When sea and sky waged war, and snow and Fought flerce for mastery o'er minds so fleet What cared I then how bad the weather !

One thought had I-we were together, And now the June is smiling-With every grace beguiling, The breeze pays court to daisies in the grass In tune are sea and sky. But I, alas! What care I now how fair the weather ! One thought have I-we're not together. -Margery Deane.

TRUE LOVE.

- There is true love and yet you may Have lingering doubts about it; I'll tell the truth and simply say That life's a blank without it.
- There is a love both true and strong, A love that falters never. It lives on faith and suffers wrong,
- But lives and loves forever. Such love is found but once on earth-The heart cannot repel it,
- The tongue can Lever tell it. This love is mine, in spite of all, This love I fondly cherish;

From whence it comes or why its birth.

- The earth may sink the skies may fall This love will never perish.
- It is a love that cannot die, But, like the soul, immortal And with it cleaves the starry sky
- And passes through the portal, This is the love that comes to stay-All other loves are fleeting; And when they come just turn away-

It is but Cupid cheating. -Alice Careg, hitherto unpublished.

Pocklington Grape. Lancaster Farmer.

This is a new vitisanian candidate for public favor, and is perhaps nearly, or quite, a stranger in Lancaster county. We notice it specially on this occasion, not only because we have seen and have eaten of the fruit, and therefore know whereof we are writing, but also because a pre-mium of \$100 in gold is offered for the best sample of it, to be exhibited at the Massachusetts Horticultural society's meeting, to be held in Boston, in the Autumn of 1883; and we desire some lively fruit-grower of Lancaster county, to carry off that premium. The venerable Marshall P. Wilder says: "Thanks, many thanks for the fine basket of Pocklington grapes, which are giving our family such a luscious feast. It is a remarkable variety, so rich and sweet, and withal so hardy and vigorous, as it proves in your

cold location.' We have a tine cluster of this grape now before us (about six inches in length and the same in circumference), and we are writing (October 7) under the inspiration engendered by its taste and fragrance and, so far as the fruit is concerned, we can fully corroborate what Mr. Wilder says, although the corroboration of our testimony by such a distinguished authority as he is, would be in much better taste. It has been awarded the first premiums at the Western New York fair in miums at the Western New York fair in this Medicated Plaster, which, when applied 1878, the Toronto, Ottawa and New York to the body produces a constant but mild cur expositions in 1879, the Geneva, New York | rent of Electricity, which is most exhibitanting and Toronto exhibitions in 1880, besides many county fairs. It belongs to the green or white varieties, but when fully ripe the berries are yellowish green or a dull amber color. Choice clusters attain over seven inches in length, eight or nine rent of Electricity, which is most exhibitating. It is a positive and speedy cure for the following complaints, viz:

Rheumatism, Neuralgia, Sick Headache, Brain, Spinal Complaints, Kidney and Liver Complaints, Sciattca, Paraysis, Asthma and Lung Diseases, Diseases of the Heart, Nervous Prostrations, &c.

over seven inches in length, eight or nine inches in circumference, and the larger berries near one inch in diameter. It is sweet and luscious, as above testified to, approximating to the Martha in texture and flavor, only, we think, more pro-nounced. But, will it bear the climate of Lancaster county? As to that matter, there is every reason to believe it will. It is raised and for sale by George A. Stoner, nurseryman, at Rochester, N. Y., and is claimed to be "the best and largest new, hardy, out-door white grape, that is known." We believe that Mr. Stoner enjoys the monopoly of this grape for the autumn of 1881 and the spring of 1882. Our cluster has not the symmetrical form it had when we began this paragraph; we could not resist the temptation, and therefore it now looks as if it had been depredated upon by cat birds. Mr. Wm. Poole, an aforetime citizen of Lancaster city, has the agency of the standard of the stan citizen of Lancaster city, has the agency for its sale in this and other localities in

Mr. Brackett stated last February, at Boston horticultural meeting, that he had a hundred pots of tomatoes, the seed of which was sown in July, and he gathered fruit in December. Some of the pots were set in the ground and the plants rooted down into it, and these continued to bear best, but did not give so handsome fruit \$500 REWARD. as those in pots on the greenhouse shelf. The indoor plants being much shaded, ran up and touched the glass, and the tips were thus frozen on cold nights, which benefited them like shortening-in. They did as well in six-inch pots as in nine-inch. Those which were watered with liquid manure failed first.

The New Potatoes.

The Gardeners' Chronicle, in speaking of the excellent quality of several of the newer potatoes when raised in England, particularly the Early Rose, Snowflake, Beauty of Hebron and Climax, say that the Matchless is identical with Holborn Favorite, Magnum Bonum with Wormleighton, and Pride of America is Snowflake, or does not differ from it. How many other of the new varieties are older sorts renamed is worthy of inquiry, and it is not improbable that some of them have been produced from seed without any perceptible variation from the parent sort.

Can't Preach Good.

No man can do a good job of work, preach a good sermon, try a law suit well, doctor a patient, or write a good article when he teels miserable and dull, with sluggish brain and unsteady nerves, and none should make the attempt in such a condition when it can be so casily and cheaply removed by a little Hor Bitters. Visible Improvement. Mr. Noah Bates, Elmira, N. Y., writes About four years ago I had an attack of bilious lever, and never fully recovered. My di-gestive organs were weakened, and I would be completely prostrated for days. After using two bottles of your Burdock Blood Bitters the improvement was so visible that I was astonished. DRESS GOODS.

A cheviot dress-cloth, really of a fine check with an irregular illumniation and a very obscure plaid; but, looked at a yard away, it appears to be a basket. It is therefore a basket-effect produced by color; if we mistake not, an entirely new and interesting piece of color-work. 42 inches wide; \$1.10.4

Another cheviot of the very same small checks, but without the basket effect, simpler, plainer, and when closely looked at probably prettier, though it is hardly fair to say that, \$1.20.

UNDERWEAE.
Two extremes of the French hand-made underwear, lately come to us, attract notice. Some of it is so plain that it seems scarcely to belong to the class of embroidered work—it reminds one rather of the hand-work we used to make families here twenty-five years ago. The other extreme is the richest of embroidery. It needs to be seen. Nobody'll believe from description the work that is in it; the fineness, the richness, the extravagance. We show it with pleasure.

At the same time see what the sewing machine has done for us, in our American factory made underwear. Each has a pericetion of its own. Factory-work, made as we get it, is a new grade of sewing.

NEW LINEN HANDKERCHIEFS WITH colored borders have come; but, so far as we have seen yet, there's nothing notably new in styles. They are almost all mechanical figures of the general character that has prevailed for some months.

Two new initial handkerchiefs: one embroidered in colors, 12% cents; one with very large, white, block or diamond initials formed by a hemstitch stitch, 25 cents. The latter is emstitch stitch, 25 cents. The latter is ery neat indeed. JOHN WANAMAKER. Outer circle, Chestnut street entrance.
