SUMMER GOODS.

AFTER THE 4th.

DRY GOODS.

SUMMER GOODS.

After the Fourth of July finds us heavily overstocked with many kinds of goods for summer. They must be sold at whatever price they will quickly bring.

It isn't practicable to set particulars before you in the papers to-day, nor indeed any day, with anything like fullness. Whatever we have too much of for the season will be marked down as soon as we get to it, taking the most urgent things first.

Lawns that should have sold at 12} cents when they came, a week ago, must now go at 10 cents. Woolen checks, debeiges, flannel suitings, silk and wool garnitures and black grenadines go down. Many sorts of hosiery ; men's and boys' hats of a great many sorts; and all the ladies' trimmed hats and bonnets go down. Boys' clothing suffers a severe sorting out. Some whole stocks and all broken ones go down. Laces, embroideries and white goods we can't reduce the price of, no matter how many there are ; for we have all the trade we can serve now.

Besides goods that are so strictly seasonable as to be urgent, all the odds and ends in the store go down.

Whatever you may want there's a fair probability that we have it below the market price.

"A PROPHET IS NOT WITHOUT True and yet like most truisms it has its exceptions. The most striking illustration of this is found in the reputation acquired by Mishler's Herb Bitters during the twentyfive years it has been before the people. Growing from small beginnings as simply a local remedy, it has steadily worked its way to the foremost rank among the standard medical preparations of the age : yet nowhere is it more highly regarded than right here at home, in the scenes of its earliest victories over disease. You can scarcely find a man, woman or child in Lancaster county, who, at some time or other, has not used it, and the testimony of all is given in its praise. The farmer, the mechanic, laboring men and women, the merchant, the clergyman, the banker, the lawyer; people in every walk and condition of life are all alike familiar with its merits. The Hon. Thaddeus Stevens, member of Congress from this district, suffering from an affection of the Kidneys, could find relief in nothing else. In a letter to a triend (now in our possession) he writes: "MISHLER'S HERB BITTERS is the most wonderful combination of medicinal herbs I ever saw." The Hon. A. L. Hayes, Law Judge of the Courts of Lancaster county, writes: "I have used it myself and in my family and am satis-

MISHLER'S HERB BITTERS.

Hon, George Sanderson, Mayor of Lancas ter city for 10 years, writes : "It has become familiar as a household word, and a necessary addition to the medical requirements of every family. In my opinion it is THE BEST REM-EDY EVER INT:ODUCED." Jacob F. Frey, esq., Sheriff of Lancaster county, was cured of Rheumatism. J. O. Steinhauser, Superintendent of the Lancaster County Hospital, testifies to its success in that institution in the treatment of Dyspepsia, Kidney Diseases, Liver Complaint, Rheumatism, Asthma and Scrofula, and this testimony is endorsed from a like experience by A. Fairer, esq., Steward of the Lancaster

fled that its reputation is not unmerited."

JULY MEETING OF CITY COUNCILS The

e Question of Reorganizing the Fit Department—The Reynolds Bequest Accepted—The Shooting of Presi-dent Garfield Denounced, and Other Matters of Interest.

Meeting of City Councils. A stated meeting of select and commo councils was held in their chambers last evening.

Select Council. The following members were present Messrs. Barr, Bitner, Borger, Doerr, G. W. Zecher, Philip Zecher, and Evans, president.

The minutes of last stated and special meetings were read and approved. Mr. G. W. Zecher presented an abstract of the proceedings of the finance committee for the past month. The only important matters in the report are the recommendation that the mayor in drawing warrants for bills coutracted from June 1 1880, add interest from the time the bills were approved; and that the mayor be requested to call in \$5,000 more bonds for the sinking fund.

