TUESDAY EVENING, OCT. 4, 1881.

### AGRICULTURE.

#### MEETING OF THE AGRICULTURAL AND HORTICULTURAL SOCIETY.

**Crop Reports—Keeping Seed Corn and Apples—Fruit on Exhibition—County Fair.**

A stated meeting of the Lancaster county agricultural and horticultural society was held in their room, in City Hall, yesterday afternoon.

The following members were present: Henry M. Engle, Marietta; Calvin Cooper, Bird-in-Hand; Cyrus Neff, Manor; M. D. Kendig, Cresskill; Daniel Smeych, city; Johnson Miller, Warwick; C. L. Hunsecker, Manheim; Henry Kurtz, Mt. Joy; C. A. Gast, city; W. W. Griest, city; C. A. Greene, city; F. R. Dissen, city; J. J. Frank Landis, East Lancaster; James Wood, Little Britain; W. Greymbill, East Hempfield; John H. Landis, Manor; Levi S. Reist, Manheim; J. M. Johnston, city.

President Witmer being absent Vice President Henry M. Engle was called to the chair.

**County Fairs.**  
Reports from committees being called for, Calvin Cooper reported that he had attended the annual fair at Oxford, Chester county, and that it was a very creditable show, in all its departments. The number of spectators in attendance was 12,000 and the fair was a financial success.

Johnson Miller made a somewhat similar report regarding the Berks county fair. He said it was a very creditable exhibition and had proved a financial success.

**Crop Reports.**  
Crop reports being called for, Henry Kurtz, of Mount Joy, Calvin Cooper, of Bird-in-Hand, Henry M. Engle, of Marietta, D. W. Graybill, of East Hempfield, Dr. Greene, city, Johnson Miller, Warwick, M. D. Kendig, and one or two others responded. The purport of their several reports was to the effect that the long drought had almost destroyed the pasture, that some farmers were already using corn feed for their cattle, that the corn crop in some sections would not yield a half crop, while in others it might reach two-thirds; that the wheat crop had not yielded more than from 7 to 12 bushels per acre; that the late potatoes turned out poorly; that tobacco was mostly rather short, but very clean, was curing nicely and brought high prices, that apples were falling off, that a portion of the new fall wheat had been sowed, that not more than two inches of rain had fallen since September 1st, and in some places not more than eight-tenths of an inch, and that the mercury during the fourteen days of the past month had ranged from 90 to 105 degrees, Fahrenheit, in the shade.

Dr. Greene stated at some length his observations during a recent trip through the northeastern states and Canada, and presented specimens of some white Russian oats that he had found growing in the Genesee valley, which appeared to be far superior to the ordinary oats growing in the same vicinity. It stood in the fields from 45 to 65 inches in height, produced in a dry season from 45 to 75 bushels per acre.

**Keeping Seed Corn.**  
"What is the best method of keeping seed corn?" was the next matter considered. I. Frank Landis, Johnson Miller, M. D. Kendig, Dr. Greene, C. L. Hunsecker and Calvin Cooper all gave their views on the subject, the purport of which were, that the corn should be thoroughly ripe, carefully dried and kept in a dry place at neither too high or too low a temperature. James Wood, of Little Britain, threw a "damper" on the views of the other speakers by saying that a neighbor of his kept his seed corn in a milk cellar, and almost every grain of it germinated!

**Keeping Apples.**  
"What is the best method of keeping apples during the winter and spring?" was the next question discussed.

Calvin Cooper said—pick them as soon as ripe—select the sound ones, wash them in clean barrels—lay them on their sides and keep them away from severe frosts. If intended for spring use, bury them in the ground. For winter use an ordinary cellar will do pretty well.

Dr. Greene stated that they are packed in rice chaff and kept at a low temperature, but Mr. Cooper objected to packing them in any dry substance, as it would absorb a part of their juices and lessen their flavor. He preferred the New York plan of packing them in barrels without anything to protect them, except pressure enough to prevent them from moving about and being bruised.

C. L. Hunsecker advocated close packing, and Mr. Engle referred to the success of the California packers who sent their fruit East in barrels, packed with charred bran.

