THE NORMAL SCHOOL.

COMMENCEMENT AT MILLERSVILLE-

Large Attendance and Successful Exercises This Morning's Programme.

Pleasant weather and other favoring circumstances combined to attract a large attendance to the annual commencement exercises of the state normal school, which took place to day. Many former students were present in the great throng of visitors who filled the grounds and buildings prior to the beginning of the entertainment. The street cars carried an unwonted number of passengers from this city, and pri vate conveyances took nearly as many

Shortly after 9:30 o'clock Mrs. Dr. Brooks, presiding at the organ, the seniors cntered by trios, ushered by Messrs. Sauford and Moyer. There were thirty-ninetwenty gentlemen and nineteen young ladies. The gentlemen's ages range from 18 to 25 years, and the young ladies-well, that is something no fellow can find out.

There were times when the sun of knowl edge seemed to be going out and the world sinking into intellectual darkness, but suddenly there would appear some great light to awaken mankind into new activity. Great thinkers were born into the world to plant new thoughts into thousands of fruit-

ful intellects, there to germinate and grow, filling the world with the buds, blossoms and fully ripening fruitage of an accomplished revolution, one of a grade series of evolution of which man's present social and intellectual condition is the latest result. Beginning with the pre-historic state of mankind, the speaker traced the intellecutal growth of man down to the present era of thought, showing much research and careful thought. He merited the favorable reception Lis efforts met.

Brownsburg, Bucks county-A very slight knowledge of history is sufficient to convince one that every age has, to a certain extent, contributed to the education of succeeding ages. Every institution of learning has this advantage over those of earlier date ; it can avoid their errors and profit by their experience. This being so, it is natural to suppose that after so many centuries of earnest labor, a system of education would be produced, complete in its requirements, perfect in our col-leges. A person's education should be

made to conform to the end he has in view. He who expects to attain to any degree of greatness must have a purpose and a definite plan of action. Practical talent is ignored. The busy world demands it and receives it not. There is an unanswered cry for "cuaning hands and cultured brains." Knowledge is a firm basis for a careful builder. If the true object of education were kept constantly in view, man's duty to himself, to his neighbor and his God were examined in the clear light of reason, an intellectual educational failure would be an intellectual novelty. If men cared less for wealth and fame, would learn to hate pride and abhor

COLUMBIA NEWS.

OUR REGULAB CORRESPONDENCE. Mr. Harry Furness, of Philadelphia and who has the charge of the New Jersey news department, is at present in town, spending part of his holiday. The picnic of the United Brethren Sun day school, held yesterday at Springwood, was, as predicted, a grand success. The evening train brought home nearly eight hundred picnickers.

The St. Johns Lutheran picnic took about 150 persons to Silver Springs where the picnic is to be held. The Bethel Sunday school had a very slim turnout at their picnic in Heise's woods to-day.

A large number of boats arrived at the Columbia & Reading coal schutes this

Five workmen in the Shawnee rolling mill were compelled to quit work yesterday afternoon on account of the extreme licat. The negroes of "Tow Hill" had another fight last evening. Two women got into a dispute which soon turned to blows.

The colored men took sides and soon a regular riot began, but in the course of a half hour all was again quiet as the constables made their appearance. Some saits were entered, but they will not have a hearing before to-morrow.

At the United Brethren picnic yesterday Edward Hamaker, a young boy about twelve years old, in swinging fell from the swing and had one of his legs broken, and very badly at that too. The bone protruded through the skin, making an ugly and dangerous looking wound. He was told not to swing very high, but thinking that he knew better he met with the above

accident. A doctor was summoned as quickly as possible and all arrangements made to make the young sufferer as comfortable as possible. He was brought home in the special train. A steer, driven by Mr. John Stoner, workman for one of our town butchers, became excited and raised considerable excitement on Fifth street last evening.

Save Your Hair-Keep it Beautiful. The "London Hair Color Restorer" is the most delightful article ever introduced to the

American people and is totally different from all other Hair Bestorers, being entirely free from all impure ingredients that render many other articles for the bair obnoxious. Where baldness or falling of the hair exists, or premature grayness, from sickness or other causes its use will restore the natural youthful color and cause a healthy growth, cleansing the scalp from all impurities, dandruff, etc., at the

same time a most pleasing and lasting hair dressing, tragrantly perfumed, rendering it soft and pliable, making it an indispensable article in every toilet. Ask your druggist for London Hair Color Restorer. Price 75 cents a bottle. Six bottles, \$4. Main depot for the United States, 330 North Sixth street, Philadel mil-lydTTh&F&w phia.

