### THE BOOM IN TOBACCO.

Thousands of Cases of the Crop of 1881 Al-ready Purchased at High Figures.

The oldest inhabitant has no recoilection of such a "boom" in tobacco, as is now prevailing in this county. Scores of buyers from abroad are in the field, scouring the county from end to end and purchasing fine lots, at prices that a month ago would have been deemed exorbitant, if not fabulous. One small patch is reported to have been picked up at 50 cents through. A reputable buyer assures us that he has paid

as high as 35 cents a pound for wrappers, and we have heard of none being sold for less than 20 cents-the average being certainly above 25 cents, with prices going up.

Until the farmers got hold of the Lan-caster newspapers of last week and were thus made acquainted with the anxiety of could not be sent until the damage could the buyers, they were somewhat reasonbe fixed. able in their demands, and disposed of their crops at 20 and 25 cents for wrappers; but since that time they scarcely know how much to ask. We hear of one farmer who was offered 30 cents for his wrappers and refused to sell; whereupon the buyer asked him how much more would buy the crop. The farmer didn't know; he wanted time to consider, whereupon the buyer, to show his contempt for the farmer's greediness, asked him if he would take "99 cents through." The ground. farmer who couldu't see and didn't suspect that he was being guyed, said he would wait a few days longer before he sold ! He will probably wait a good while before he gets one-third the sum above

and many times character. Still, there is no doubt of the reality of the "boom", and it is believed that more than 5,000 cases of the crop has been already sold. It is estimated that Rosenbaum, who opened the ball, has already secured from 600 to 800 cases ; Joseph Meyers' Sons, from 400 to 500; Teller merly of Columbia, and now residing at Brothers 400; Lachenbruch 300 to 400; Gershel Brothers 300; N. Levin from 200 ry Suydam. to 300; E. Spangarn 200 to 300; Falck 200 to 300 ; Lederman 200 to 300 ; Pretzfield 100. A dozen other buyers from ing missed the York train, were compelled abroad have secured smaller quantifies to sleep on the pavement at the P. R. R. ranging from 10 to 100 cases. Some of depot all night. Capt. Case tendered the our home buyers have also bought con- use of Co. C's armory, but was not occusiderable quantities. Skiles & Frey have pied. The supposed bought a pound; and they say they will not buy a pound of green tobacco. They been for the interference of Officer Rodenanticipate a great deal of trouble between houser, they would have received a whipthe buyer and seller of green tobacco when ping. they come to settle ; and they also expect a very great decline in prices after the Mrs. Benj. Wertz, will be interred from present craze is over. They argue that her late residence in Manor township. She not more than 5,000 or 6,000 cases will be taken at the present ruinous prices, after which there will be a lull in the market. and they can enter the field and buy all they want at much lower rates than now rule. They estimate the total crop of the county at fully 35,000 cases, perhaps 40,-

ing gobbled up will not make such a very big hole in the crop after all. In he meantime the sampling of the crop of 1880 is going on actively and gen erally satisfactorily-comparatively little damage" being discovered except among the fillers, and even there, not to an unusual extent. Below will be found some reported sales of the crop of 1881 : Eml. L. Hambright, of West Hompfield, has sold 11 acres at 24, 10 and 5 ; G. W. Locher, city, has sold a small patch of a few hundred pounds to Amos Fenstermacher for 50 cents through.

FATAL ACCIDENT.

OBITUARY. adden Death of Lancaster's Oldest Printer, in tue 77th Year of his Age. Frederick Henry Trost, the oldest printer in Lancaster, was found dead in bed at his residence, corner of South Lime and

Church streets, between 6 and 7 o'clock this morning. Mr. Trost worked at his case in the office of the Volksfreund yesterday as usual. He took a walk after supper, returning home before 9 o'clock in the evening, and soon thereafter retired to bed. About midnight his wife noticed that he was breathing very heavily and requested him to turn over in bed, which he did, and nothing further unusual was noticed during the night. When Mrs. Trost got

up after, daybreak she left Mr. Trost apparently sleeping. When breakfast was ready she called him, and receiving no answer repeated the call. This call also being unheeded she went to his room and found him dead. Coroner Mishler being notified empaneled a jury and held an inquest, Dr. Comp-

ton acting as coroner's physician. After examining a few witnesses, through whom the above facts were elicited, and having the testimony of Dr. Comptor, the jury rendered a verdict of death from apo-

Mr. Trost was born on the 9th of February, 1805, at Itzehoe, Schleswig-Holstein. He was apprenticed to the printing trade in 1823, emigrated to America in 1834, and after working in several offices in this and other states finally set-

tled down in Lancaster, and ever since the year 1835 has held a position on the Volksfreud. He was the oldest printer in Lancaster ; a good workman ; a careful and industrious man; a pleasant and intelli-gent companion; a kind and indulgent husband and father, and in all respects an

John Gibson was nominated by the convention to-day.

# THE DROUTH.

# Alarming Reports from Western Penn-sylvania.

PITTSBURGH, Pa., August 30 .-- The weather for the past week has been very warm, the thermometer ranging from ninety to ninety-seven. No rain has fallen for seventeen days, and during the entire month the entire rain fall has not been as much as one inch. From surrounding counties advices say the drouth is proving disastrous to the crops. Everything is drying up, and unless rain comes shortly the effect will be very serious. The rivers are lower than at any time for ten years. The Coal Region Likewise Suffering. PHILADELPHIA, Aug., 30 .- The drouth in the Schuylkill region is seriously restricting the production of coal. The Philadel-phia & Reading coal and iron company is now shipping nearly twice as much coal from Port Richmond as is received there. No conclusion has yet been reached in re-

Rockwell said to a reporter of the associated press this afternoon, that the president's condition to-day has been about the same as it was yesterday. He has fully held his own, but has not gained perceptibly in strength, and no especial importance is attached to the high pulse shown by the noon bulletin. It is attri-buted principally to the irritation caused by the cutting of the parotid swelling this morning. "As long," Col.