**Fruits Exhibited.**  
Dr. Greene laid before the society, in addition to the Russian oats mentioned above, specimens of double apples of no great value, of which he saw one hundred and fifty on a single tree.

A basket of grapes "for a name" were presented by G. W. Shroyer. The committee did not know what to call them, they appeared to be something like the Isabella, but of a different color.

D. W. Graybill presented specimens of red plum from Kansas. They were very like our native red plum.

Some very fine large chestnuts were shown by Henry M. Engle. They were from a native tree grafted on a Spanish stock.

Specimens of persimmon from Wisconsin, from a graft from Samuel Miller, of Bluffton, were presented by Levi S. Reist. They were large and highly flavored.

The chair appointed Johnson Miller, Cyrus Neff and M. D. Kendig as committee to attend the annual fair of York county on the 11th inst., and John H. Landis, Calvin Cooper and Levi S. Reist to attend the Lebanon county fair on the 29th inst., with power to appoint substitutes if any of them cannot attend.

**Poultry Affairs.**  
Meeting of the Local Society—Talk and Action Valuable to the Raising Fair.

At the regular meeting of the Lancaster county Poultry and Pet Game association in the Agricultural Society's room on Monday morning, there were present H. H. Tabudy, president; Litzitz; W. L. Hershey, Chickies; W. A. Shoenberger, city; Chas. Lippold, city; John A. Schum, city; C. H. Gast, city; J. B. Lichty, city; T. Frank Evans, Litzitz; J. W. Brundage, Litzitz; W. W. Griest, city; J. M. Johnston, city; A. S. Flower, Mount Joy; J. W. Brackbill, Strasburg; J. B. Garman, Leacock; Chas. H. Long, city; Harrison T. Shultz, city; S. P. Eby, city.

After a good deal of talk regarding the details of the next annual fair, it was decided to secure the services of the judges

who acted for the society last year, and to add to their number Mr. Diehl.

After a rambling discussion, during which it was stated that a good deal of dissatisfaction had been expressed by some exhibitors at the last annual fair because their birds had not been scored, F. R. Dissen deferred moved that the rule requiring all birds to be scored be rescinded. The motion was agreed to.

A motion was made by Secretary Lichty that the judges be directed to score all birds they had time to score from Thursday to Saturday inclusive, during the fair.

On Mr. Chas. E. Long's motion it was amended by directing that all premium birds be scored and as many more as the judges should have time to score.

J. M. Johnston suggested that exhibitors of birds not scored by the judges, be entitled to have them scored on payment of twenty-five cents, the funds thus secured to go into the society treasury.

A. W. Schuchart thought it would be better to provide that all exhibitors who pay 25 cents extra for each exhibit at the time they make their entries, be entitled to have their birds scored whether they do or do not take premiums. He made a motion to that effect which was carried.

It was agreed that special premiums, as heretofore, shall be printed on the premium list, and that the executive committee shall make such arrangements as they deem necessary for the offering of combination prizes.

H. L. Shultz, of Elizabethtown, was elected a member of the society.

**STARVED HERSELF.**  
**A VERY PECULIAR CASE.**

**News From Around Landisville.**  
A peculiar kind of mental alienation afflicted a daughter of Mr. Christian Noit, of West Hempfield township, not far from Landisville this county, which resulted in her death last Friday noon, in her 23d year.

In the early spring of this year she expressed a desire to abstain from eating food. She was prevailed upon by her friends who resorted to every means they could devise at times they were successful, but at no time would she partake of food or drink with any regularity. For intervals of a week she ate and drank nothing. An intimate lady friend of the family whom the young lady thought much of called there frequently, could not much with her and often induced her to eat. Medical aid was procured, but the poor sufferer refused to be benefited. During the last eleven days of her life she took nothing and turned a deaf ear to the one who had often administered to her wants. Thus in a home surrounded by plenty, with loving hands to attend her, she allowed death to end her miserable existence. Her funeral took place on Monday and she was laid to rest in the cemetery near Springdale.