A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. Brown's Bronchial Troches do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchial Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box

A Significant Fact.

The cheapest medicine in use is Thomas' Ec-lectric Oil, because so very little of it is re-quired to effect a cure. For croup, diphtheria, and diseases of the lungs and throat, whether used for bathing the chest or throat, for taking internally or inhaling, it is a matchless com-pound. For sale at H. B. Nothing Short of Unmistakable Beauty Conferred upon tens of thousands of sufferers could originate and maintain the reputation which Ayer's Sarsaparilla enjoys. It is a compound of the best vegetable alteratives, with he lodides of Potassium and Iron, and is the most effectual of all remedies for scrofulous, nercurial, or blood disorders. Unitormly suc

cessful and certain in its remedial effects it produces rapid and complete cures of Scrofula, ores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders rising from impurity of the blood. By its invigorating efects it always relieves and often cures Liver

larities, and is a potent renewer of vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the sufering sick anywhere For sale by all dealers.

THIRD EDITION THURSDAY EVENING, JULY 21, 1881. **GETTING ALONG FINELY**

THE PRESIDENT CONVALESCING.

Craving Substantial Food.

WASHINGTON, D. C., July 21 .-- The following bulletin has been sent to the cabinet officers : "The improvement in the president's condition continues steady and uninterrupted ; pulse 88, normal temperature and respiration. He is bright and cheerful, has excellent appetite, and expresses a desire for more substantial nourishment. There is no better indication of his progress than the disposition which he is now manifesting to think and to talk of outside matters. The surgeons express themse lves as entirely satisfied with the progress of

the case." This Morning's "Official Bulletin,"

MORE LAWLESSNESS.

Tragedies Reported from the Southwest.

Los VEGAS, N. M., July 21.- A special from Florieke dated yesterday says : 'This afternoon Frank McPherson shot and killed a Mexicau named Romero and another whose name is unknown. The shooting was the result of a quarrel over a tie contract. The murderer has escaped. A special from Silver City, says : "Monday night L. F. Harvey, a cook at a hotel, kicked a Chinese dishwasher. The latter complained to a deputy marshal, who immediately went to the hotel to arrest Harvey, who asked to see the warrant for his arrest, The deputy marshal instantly ordered Harvey to follow him, and Harvey not heeding the order was shot dead on the spot.

Dae of the Philadelphia Rogues Fails Appear.

PHILADELPHIA, July 21 .- The cases of the men arrested recently upon charges of conspiring to defraud the government in the letting of star route mail contracts in Arizona and Utah came before the United States commissioner to-day. After waiting nearly an hour Christian Price and Legrand Eusign were the only defendants to appear, and on application of the United States district attorney, the bail of Thomas A. McDevitt was forfeited. Subsequently his counsel appeared with a

train at Perryville, and was ou his way to city. After hearing testimony in the case the

us of a miserable scheme concocted in that state by Governor Foster, the object of which is to convert a proposed national

thanksgiving for the recovery of Presi dent Garfield into an electioneering device for the benefit of the Ohio Republicans! Inexpressibly base as such scheme would be it really is not more base than the attempt which, as we see, has actually been made to drag the wounded president of the United States into the faction fight at Albany. The essence of the outrage on public decency is the same in both instances. In the one case as in the other it consists in the brutal eagerness of low and selfish politicians to raid for low and selfish ends upon the generous instincts of the people. What else can be expected of low and selfish politicians ? And how are

other than low and selfish politicians to be bred of a system in which every political contest is reduced to an ignoble scramble for the spoils of office.

ATTACKED BY HIS FATHER.

Remarkable Scene at a Railroad Depot An excited and respectably dressed genleman jumped from the 3:40 fast Washington express train on the Pennsylvania railroad as it stopped a moment at the Market street depot in Newark, N. J., yesterday afternoon, and springing upon a boy on the platform in charge of a delicate looking child, clutched him by the collar and rained blows upon his head. The man attracted a large crowd of people about him and Patrolman Chrystie and Depot Master Warren, forcing their way in the crowd, caught the man's hand as he was about to draw a weapon. With the greatest effort and after a severe struggle the man was dragged from the boy and the entire party was taken to police head quarters. There the man said he was Alexander Adamson, a truss manufacturer of 701 Broadway, New York. The boy said

he was Frank Adamson, aged 16, and that the child was his sister Gertrude, aged 6. The man was locked up in a cell, and the boy was placed in the witness room with his sister, to wait the arrival of Judge Ricord. A new loaded revolver was taken from Adamson's pocket.

