SEED LEAF AND HAVANA. For the Week Ending Saturday, October 29, U.S. Tobacco Journal.

The week was a quiet one; small parcels

only changed hands, and it seemed as if only immediate necessity brought purchasers into the market. The opinion of the trade is that the booms of the year 1881 are over, and that not before January next a revival of the recent great activity is to be depended on. Manufacturers assert there is a decided falling off in orders during the last week, and the expected dull season seems to be at hand at last. There is no cause, though, for anybody to expect a downward course of prices of leaf. The rush of business among cigar manufacturers during the past six months at least has been of such enormous proportions that it stands to reason that the stocks of leaf with them must be small. and that with the advent of new orders they will have to come into the market and probably pay still higher prices. Nevertheless, holders will do well not to insist upon too much; Sumatra is arriving in this port daily in larger quantities, and apparently this commodity has taken a firm footing in our manufacturing circles. We spoke on this subject recently, and pointed out the danger that threatens the cultivation of leaf in this country.

The only limit to prices of seed leaf wrappers in this country is the importation of Sumatra or similar foreign tobacco. The greater the persistency with which growers of tobacco try to obtain prices often far above real value, the more impe tus is imparted to the importation of foreign tobaccos.

The sales of the week are as follows: Connecticut — Crop '80: 600 cases; Housatonic running 21 to 25 cents; wrappers as high as 40 cents.

Pennsylvania—Crop'80: 700 cases; fine running, 23 cents; medium, 18 cents; wrapper, 37 to 40 cents; fillers, 7½ New York State-Crop '80: 300 cases

running 12 to 19 cents. Ohio-Crop '80: 250 cases, mostly fillers; 4 to 10} cents. Havana continues active; sales 700 bales; mostly '80; a good many transac-

tions in '81 by samples are reported on private terms; the '81 is spoken as being a most excellent tobaccc. Pecultar Business

Tobacco Journal, The suit of Dr. Herzog, the well-known analytical chemist of Hoboken, N. J. against P. Lorillard & Co., the New Jersey tobacco manufacturers, for the recovery of \$30,000, and which has been in the courts for over a year, was on the calendar of the Jersey City court last week, but was again pestponed till December, either that the defendants were not ready or for some other equally important reason. The

affair which caused the suit is a most interesting one and if the allegations of the complaint are true, they place the Lorillards in a peculiar situation. From the affidavits in the case it appears that some time last year some one was most anxious to imitate the world renowned the services of Dr. Herzog were secured for the analytical search of the properties in the Blackwell tobacco. A Mr. Mason, who is the superintending chemist of the Lorillard factory, then placed the doctor in the laboratory of the factory and before him he had to make all the necessary experiments and trials, till after some time of hard labor the desired secret was fathomed, much to the joy of Mr. Mason and immense satisfaction of a Mr Seidler, the managing factor of the firm. When the successful doctor asked for remuneration for his services, he alleges Mr. Mason promised to pay him \$5,000 in a day or two and the balance in installments, but he was constantly put off till "to-morrow and to morrow," and from to-morrow to the next day and so forth, till his analytic eye discovered a strange coldness and reserve on the part of the above-named personages and he concluded to get into court and compel them to hand over their check for \$30,000. The sum is not alone to pay for the discovery of the ingredients of the Durham tobacco, but also for a receipt for flavoring tobacco in general given to the Loril lards, and of which the doctor claims to be the sole inventor. On the other side it was alleged that the discoveries of Dr. Herzog were such as had been known to the learned Mr. Mason a long time and that the plaintiff communicated neither to him nor Mr. Seidler, who also is learned and philanthropic on general principle, nothing which any common-place chemis laying around loose could not have told them before even taking up a bag of Blackwell's Durham tobacco, and that, therefore, the demands of Dr. Herzog were absolutely preposterous, deserving a severe disapprobation from the judge and jury, but not a cent in money. That Old Store.

"The old corner," "the old reliable." "the good old place"-All right, friends, call it what you please. We confess to some pride in being "old" in some respects.

It was a pretty dark day, 21 years ago, when we christened "OAK HALL," and stood up to answer to the name. 21 years is long enough for a baby to grow to manhood, and for a small undertaking to grow into a great enterprise. 21 years ago we were our own buyer, bookkeeper, porter and watchman; and stuck to it until others came along to help, some of whom have been with us ever since.

To day the needed helpers are numbered by thousands, and our customers are almost beyond number and everywhere.

Our store 21 years ago was "only that cubby-hole at the corner," hardly large enough to turn around in. Now you know what it is.

Truly we have grown old-and "settled." We havn't any disposition to change from fixed prices, nor from fixed principles, the chief of which is guarding the interests of our customers.

We keep to our plain old-fashioned Oak Hall buildings. They are like old-fashioned silver, well-worn, but still solid and good, better than some

We hold fast also to our old methods of serving our customers, viz: with the largest assortments to select from, the very best for the money, a guarantee with every purchase, viz: the privilege of bringing back goods and taking the money again if they want to.

The only new thing about the Oak Hall premises strained and overcrowded by the ever-increasing business, is the new stock for the winter of 1881. We sold out almost to bare boards last winter. Nearly everything is this season's cut and fashioning. New materials have been used, and new patterns to cut them by.

Please accept this old-fashioned, hearty invitation to look in upon us and thus find out if our old age and experience hasn't served us well in producing this stock.
