#### MISHLER'S HERB BITTERS. A PROPHET IS NOT WITHOUT True and yet like most truisms it has its exceptions. The most striking illustration of this is found in the reputation acquired by Mishler's Herb Bitters during the twentyfive years it has been before the people. Growing from small beginnings as simply a local remedy, it has steadily worked its way to the foremost rank among the standard medical preparations of the age; yet nowhere is it more highly regarded than right, here at home, in the geenes of its earliest victories over disease. You can scarcely find a man, woman or child in Lancaster county, who, at some time or other, has not used it, and the testimony of all is given in its pratse. The farmer, the mechanic, laboring men and we men, the merchant, the clergyman, the banker, the lawyer; people in every walk and cond tion of life are all alike familiar with its merits The Hon. Thaddens Stevens, member of

Congress from this district, suffering from an affection of the Kidneys could find relief in nothing else. In a letter to a friend (now in our possession) he writes: "MISHLER'S HERB BITTERS is the most wonderful combination of medicinal herbs I over saw." The Hon. A. L. Hayes, Law Judge of the Courts of Lancaster county, writes: "I have used it myself and in my family and am satisfled that its reputation is not unmerited." Hon. George Sanderson, Mayor of Lancas er eity for 10 years, writes : "It has become amiltar as a household word, and a necessary addition to the medical requirements of every family. In my opinion it is THE BEST REM-Sheepskin gloves, made rough side out, EDY EVER INTRODUCED." Jacob F. Frey, esq., Sheriff of Lancaster county, was cured of Rhenmatism. J. O. Steinhauser, Superintendent of th Lancaster County Hospital, testifies to its success in that institution in the treatment of Dyspepsia, Kidney Diseases, Liver Complaint, Rheumatism, Asthma and Scrofula, and this Yoke pattern, \$4; indigo-dyed, \$4.50; testimony is endorsed from a like experience by A. The white flannel is, of thousands of letters and certificates from percourse, conspicuous ; and as a conspicuous ons in every section of the country who have been cured of various Diseases, and it is their proud boast that they have never published a line that was not genuine, nor a name that was not authorized. Some of these read like miracles, but the facts are indisputable. One

of the most remarkable is the case of Isaac Saltzer, of Mayerstown, Lebanon county, Pa., cured of Hereditary Scrotula, aggravated by a pork diet. We have two large jars of scabs

The Reading Bond Reb bery. Fascinating Confidence Man Prevailing Upon a Young Woman to Rob a Safe. A dispatch from Reading to the New York Sun, dated Saturday, says : The hunting down of the Klapp waterbond robbers was suddenly discontinued to-day, owing to the discovery that the person who took the bonds from the safe with the troops, and sent four scouts to was a young woman standing very high in the Piutes" the estimation of the family. His sweethearts loaned him anything they had until he heard from home. Watches, pins, bracelets, necklaces, and jewelry were freely placed in his hands, which he pawned and realized enough to enable him to live a life of luxury and ease. He never gave anything back, and his victims seemed very willing to stand the loss rather than make a fuss about it, if they really desired to. Most of them kept their secret, and it was a very easy matter at home to say that they had lost their valuablas or that their pockets had been picked at a fair or festival, in the store or at the depot. "Well, the young man carried on his business here successfully, and it was not long before he made the acquaintance of a young woman who frequently visited the residence of Mr. Klapp. Millerton, in some way, learned that the old gentleman had a safe in his bedroom, and that that safe contained a large amount of cash and bonds. He therefore set to work to induce the woman to aid him in getting hold of some of the collateral. He paid every attention to her possible, professed his ardent love and devotion, and at length had her in his complets control. Step by step he let her into his secret, and then succeeded form of Indigestion-A SURE REMEDY for in obtaining her promise to watch when Intermittent Fever, Fever and Ague, and all the safe door would be open and extract the bonds. Claims several days and are supposed to have been killed, Ike Stockton being among are still coming in from every direction for the Warner prize of \$200. It seems now probable that very careful computation will be necessary in order to ascertain by whom the discovery was first made. The naval observatory at Washington makes the comet out to be a most brilliant one. Whether it is also a comet which

has been seen before, or is now for the first time between the earth and the sun, has not yet been determined. Professor Skinner's lescription of the comet repre-sents the entire body of light as taking something the shape of a parabola. The nucleus is not at the extreme end, but per haps a degree back from the end in the tail. The light in front of the nucleus is very bright, but not so bright as that immediately behind it. Further down the tail the light is so transparent that stars can be seen through it. The length of the tail is about 8 degrees, or 8,000,000 miles. The comet in twenty minutes moved three minutes of an are and in one hour nine minutes. It has moved ten degrees north since its first discovery. Professor Skinner's opinion is that it does not go below the horizon at all, but about touches it at midnight. Professor Edward C. Pickering tele-

graphs from Cambridge, Mass., that the omet was satisfactorily observed from that place on Thursday and Friday nights. The computation as to its orbit is now in progress. He found the nucleus well defined and bright, but what struck him most was the remarkable st

Millerton had been gone at least a week before Mr. Klapp opened his private drawer in his safe, and, to his great astonishment, learned that his bonds were gone. Strange to say, an envelope con-taining \$2,000 in cash in the same drawer had not been taken. He at once thought

that burglars had entered his room and had been disturbed in their operations. No one in his household knew anything about it, they said, and Mr. Klapp sus-pected none of the family nor any of their retainers or acquaintances. A large re-ward was offered, and the police and detectives were informed. The facts of the robbery were published, with the description of the stolen bonds. An official of