The boy said that the assault was committed because he was taking his sister to her mother in Washington, and he had no doubt that the policemen saved his life, as his father threatened to kill him if he took the girl away.

"Mother lives at 917 Green street, Washington," continued the boy, "and has not

lived with father for years, owing to his temper and bad habits. On Friday my sister came to New York with Gertie to find rooms, as mother wanted to live there. She went to father's store and informed him of mother's intention. On Sunday they went to Long Branch, and upon their return home they quarreled. Father struck my eldest sister and ordered her to pack her trunk and return to Washington and inform mother that he would keep Gertie and bring her up as he pleased. "My sister arrived home on Sunday evening, and nearly killed mother with the news. On Tucsday afternoon 1 left Washington for New York, with the intention of securing Gertie and bringing her home. Philadelphia Bulletin. Comparing Dean Stanley and Dean Swift, two men about as much unlike as John Wesley and Jerry Black, the Times observes that "both were ministers of an imbecile pulpit and an inflexible ritual." This sentence might possibly be found to embody a great truth if only we could ascertain what it means. It would also be very entertaining no doubt to learn what the Times means when it says that " Stanley was in a marked sense a prototype of that other great dean whose life-work leaves a broad mark in English anuals, Swift, Dean of St. Patrick's." A prototype who was born about a hundred years after the death of the person supposed to be typified, is worth studying simply as a

Fatalities by Fire.

The Catholic presbytery at Roxton Falls, Quebec, was destroyed by fire on Monday night and Father Larue, the attending priest, perished in the building. The fire originated in his room. The only other occupant of the house, the priest's nephew, escaped by jumping from a win-dow. Father Larue had been ill for several days, and his physician visited him not long before the fire broke out. It is supposed that after the doctor left Father Larue was seized with a fit and overturned the lamp in his room. Edward Maris and William McIntosh lost their lives by the burning of a hotel at Nimshew, Butte county, California, on Monday morning.

The most enviable state with respect to the world's opinion and the regard which we have for it is undoubtedly reached by following the dictates of a well informed mind, and at the same time giving the world's opinion a just consideration. By assuming a happy mean we will be better enabled to appreciate constantly the high ideal of a perfect, well-rounded manhood or womanhood. The young lady gave two pictures of two different conditions of life-the stepping stone that leads upward and the other downward. One evil step begets another and he is soon led downward. Many, who know better of her, pictured her as otherwise. Every one who knew Socrates knew him to be a lazy, worthless character. He had naturally strong appetites. Lives there a woman who is so invulnerable as Xantippe as to bear all she did? She calls forth the admiration of the world. When she was silent others would have assailed ; when she lived she drank a cup more poisonous than Socrates-a life destitute of pleasure. Last Thursday, coming to Lititz with the Methodist Sunday school, we noticed how beautiful the fields looked with their golden grain, but to-day those same tields look like a barren waste, as the grain has all been stowed in the several barns, The E E. Lutheran picnic, owe their

Harry C. Gable, for their kindness in getting up games of different kinds. Mr. J. R. Henry, Columbia correspondent for the Examiner, while playing base

ball to-day at Lititz, made some very neat running catches, and was one of the heaviest batter in the club. A great deal of indignation was felt by

the managers of the Lutheran picnic about the way the officials of the Reading railroad treated them in regard to their provision car. Instead of leaving it at the siding near the springs they hauled it about half a mile away, making it necessary to hire a team to haul baskets to the springs. The conductor was told about it, but he replied that he was behind time and could not wait to shift back. If this thing continues, Lititz will no longer be a

place to hold Sunday school pienics. Robbery of Mr. North. Last night the residence of H. M. North esq., Columbia, was entered by burglars and robbed of about \$24 in money,' a gold watch and chain, Mrs. North's jewelcase and jewelry, consisting of gold chain with a hook on it, breastpin and ear rings, of black onyx with pearls, two pairs of

gold sleeve links, one black mosiac bar pin, with buttons to match, several gold rings and other articles; Mr. North's diary (which was probably mistaken for a pocket-book), a promissory note for \$2,100, and some other articles of value. The burglars effetced an entrance by

climbing up the projecting bricks at one corner of the house and thus reaching the second story window.

Objections to the Committee.

A number of members of the American fire company are dissatisfied with the committee which was recently appointed to reorganize the company. They allege that several members of the committee are objectionable men. Some of them have belonged to the company but a short time, while others, although they have been members for years, did not take any interest in the company until the present time. They think that there are active firemen in the company who should have

accounts lying in a critical condition.