Mr. Reuben Bowman, of East Hempfield, near Landisville, sold this year's crop of tobacco—55 acres—at 25 cents round. His crop of last year was cut by hail.

The schools of this township are well attended. There is considerable outdoor work to do yet, nevertheless many of the parents, awake to their best interests, sent their boys to school at the commencement.

Samuel Clair, of Mount Joy, was grammar school at Middletown, Dauphin county, Mr. Nissley, of Landisville, having resigned.

The rain of last week came in time to put the corn in good condition for cutting. Corn cutting and husking will go better, too.

There is an abundance of tramps about here. Farmers complain about them and it would be well to enforce the tramp law.

Miss Kate Swartley, who was sick of malaria, opened her school at Landisville on the 26th ult.

Both school buildings of this village are draped in mourning.

There is some talk of starting the literary society next Friday evening. There is lots of talent spoiling for the want of an opportunity to "spout."

**Dumore Items.**  
**The News From Around Fairfield.**

Last Saturday about one hundred friends and neighbors gave Levi Willour and wife, an old couple living about one and a half miles east of Fairfield, a very pleasant donation surprise. Mr. and Mrs. Willour are in rather indigent circumstances, and on account of the failure of his health, Mr. Willour is no longer able to do his usual work, and the present provisions, clothing and fuel taken them by their open hearted friends must have been highly acceptable, and the free-will and good grace with which the donations were made certainly illustrated that it is as much a pleasure to give, where your heart is in it as it is to receive.

The ladies of the party had come fully prepared to keep the male portion of the company in a good humor, by giving them a good surprise—it was to have been a lunch, but these old rough farmers always make a meal of everything. After the past, Mr. William Dunlap, a Scotchman, whose birthplace was right where a Sett should be most proud to have been born, where that other Scot who sang as he went along of the tyrant and the Afton and the cottage home, was born—sang a number of songs, Scotch and English, that were highly appreciated, and praised by his audience. Levi K. Brown made a few remarks appropriate to the occasion, and, on behalf of the recipients of the favors, thanked the company for its generosity and kindness. Will. F. McSparran read a selection and recited one, and all agreed that it was a most enjoyable occasion, as it certainly was a most commendable one.

Miss Sallie Brannell, the young and gifted elocutionist, of Philadelphia, is visiting her aunt, Mrs. Dorsey, in Fairfield. Clover seed is being threshed and it is making scarcely more than a peck to the acre, none as high as a bush.

James Amment, of Peach Bottom, sold 41 acres of tobacco to Kreider for 22 through, Robert McPherson sold to John McLaughlin for 25, 15, 8 and 3; William Smith sold to same for 25, 8 and 3; through, for six acres from his farm at Puseyville.

**Notable News**  
There was perhaps never a more extraordinary suicide than that of a police agent in the Prussian village of Hohemolzen, who a few weeks ago drove a three-wheeled nail into his forehead with a certain rod. The surgeons had difficulty with the exertion of their whole strength, in getting the nail out.

A young girl, 16 years old, while resting in a Sabbath-school class in Bristol, R. I., on Sunday September 25th, was suddenly deprived of the power of speech, and has been unable to speak since. Her bodily health is good, and no explanation of her affliction has been given.

In response to a communication signed by several hundred leading citizens the district commissioners have issued a call inviting the citizens of the District of Columbia to meet in Lincoln hall next Wednesday.

nearly to consider the subject of establishing a "Garfield Memorial Hospital" in this city.

**The Ohio Canvass.**  
**The Last Week to be a Lively One by the Democrats.**

The Ohio Democratic state executive committee are digging upon all the county committees of the state to use special care in printing their tickets. They require that they shall be printed on plain white paper not more than two and three-eighths inches wide. Especial care should be taken to comply with the law in this respect; and as to the space to be left between the names the law should be carefully complied with, because if the vote should happen to be any way close on the state ticket the Republicans will not scruple to take advantage of all technicalities and throw out all the Democratic votes they can.

Senator Thurman and wife have sailed from Liverpool and will arrive in New York about Friday and reach home in time to vote.

