notwithstanding the threatening aspect of the weather, Sunday would be a "big day." The 2 o'clock service on Saturday from the stand was largely attended Rev. R. W. Humphries, of Reading, presided and preached an eloquent sermon based on the text, "We have not followed cunningly

devised fables," 2 Peter 1, xvi. Prayer meeting at 6 p. m., was held as usual in the upper tent and was well attended. Rev. G. G. Rakestraw, of Downingtown, who has charge of this meeting nightly speaks in glowing terms of his suc-

Shortly after supper the drizzle changed into drops and a rain was apparent, and on this account the 71 o'clock service was held in the tabernacle. "God is our refuge and strength; a very present help in time of trouble," was the subject on which Rev. Dr. J. B. Dobbins, of Philadelphia, preached a practical discourse, Dr. Dobbins, who was at one time stationed at Duke street, M. E. church in this city, has lost none of his eloquence and power that made his pastorate in this city so suc-

Yesterday was all that could be wished for in the weather point of view. Special trains were run on both railroads to the camp ground from all points; one train alone, on the P. R. R., from this city, carried 11 filled cars, full of people, to the tented grove.

The 6 a. m. service was not so well attended as the love feast at 81, at which Rev. G.G. Rakestraw presided; no sermon was preached. There was an unusual interest manifested in the services. This was the annual feast of this circuit and always attracts the attention of the clergy and people.

The sermon of Rev. Dr. Hamlin, of the Ridge Avenue church, Harrisburg, was listened to by over two thousand persons. It was based on the text, "For God so loved the world, etc.," from John 3, iii and xvi. Dr. Hamlin is one of the leading spirits in the camp and is considered by the Methodist people as one of the most eloquent, ornate and powerful preachers in Central Pennsylvania. His effort on the occasion justified the exalted opinion his church has of him. His discourse was a sound, practical one, being full of pointed illustrations and logical sayings.

The children's meeting at 11 o'clock was a grand success. It was, indeed, a fine sight to see the immense number of little folks: to listen to their singing and mark the interest exhibited.

In point of numbers the 3 p. m. services was as large as that of the morning. Dr. G. A. Roache, of Brooklin, N. Y., pre sided and preached an eloquent discourse on the words: "But Christ is All in All." Like Dr. Hamlin, Dr. Roache stands high among Methodist clergy, and his discourse on this occasion showed too well that merit has been well rewarded.

Supper over it became apparent that the large majority of the visitors would leave with the day, and this was visible at the evening meeting at 71 o'clock, which was but at present working at the machine presided over and the termon preached by Rev. W. C. Robinson, of the Duke street his relations. Mr. Wm. Darby, of Harchurch, this city. The sermon was de livered in Mr. Robinson's usual clear and Heath, who has been visiting Miss Ella forcible style and was an eloquent and ornate discourse, based on the words found in Hebrews vii 25 and 26. Monday.

Rev. Mr. Brubaker conducted the 6 a. m. prayer meeting, and it, with the 8 a. m. meeting conducted by Rev. G. G. Rakestraw, were very poorly attended.

Nearly every person on the grounds was present at the 101 o'clock meeting to hear Rev. W. J. Mills, of Reading. For over an hour Mr. Mills held the large audience's undivided attention to a discourse on the theme "The dispensation of glory." His sermon was a practical one divided into three parts; first, the gospel mirror; second, the gospel transformation; and third, the gospel agency. Rev Mills is a fine elocutionist and an ornate and eloquent preacher, and the sermon this morning was

Camp Items. Two buggies, driven by country boys, collided on the pike near the railroad-one is without a wheel and both are badly scratched.

Rev. Robert Carson, of West Chester, arrived this morning.
Rev. J. W. Wood, of Marietta, conducted the 3 o'clock meeting to day. A Disorderly Car.

