco; raise no more than can be heavily manured; buy fertilizers if you must for other crops. I have had the best success with 30 to 40 loads of green stable manure, turned under; 25 bushel of ashes sown and harrowed in per acre; and for the hill a compost of equal parts of earthed night-soil, hen and hog-pen ma-nures, thoroughly mixed, which has lain in a heap with turfed sides at least six months previous to using—a good hand-ful to the hill. This on turf, or better, a heavy crop of clover, will carry out tobacco with any ordinary season, and the leaves after topping will not stand up like so many foxes' cars, looking at you as if anxious to see "what next."

Another Candidate.

By a large majority the people of the United States have declared their faith in Kidney-Wort as a remedy for all the diseases of the kidneys and liver, some, however, have distiked the trouble of preparing it from the dry form. For such a new candidate appears in the shape of Kidney-Wort in Liquid Form. It is very concentrated, is easily taken and is equally efficient as the dry. Try it.—Loutsville Post.

Never too Late to Mend. Thos. J. Arden, William street, East Buffalo, writes: "Your Spring Blossom has worked on me splendid. I had no appetite; used to aleep badly and get up in the morning unrefreshed; my breath was very offensive and I suffered from severe headache; since using your Spring Blossom all these symptoms have vanished and I feel quite well." Price 50 cents. For sale at H. B. Cochran's Drug Store, 187 North Queen street. A Good Account.

To sum it up, six long years of bed-ridden sickness and suffering, costing \$200 per year, total; \$1,200—all of which was stopped by three bottles of Hop Bitters taken by my wife, who has done her own housework for a year since without the loss of a day, and I want everybody to know it for their benefit."

JOHN WEEKS, Butler, N. Y.

L. P. Follett, Marion, O., states that he has used Thomas' Relectric Oil for burns, and has found nothing to equal it in soothing the pain and giving relief. For sale at H. B. Cochran's Drug Store, 137 North Queen street, Lancaster.

This morning a trio of patients, from Reading, Philadelphia and Edgewood, Bucks county, each related their unfortunate experiences under the treatment of their eyes by county, each related their unfortunate experiences under the treatment of their eyes by the Oculists, Drs. Norris, Levis and Strawbridge, of Philadelphia, and their decided improvement under my practice. One of them came to me totally blind: the second nearly blind, and the third with almost constant neuralgis in and around the eyes, with impaired vision. A fourth patient, Miss Lizzie Brubaker, of Litits, said: "My dyspepsia and other afflictions of long standing left me in a short time after going under your charge, and my glasses, worn since I was fourteen years of age, were laid aside as useless, and my vision is natural." No Oculist in this country or Europe can produce such results without they discover my remedies and applications, or

discover my remedies and applications, or similar ones. Persons wearing Glasses for far and near sightedness or other diseases of this organ can usually have them removed inside of two months and the vigor of their eyes restored to its normal condition. Names of persons cured of Astigmatism given upon application, a diseased condition of the eyes that no oculist ever pretends to cure. Also Cataract cured by absorption without using the knite. Send for or call and get (free) four pamphlets. ## SHALL WE SELL THEM?

There is in Philadelphia a clothing house which has no double in all the world. The world is full of clothing houses; and it is a good deal to say that one is unlike all the rost.

First, in its dealing; and it is surprising that one house should differ much from another. Selling clothing is so simple a matter, that it is likely, one would suppose, to be done in very much the same way in Philadelphia, New York and London. But Philadelphia is ahead; and, curiously enough, one house in Philadelphia is ahead of all the rest.

To be ahead in dealing is to deal on a higher plane in a more liberal way, to give the buyer more well founded confidence without loss of the merchant's safety. This Philadelwhia clothing house says to a stranger: "We want to deal with exact justice. We want what belongs to us, viz., a fair profit; and we want you to have what belongs to you, viz., a liberal money's-worth. Our way to arrive at a result is to mark the price on everything we sell, which price is absolute; and to let you buy what you like, go away and think the bargain over, and come and trade back, if you want to. We find by experience that this liberality is harmless to us. Of course, you like it. And it makes quick and ready dealing. We don't want you to bring back what you buy-it would cost us money every time; but we would rather you would bring back, than keep, what you don't like. So, we try to see that you get at first what you will like the better, the more you know of it. This is really the whole philosophy of our dealing."

Second, in its goods-the amount and variety of them. There are other houses where excellent clothing is kept, and a great deal of it; but there is none, anywhere, that keeps so much. The dealing related above has won the largest trade the world has yet seen. To supply such a trade great quantity and variety of clothing are required; and these in turn increase the trade, be-

cause everybody likes to choose out of many things, rather than out of a few. This is the country of ready-made clothing. Great Britain makes the most of any European country; but there is not in all London any clothing business a quarter as large as that of Oak Hall. New York has several large clothing businesses; but no one nearly equal to that of Oak Hall; Boston likewise.

Look back twenty years! Have we done you good service, or not? But that is not what we had in mind; we were thinking of the clothes you are going to buy. Shall we sell them?