Mr. Zecher also presented the report of the city treasurer for June, from which it appears that the balance in the treasury July 1st was \$72,725.16. Mr. Barr presented the contract entered into by the city and the Pennsylvania Globe gaslight company for lighting the city

lamps with gasoline for the ensuing year. The contract and the accompanying boud were approved. Common council concurred

A message from the mayor was read suspending Officer Adams, of the Sixth ward, for thirty days and appointing in his stead M. Karey. The mayor's, action was approved unanimously. Mr. Zecher also presented a message from the mayor and a communication from a committee of insurance men. They are as follows :-

> MAYOR'S OFFICE LANCASTER, July 6, 1881. 5 Honorable the Select and Common Con

cits of the City of Lancaster: GENTLEMEN : I herewith submit to your deliberation a communication "to the proud boast that they have never published a mayor and city councils of Lancaster, Pa.," line that was not genuine, nor a name that of the representatives of insurance comwas not authorized. Some of these read like panies doing business in the city of Lancasmiracles, but the facts are indisputable. One ter. The paper speaks for itself, and reof the most remarkable is the case of Isaac quires no introduction from me. The sub-Saltzer, of Mayerstown, Lebanon county, Pa., ject is a very important one, and will, I am cured of Hereditary Scrotula, aggravated by a hands. A necessity exists for the reorganpork diet. We have two large jars of scabs | ization of our fire department, the details f which it will be for you to work

Very respectfully yours,

To the Mayor and City Conneil of Lancaster

GENTLEMEN : At a meeting of the repre-

business in Lancaster, held on 28th ult.,

the undersigned were appointed a com-

mittee to present to your honorable body

ment, in place of the volunteer system now

to us, we beg to call your attention, first :

been mostly of incendiary origin, and it is

well known to you, that while the majority

of these fires have been confined to build-

Mayor.

protect your citizens from the incendiary, or that they are unable to suppress an element that may involve the destruction president. of your city, it must be plain to you that only two courses are open to the insurance

companies, to wit : 1st. A large advance in rates, or

2d. To relieve themselves of all their risks, and cease from doing any further business until such time as the moral character of your citizens shall have reasserted itself, and purged the city of the dangerously disorderly class which now

threatens its very existence. As to the first alternative, we may say, that it could not be adopted with any pros-

pect of success, because, it is impossible to ascertain what would be an adequate tariff or rate in any city wherein incendiarism is permitted to do its work without check or hindrance, and therefore, the second alternative, namely, the withdrawal of companies from your city would, we think, be shown, to be their only remedy

for the difficulty. Now as to the measures which may be necessary for you to adopt in the emergency which now presents itself for your consideration, it is neither our purpose of province to dictate, but we may, at least, respectfully make some suggestions.

We therefore respectfully suggest and urge upon you, first :- the extreme importance of putting in operation the most thorough, and efficient measures that can be devised, for the detection and prompt punishment of all who have been in any way connected with the recent fires in your city ; and such measures you are as well able as we to originate.

The active use of your present police force will a complish something, but as i is small, and covers a larger territory than it can effectively protect, it would seem necessary to strengthen and enlarge it to the fullest extent that your authority and

means will permit. The employment of the most compeon Locust street, from Knapp's brewery tent detectives in such numbers as may be necessary, would also suggest itself to Commissioner Trewitz, which accom-panied the above, showed the expenses of your own minds as a most available and efficient method of reaching the evil. But these are but temporary measures, the department for May to have been and something much more far-reaching \$1,637.10. Common council took no action upon and thorough is demanded in this emer

gency. We have been informed that your fire de-

partment as noworganized, while dependent in part only upon the city for its mainteneil concurred. ance, is substantially independent ; owning its own apparatus, framing its own code of government, and to all intents and purposes electing and controling its own chief streets. The amount is \$99.25, and on and officers-in brief not responsible for its operations to the city authorities.

Fire departments thus organized have in the experience of all the larger cities, developed in their history the same evils and dangers which you are now confronting, and in almost every instance have be come not only inefficient, but have created and fostered to a greater or less extent an incendiary class.

several ordinances designed by Dr. Brown, Such organizations are apt to fall into secretary of the board of health. The bill the control of those who use them for their is entitled : " A supplement to an ordinown purposes, and thus destroy their ance establishing a board of health and efficiency, and, however honestly they regulations for the government of the may have been originated, it is a fact that same," and the full text is as follows :sooner or later they attract to them the A supplement to an ordinance establishing a board of health and regulations for the gov-ernment of the same : disorderly class, and become not only had imposed a fine of \$5 each upon the inefficient but dangerous. Under theses conditions we think it of Washington, American and Shiffler com-Be it enacted by the select and common extreme importance that your fire departcouncils of the city of Lancaster, and it is panies, for violating the rules governing meut should be under the supervision of, the department.