Complaint, from an altogether reliable and responsible citizen, comes to us of the lack of regulations and great disorder on the train which left Landisville station on the Pennsylvania railroad last evening at 7 o'clock for Harrisburg. There seemed to be no conductor nor other official to preserve order and decency. Unruly whites and negroes smoked and otherwise made themselves offensive to ladies, crowded them out of seats, and in all respects acted so outrageously that the company ought to inquire who is responsible for what has reflected to the discredit of the

Surprise Party.

Harvey Raymond, the statesman of Lower Mt. Joy township, residing about a-half mile west of Springville, was the ing nearly four hundred people, passed victim of a sarprise party on Saturday through here yesterday morning at 8:20 evening—the anniversary of his birthday. To County Commissioners' Clerk I. N. Wills was deputed the delicate diplomatic duty of getting Harvey away while the surprisers got possession. Under pretense carrying a letter from Commodore Hiestand to ex-Senator Cameron, Mr. Wills obtained Raymond's company to the old Donegal farm. Cameron was, of course, not at home, but when they returned Harvey found that he had been outwitted, and a number of his friends from the neighborhood, Prothonotary McMellen, District Attorney Davis, Treasurer Groff, Messrs A. S. Edwards, J. P. Knight, P. E. Slaymaker and Al. F. Shenck, of this cartridges, as the bullets nor their marks city, Representative Courtney, of Elizabeththown, and many others were on hand. They made it pleasant for Har-vey until a late hour and a 'great" time was had around well spread board. The Spring Garden cornet band serenaded him during the evening and the members were handsomely entertained.

When the "letter" which was borne from one statesman to the other was produced, opened and read it was found to be a writ from Com. Hiestand directing ex-Senator Cameron to detain Raymond until his friends could set his house in order for the "surprise."

Harvey says he is forty-five years old, but in virtue and experience three score

What the Police Say. In reply to the editorial animadversion of Saturday's New Era relative to the dis order on East King street near Lime, or Friday evening, several members of the police force, who have been interviewed. declare the Era's statement to be a gross exaggeration. COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE. The cylinder head of engine No. 102 blew out yesterday afternoon east of Mountville.

Yesterday it rained all around Columbia but here we hardly received a drop. -Men are now employed in staking out the ground on which the St. John's Lutheran church is to be erected.

To morrow evening a birthday party will be held in Desch's hall. Dancing will be the principal amusement. The Y. M. C. A. excursion to Atlantic

City on the 4th of August and the one on the 18th of the same month to the same cace both promise to be grand affairs. The services held in the different churches were poorly attended yesterday.

Engine No. 387, attached to the P. R.R. excursion train to the Landisville campmeeting yesterday, gave out near Diller-

ville, delaying the train for an hour. In a well-known beer saloon on Union street, two men started a fight on Saturday evening, but it was quickly suppressed by the ever ready landlord.

John Wolfe, brakeman on engine No. 93 of the P. R. R., while coupling a car on Saturday had his hand severely mashed. Amputation it is thought will not be ecessary.

Near the corner of Second and Union streets the road is in a very bad condition, ikewise the crossing. Council or those having the roads in charge should look to this matter at once, as it is unsafe for driv-

A party drove to Washington borough on Saturday evening and gave a very pleasant surprise to Miss Eva Shuman. A bass supper was then prepared for the uninvited guests.

The dredging machine which was expected to arrive here this morning, to clean the Columbia coal shute, has not yet put in an appearance. About 7 o'clock this morning as a horse

and carriage were coming over South Sec ond street, a wheel broke, throwing the occupants out over the dasher but receiving no damage. A number of Columbia gentlemen went

up to see the Columbia camping out club, at Codorus. They returned this morning and report that the boys are nicely situated and are having a splendid time. This morning as a young colored boy, employed at Campbell's livery and ex-

change stables, was trying to put a horse and buggy away, the horse became frightened and ran off., The boy jumped in behind but could not get the horse under control. Up the alley between Locust and Walnut streets it dashed and over Fifth street, were it was at last caught. Mr. Nat. Baker, formerly of Columbia,

risburg, was in town to-day. Fry, returned to her home in Philadelphia to-day, accompanied by Miss F. Miss Kate Beck, of Harrisburg, is the guest of Miss Ida Becker.