The Democrats are perfecting one of the most thorough and complete organizations they have had in Ohio since the Tilden campaign. The still hunt will go on by day and night from this on until the polls open. The Republican managers do not feel encouraged over the outlook. The meetings they have been trying to hold since the president's funeral have been flat failures, and the indications are that the people are not in a mood to listen to stump oratory.

There is considerable comment over Sherman's refusal to take any further part in the campaign. Efforts are being made to induce him to rehearse his Wooster speech next week.

The stories being sent out that the Democratic campaign committee is giving money to support the temperance movement is correct in every particular save the truth. The Democratic committee have no money to spend on side-shows, and it keeps them busy scraping enough to get together to pay postage stamps. The work of the Democratic committee will be practically finished and the clerks will be discharged.

The most encouraging reports continue to come up to Democratic headquarters from all sections of the state. The poll that has been reported so far shows a falling off of 20 per cent. in the Republican vote and 7 per cent. with the Democratic vote. In 1877, when Governor Bishop was elected by 22,000 the Republican vote fell off 24 per cent. from the presidential vote the year before.

**Ensilage.**  
Mr. Mills, the apostle of ensilage, or the preservation of crops in a green state for fodder, the possibilities of which he is illustrating at Arrabecle farm, Pompton, N. J., lays down the following conditions as essential to success: Air must be perfectly excluded from the pit or silo by a uniform and continuous pressure of about 250 pounds to the square foot; the crop should have flowered before being cut, and the knives should be sharp enough not to tear the saccharine sacks. Last year Mr. Mills fed for seven months 140 animals, cows and horses, from ten acres of corn fodder. The past summer he fed for six weeks 100 cattle, mostly milk cows, from five acres of oats sown in the spring, and he believes that during the coming winter and until his corn crop of 1882 is ready he can, in spite of an inferior yield occasioned by the drought, keep 125 cattle on the corn fodder cut from twenty-five acres. Mr. Mills states that one ton of grass preserved green in a silo possesses as great feeding capacity as twenty tons of the best hay. These are startling figures, but if anyone feels disposed to doubt them Mr. Mills will gladly furnish the proof, and triumphantly point to his sleek and happy cows, whose rich milk brings one cent a quart more than the usual price.

In this matter an irritable climate holds the rule rather than the exception. Dr. Bull's Cough Syrup is just the remedy for every one to take when suffering from a Cough, Cold or any throat trouble.

**How to Get Sick.**  
Expose yourself day and night to too much wind and cold; work too hard without rest; eat too much; take all the vile nostrums advertised; and then you will want to know

**How to Get Well.**  
Which is answered in three words—Take Hop Bitters! See other column.

**A Short Road to Health.**  
To all who are suffering from biliousness, indigestion, constipation, or other ailments, of the blood and skin, a course of Burdock Blood Bitters will be found to be a short road to health. For sale at H. B. Cochran's drug store, 137 North Queen Street, Lancaster.

**Balm in a Pinch.**  
There is a balm in Oil that heal each gaping wound! In Thomas' Electric Oil, the remedy is found. For internal and for outward use, you freely may apply it. For all pain and inflammation, you should not fail to use it. It only costs a trifle, 'tis worth its weight in gold. And by every dealer in the land this remedy is sold. For sale at H. B. Cochran's drug store, 137 North Queen Street, Lancaster.

## CLOTHING, &c.

THE BUSINESS OF SELLING CLOTHING AT

**OAK HALL**  
Has grown to its present greatness because these points are faithfully observed:

**IN MAKING.**  
**IN SELLING.**  
To Get the Best Material. To Get the Cash.  
To Sponge it Properly. To Have One Price.  
To Cut it Fashionably. To Pay Back Money if Unsatisfied.  
To Sew it Thoroughly. To Guarantee the Goods.

The Stock of MEN'S CLOTHING is always kept very full in assortment, even to the end of the season. In BOYS' CLOTHING the Styles and Trimmings are not approached by any Clothing House in the Country. A cordial welcome is ready for all who come, and we expect to sell only when people are satisfied in every respect.
