COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE.

The Pennsylvania pay car will gladden the hearts of many Columbians by its arrival here to-morrow.

The Methodist Sunday school will hold

their annual picnic to-morrow at Lititz. A large crowd is expected to go along. Mr. James Watson, colored, while un-loading a wagon filled with corn, this morning, for Mr. Fied Bucher, was overcome with the heat. He was carried into the house where in a few minutes he recovered, but was unfit for further work.

Two brothers who had been fighting with the Heaps family, were arrested this morning by officer Keech, and had a hearing before Squire Young, who committed one of the brothers for 10 days, while the other was discharged with a reprimand

The Presbyterian picnic held at Springwood yesterday, although a success in one way, was a failure in another. The arrangements were by no means perfect. The train was to leave York at 7:30, but instead left at 6:30, and by the latter arrangement a large number of Columbians were forced to wait in York until 9:10. It caused a great deal of dissatisfaction among those who were left behind, and if

the United Brethren have the same arrangements their picnic will be another failure. Miss Ella Reist, of Laneaster, was in town yesterday, the guest of Miss Alice Bucher. Mr. Louis Filbert and family re-

turned home last evening from a three weeks tour in Lancaster and Chester counties. H. M. North and family have 1-ft, for the summer, for Cape May. THE SURFINER INQUEST.

The Evidence Heard This Morning Coroner Mishler and his jury resunted the hearing of evidence in the case of Michael Shreiner who died from his injuries received on the Reading railroad near the Harrisburg turnpike crossing a few weeks ago. Dr. S. T. Davis and the engineer, fireman and brakeman, of the train by which Mr. Shreiner was struck were examined and testified to the circumstances of the accident substantially as they have been heretofore published.

Dr. Davis, who attended Mr. Shreiner. testified that the injuries he re-ceived caused his death. James Carnahan, engineer, and Thomas Coonan, tireman, testified that the bell was rung and the whistle blown as the train approached the crossing ; it was running at about six miles an hour. The fireman notified the engineer of the near approach of Mr. Shreiner's team and the engineer reversed his enengine; the team stopped for a moment some distance from the track and the engineer again went ahead. Almost at the same moment the team again started : the engineer again reversed and attempted to stop the train, but could not do so in time to avoid the collision, and Shreiner was hurt as has been previously reported. Wm. B. Curley, conductor, and Thomas Calahan and Philip Wallace, brakemen, corroborated the above.

The inquest adjourned until 7 o'clock this evening, when other eye witnesses, not railroad men, will be examined.

A Mystery at Niagara Falls.

The body of an unknown woman has been found floating in the river just below young lady, about 20 years of age, finely formed, with a beautiful long, dark head of hair. It was destitute of clothing except an undergarment, a pair of red stockings and garters and a pair of low cut shoes. A plain gold ring encircled the third finger on the left hand. The body was in per the water, and had only received a few slight bruises. It is hardly possible she had come over the falls, as no body has yet been found that has come over either

falls without being more or less badly mangled by the tocks and heavy weight of water falling upon it. Still there are no grounds to believe it got into the water from the bank below, consequently the case remains a mystery.