Mr. John Klingbell, the janitor of the Columbia public schools, has one of the finest collections of Indian relies, old and costly coins, stuffed birds and animals, and numerous other curiosities, to be found anywhere. He will not sell any of them but will show and explain all he knows about them, which we assure you is not a little.

It is hard to tell whether the Osceola Tribe, I,O. R. M.'s excursion was a success or not. Some say there were nearly four hundred along, while others say that only two hundred and ninetythree boarded the steamer "Chester. But all do say that those who accompanied the excursion had an enjoyable time, which we do not doubt, as they had every thing that could give them pleasure. On board the boat was one of the most pleasant features they had.

William W. Wanbaugh, a carpenter while working at one of the houses ob a Mr. Waner, on Shawnee street, on Saturday, fell between two rafters and his whole weight falling on his right arm broke it below the elbow, also knocking it out of place at the elbow.

This morning Squire Frank committed William Jefferson to jail for appearance at court for outraging Eva Baker, a young colored girl about 11 years old. The atrocious deed was committed on the 21st of July, when he had intended taking the girl to the circus, and was only discovered on last Friday. Jefferson is a barber by trade.

The Landisville campmeeting, in regard to numbers, was a failure yesterday. About half of those who generally go there on Sundays were forced to remain home on account of the threatening weather, and Harrisburg was represented by about one-third of its regular number. and on the same account, but those who did go from observation had a very pleasant time. On Saturday evening a colored man and his wife came down Union street wrangling with each other. In front of Dave Young's butcher establishment their dispute turned into blows and ended by the man pulling out a revolver and threatening to blow his wife's heart out if she did not be quiet. She continued abusing him and he finally fired three shots at her, which missed her, but nearly hit Mrs Young, who was sitting in front of her door. Other parties interfered and quiet was again restored. It is thought that the first two shots fired were blank could not be found, but the third one buried itself a few inches above where Mrs. Young had been sitting. No arrests

were made. Yesterday afternoon a number of rolling mill hands took a couple of kegs of beer up to Chickies rock, intending to spen the remainder of the day there. After they had been there nearly an hour, a gang of tramps, probably the same who were arrested by Officers Fisher and Rodenhauser a few weeks ago, joined them and asked for some beer, which being refused them, they began abusing the mill hands. After enduring their insults as long as possible one of the hands up and knocked a tramp down. In a few minute; all hands were engaged and several hard knocks given and received. The tramps were finally put to flight, but not before they had received such a whipping that they will not soon forget.

AT THE PRISON.

Monthly Meeting of the Inspectors. The August meeting of the Board of prison inspectors was held to day, all the members being present. The morning session was mainly taken up with the approval of bills, after which the following business was transacted :

Keeper Weise was granted leave of absence for two weeks. During this time G. A. Smith will act as keeper. Petitions were granted for the discharge of eleven convicts under the insolvent law, their terms expiring before the next meet ing of the board of inspectors. The petitions were reported favorably. Moral

Instructor Swank was granted leave of absence for two weeks. On motion of Mr. Carter the consideration of the gas and water question was deferred until some future meeting. It was decided to ask for bids for coal for the prison, about two hundred tons,

opened at the meeting of the board of inspectors on Monday, September 5. The election of a successor to Harry Cooper was discussed and several persons were named as suitable for the position, but as it was not known whether or not they would accept, the election was de-

After the announcement of visiting committees for the ensuing month the board adjourned.

