## LANCASTER DAILY INTELLIGENCER WEDNESDAY, JUNE 22, 1881.

ted the church as a whole, he said he did not mean that. This same official informed us that in this, as in all others, there are always a few whose contentions disturb the rest, and considers the lan-guage as unjust, ungentlemanly and not in keeping with his vocation. This is said to be the opinion of many in the church, while many hold that the contentions were no doubt aggravating to the retiring pastor, but that the language was somewhat severe ; while others agree to let the matter rest where it is for the sake of future peace. As a whole, his remarks have stirred up considerable discussion, which is not only limited within the church itself but among the members of sister congregations. We have no opinion to offer ; no comment to make, but leave the whole as we received it from official sources. In this connection we might state that a call will be extended to a recent graduate of F. & M. seminary, who has filled the pulpit on several previous occasions.

### "GREAT SNAKES!"

Battle With Three Black Repliles at Speed-

Benjamin Shultz, aged 15 years, and his brother John, a lad of 10, met with an ex citing adventure recently while driving some colts through a meadow field known as the "long hollow," on Speedwell stock farm. They were passing through a marshy place and under some crabapple trees when they noticed something resembing a wagon whip suspended from one of the boughs. The youngest boy was about to grasp it, but it wriggled up out of his reach, and on examination they found that it was an immense blacksnake, and upon proceeding a short distance away and throwing stones made the astounding discovery that there were three of them lodged in the branches of the trees. Following is an account of what happened next in Master Benjamin's own words :

"It was almost sundown. Neither John nor I were scared. We only thought of killing the snakes. We stoned the snakes and they crawled around the tree at a lively rate. We got spunkier and armed with hat full of stones went right up to the tree determined to dislodge the reptiles. filled by the members of the company, Westruck them repeatedly, but they would whose appetites had been sharpened by only coil their tails around the limbs, stick out their heads and hiss. Once I went directly under the tree, when John, who was some distance away, threw a stone and down came one of the ugly things on my head. I shook it on and it shinned up the tree again like a flash. We forgot all about the colts, and for half an hour tried in vain to get the anakes off the tree. At last a lucky blow broke the back of one of them and it tumbled to the ground. We were about to advance and finish it, but the other two followed it, and they seemed to know there was something wrong with their companion, for they cut up the funniest I ever saw. They would glide hissing around the tree, and the way they sprang in the air and lashed the ground with their tails was a caution to snake killers.

" It was then quite dark, and although we continued throwing stones, we were unable to hit them, as we were afraid to go near enough to make sure. Their eyes were like sparks of fire, and John began to quake when he saw the fearful things stand on their tails and hiss like a goose. I tell you it looked queer the way they waltzed around that tree on their tails. I advanced and thought I had knocked

one of them silly, but great snakes ! I perceived the two coming towards me with their heads elevated about five feet, and I don't know how much of their bodies rested on the ground. I seized John, who seemed to be paralyzed with fright, as he was unable to move, and dragged him away as fast as I could. I don't know how far the snake followed us, but we rau all the way home."

The next morning the crippled snake was found and killed. It measured precisely six feet.

#### Runaway this Morning.

This morning a horse belonging to Samuel Lapp, who resides near Intercourse, which was hitched to a market wagon, slipped his bridle while standing in the yard of the Leopard hotel. He ran through the arch leading to Duke street and broke the top off the wagon. He ran down Duke street at a frightful rate and turned the corner into Vine. Near Rockland street he fell down but soon regained his feet and coatinued on his run until the wagon struck against at tree. Both shafts were broken off, and the vehicle was left lying in the middle of the street. The horse was caught on Lime street near Middle with the shafts hanging to him. The wagon was a complete wreck.
