APD FOR SAILORS.

Those Who Go Down to the Sea in Ships. Philadelphia Record.

During the year 1880 there were 8,465 foreign and coastwise arrivals at this port. of which 1,602 were foreign vessels. At a rough estimate fully 20,000 sailors of various nationalities sojourn temporarily in this city in the course of a single year. While on shore they are exposed to peculiar temptations, and the influences to which they are subjected are unusually of of a demoralizing character. Forty-seven years ago an effort was made by a band of philanthropic Philadelphia ladies to minister to the temporal and spiritual welfare of this neglected class, and the 'Female Seamen's Friend society" has ever since been doing a helpful work for them. The annual report of this asso ciation and of its auxiliary, known as the "Pennsylvania Scamen's Friend society," exhibits a very satisfactory and highly creditable record of humane and successful labor. The Bof Orator,

Ralph Bingham, the boy orator, from Richmond, Va. appeared at St. Paul's M. E. church last evening, quite a large audience being assembled to greet him. He does not appear to be more than ten years old, but possesses many of the accomplishments of the mature elocationist. He has a good voice, easy and graceful carriage and expressive, mobile features, and declaims accurately and without hesitation. Among his declamations last evening were, "the old man in the model modern church;" "the new organ;" "the Broadwry police;" John Adams's liberty and union" speech" and some others, all of which were well rendered, the boy being dressed in costume suited to the several personations. To add to the entertainment the choir of St. Paul's sing several selections.

The Herald made its appearance yester day, full of interesting reading matter, and the local page had a new "dress." The type used is new minion, and is very clear and fine. The committee of the Schock library are using all their efforts to have more sub scribers. If they succeed new books will be purchased. As it now stands it is one of the most complete and handsome libraries to be found in Lancaster county. That it is not appreciated is visible by the few subscribers. If our older as well as younger class of citizens would give up reading "trashy" papers, such as the Boys of New York, etc., and subscribe for books at the library it would not only be a benefit to them, but be much cheaper. You can get four books a week out of the hbrary, making 208 books a year, for \$2 per annum. The papers cost five cents a piece, one a week, making \$2.60 a year and only fifty-two papers. The books are instruc-tive and by the best authors. The above statement shows the advantage gained by taking books from the library. Now, citizens of Columbia, if you are foud of Hon. John T.