Dast to Dust. The funeral of the late Geo. H. Showers took place at 2 p. m. to-day from St. James P. E. church, whither his remains and the relatives and friends were conveyed from the residence of Wm. A. Morton, where he had died. The services at the church were conducted by Rev. D. B. Willson and the music rendered by the boy choir. A detachment of Masons, under direction of H. E. Slaymaker, escorted the funeral procession to the church and thence to Shreiner's cemetery. The body was exposed to view in the tower entrance to the church where many friends took ad-

vantage of the opportunity for a last look at the wasted features of their departed companion. The bearers were H. E. Carson, D. H. Wylie, James B. Strine and Chas, Young—Masonic brethren and fellow. low craftsmen of deceased. Notable among the floral tributes were a beautiful cross of exquisite flowers and a base with the words "AT REST" projected in white buds, the contribution of his fellow employees of the INTELLIGENCER office, sup-

plied by H. A. Schroyer, Proposals for Coal and Lead. On Saturday evening, at the mayor's office, the bids for furnishing coal for the water works for the ensuing three months

were opened. Th bids were for No. 1 pea.

This morning, about seven o'clock, Foreman John Malley, of the Pennsylvania railroad, found a box of goods lying in a ditch along the track between Witmers and Mill Creek water station. The box is destined for New York and it was shipped from Dayton, Ohio. In a cornfield near this place Mr. Malley tound ten pieces of cloth and a bag of flax seed. It s supposed that a train of cars was robbed by thieves last night who threw off the goods. The box is now at Mussle-mans, this side of Witmers, and it has not been opened. •

Picnics. The Mænnerchor are holding their picnie at What Glen Park to-day. The picnic of the "Square" association came off at Tell's Hain on Saturday The crowd was large considering the bad weather and the order was very good. This afternoon a picnic for the benefit of St. Anthony's church is being held at Tell's Hain.

EXECUTIVE MANSJON, WASHINGTON, D. C., Aug. 1-11:45 A. M. (Unofficial)-The president is passing a quiet, comfortable day. Under the supervision of the attending surgeons, Professors Bell and Corn..... Taintor this morning made another application to the patient's body of the electrical apparatus known as the induction conclusive, and ascertaining definitely and certainly, if possible, the location of the

Professors Bell and Taintor have been almost constantly engaged for two weeks in experiments with the induction balance, and have made several modifications and improvements which greatly add to its efficiency. They tried the improved ap-ISAIAH Mcklilles, of Lancaster city, paratus upon the president's body for the first time last Saturday, and although it indicated faintly the location of the ball, it was afterwards found to be slightly out of adjustment and the experiment was not regarded as perfectly conclusive. The results of this morning's test, however, are entirely satisfactory both to Professors Bell and Taintor, and to the attending physicians, and it is now unanimously agreed that the location of the ball has been ascertained with reasonable exactness and certainty, and that it lie, as heretofore stated in these dispatches, in A LL PERSONS WHO INTEND TO GO to Pine Grove on Thursday next, should procure their tickets not later than Wednesday next is not later than Wednesday next in color to give the invalid ately over the groin, about five inches below and to the right of the navel. The experiments this morning were re-

peated several times and were made by Profs. Bell and Taintor independently, so as to guard as far as possible against errors arising from the faulty perception of a single individual or from one person's mistaken judgment as to the comparative intensity of sounds. In every instance, however, when the small disks attached to the machine were placed in such a posi tion on the patient's body as to indicate the location of the black and blue spot which appeared on the lower right side of the abdomen soon after the president was shot, the one listening at the microphone said that he detected evidences of disturbance. It made no difference whether the experimenter could see the disks or not, whenever they were placed in that particular position, he became instantly aware of the fict and announced it. The experiments

It was not possible to ascertain with any degree of certainty the depth at which the ball lies, imbedded on this imaginary

line. But as the front wall of the abdomen at this point is about two and one-half inches in thickness, the ball must lie with in that distance of the surface. These results fully confirm the original diagnosis of the case made by the attending surgeons soon after the president received his injury, and that fact is as gratifying to them as the complete success of the induction balance is to the professors, Bell and Taintor. This is the first instance in which an imbedded bullet has, been accurately and definitely located without probing and by purely scientific methods. There inches in thickness, the ball must lie with in by purely scientific methods. There is no intention on the part of the surgeons to perform an operation for the removal of the ball at present; so long as it gives no trouble it will be allowed to remain in its present position. The question of the disposition to be finally made of it will be considered when the president shall have recovered his strength and shall be out of dancer.
