MISHLER'S HERB BITTERS. "A PROPHET IS NOT WITHOUT Honor save in his own country." True and yet like most truisms it has its exceptions. The most striking illustration of this is found in the reputation acquired by Mishler's Herb Bitters during the twentyfive years it has been before the people. Growing from small beginnings as simply a local remedy, it has steadily worked its way to the foremost rank among the standard medical preparations of the age ; yet nowhere is it more highly regarded than right here at home, in the scenes of its earliest victories over disease. You can scarcely find a man, woman or child in Lancaster county, who, at some time or other, has not used it, and the testimony of all is given in its praise. The

The Shooting of the President.

On our inside pages will be found the latest reports of the president's condition. Of those who actually saw the shooting of the president by Charles Guiteau few are accessible. They were of that miscellaneous crowd which is usually incidental dition of those whose curiosity had led them to see the presidential party. Mrs. Sarah B. White, the woman in charge of the waiting room at the Baltimore & Potomac depot. was the person who first reached the president after he was shot. In reply to questions asked her by a reporter she said :

"I saw the whole thing. The man came in from this door," she said, point-ing to the door at the east entering addition to the medical requirements of every the ladies' room from the main family. In my opinion it is THE BEST REM- waiting room, "just as the president entered the middle door from B street. When he approached within five feet of the president he fired, aiming, I thought, at the president's heart, and missed him. The president did not seem to notice him, but walked right on past the man. He fired again and the president fell. He fell right at the turn of the second row of seats. I was the first to reach him and lifted up his head. The janitor rushed in and called the policy. I held him until some men came and lifted him up. He did not speak to me or to anyone until a young boy, who I think was his son, came. After he had vomited he said something to him. When he was lifted upon the mattress he spoke or groaned. him ?" " Did the man who shot him say any-

In his reason that he appeared to have no friends. own mind, he attributed the president's exclamation to the fact that he was startled by the shooting, and he did not dream of his being hurt. After the president had been conveyed

to the White House, Mr. Blaine approached his bedside, and, relieving one of the attendants who was fanning him, per formed the labor of love himself. Suddenly the president seemed to arouse from his stupor, and, looking up, smiled pleasantly. "How good you are !" he said gratefully. Then in a moment, Mr. Blaine, bowing his head toward him, the president placed his arms around his neck and said with an impulse of manner touching and as tender as of almost any folly, stupidity or rascality. a woman, "You know how I love you The one possible excuse I can render for People whose motive was both mischiev. him is that he is insane. Story of an Eye-Witness

Simon Camacho, the minister of Venezuela to the United States, who is a per-sonal friend of both President Garfield and Secretary Blaine, was an evo-witness of the shooting of the president. He told the following story of the attempt to murder the president :
