For two nights and a day a horse has been standing in front of Hummel's store on Front street, and during that time no care whatever has been paid him. This morning Officer Rodenhauser received a parmit from Chief Burgess Sneath, to secure the animal and have him attended to, and unless the owner, who is most all the time half drunk, promises to take better care of him he will not be returned.

The telegraph operators at this place, who are connected with the Pennsylvania railroad, had quite a disturbance among themselves vesterday. It appears that the regular operator at the east yard "stopped off," and an extra hand applied for the place, but he was a little behind hand, as the operator at Rounks, who lives here and had come home to spend his birthday with his parents, had first applied for the place. The Rounk's place was also filled, and so the extra hand, who is a favorite here, now has no work to do.

Mr. James Finney, a carpenter employed in the Shawnee furnace, while working at the new stack house, had a narrow es cape yesterday afternoon. He was standing on the second-story scaffold, unloosing boards, when the board suddenly loosened and spring to one side, striking Finney and kancking him to the ground, a dis tance of sixteen feet, but by great presence of mind he landed fairly upon his feet, spraining his left one and twist-ing the other. He was taken home in a carriage and a doctor sent for. The report that his back was broken is untrue.

A very small audience appeared in the opera house last evening to witness the performance of Prof. Miller on "Spiritualism." That the tricks were excellent we do not deny, but they advertised that no cabinet would be used, when they had a very large one on the stage, and behind this most of the tricks were performed, although several surprising ones were done in open light. We believe they intend appearing in Lancaster some time

THE PREACHERS, PHYSICIANS AND MAGISTRATES.

Must l'eport Births, Marriages and Deaths, or Pay the Penalty. We are requested by the Board of health to call the attention of those physicians, clergymen and magistrates, who have not yet made their report for the quarter end. ing October 1st, that they are rendering themselves liable to the penalty inflicted for the non-performance of the duties required of them under the act of assembly relating to registration of marriages and births. The whole number of physi cians, clergymen and magistrates who have registered with the secretary of the Board of health according to law, is 92, of which number 51 have reported for the past quarter. This leaves a balance of 41 gentlemen who have failed to comply with the provisions of the law, and it is to them that this item is particularly directed. The law allows them ten days grace after the first of October, and now more than a month has elapsed. The Board of health is of the opinion that they have been given sufficient time, and desires to give notice if these reports are not handed in at once, that the delinquents will be required to

forfeit and pay the penalty.

The necessary blanks for making the reports can be obtained on application to the Board of health.

THE STAR ROUTE CASES.

Argument for the Detense Began To-day.

WASHINGTON, Nov. 3.-Argument the motion to set aside the criminal info mation in the star route cases was begun this morning in the supreme court of the District. The government was represented by District Attorney Corkhill and by Messrs. Brewster, of Philadelphia, Bliss, of New York, and Cook, of Washington; and the defense by Messrs. Totten, Wilson, Shellabarger, Robert G. Ingersoll. Sypher, ex-representative from Louisiana, and Jefferson Chandler, of St. Louis. Argument was opened by J. Wilson. He said there could be no authority found in any statute for filing a criminal infor-mation. The ignoring of a grand jury had always been regarded as an extrayears of national life in this country there had not been a single instance of an attempt to resort to that proin the prosecution a great crime. At common law the attorney general representing the crown, might file an information in the court of King's Bench at his own discretion, on his own responsibility. No oath was necessary for such an information and no witness; no one would pretend that such a proceeding as that could prevail in this country. The fourth article of the amendment of constitution had made tlat impossible.

The district attorney objected. The court said he would examine the statutes, but he thought counsel for the defense should have access to the papers. An application was also made for further postponement of trial, which the

court said it would consider. Mr. Robinson also said he had been misrepresented in the papers as saying that he agreed with Scoville on the question of jurisdiction. He had simply stated that he was not to be considered as committed on a question which he had not examined. He did not consider himself precluded by anything said by Sco ville at any time on any branch of the defense from availing himself at the time HATS of the trial of any defense that might HATS seem to him proper, and that it might be

This now much abused Alepholic Stimulant was never intended as a beverage, but to be used as a medicine of great potency in the cure of some of the destructive discuses which sweep away their annual thousands of victims, With a purely philanthropic motive we pre-sent to the favorable notice of invalids—espe-cially those afflicted with that nuserable dis-

Reigart's Old Brandy, In his case, he looked up with astonishment, but after hearing of its wonderth effects in the cases of some of his near acquaintances, is at last consented to follow our advice. It used the Brandy faithfully and steadily; the first bottle giving him an appetite, and before the second was taken he was a sound man, with a stomach capable of digesting anything which he chose to cat. He still keeps it and uses a lit-tle occasionally; and since he has this medi-cine he has been of very little pecuniary bene-fit to the doctor.—A Practising Physician.

The following statement of William J Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our read ers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half collar. I expended over a hundred dollars in doctors and medcine. I was so far gone at one time a report wen: around that I was dead. I gave up hope. but a friend told me of Dr. WM. HALL'S BALSAM POR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise

He is a Methodist, and then, as now preached at times, and in his discourses offen declaimed carnestly against all kinds of strong drink. When advised to try
