KAHLER SNYDER'S LITTLE GAME.

HEARING OF THE DERELICT DOCTORS A "Sympathetic" Doctor Pays Sayder

mething Less than \$100. Before Alderman Benj. F. Rowe, No. 236 North Charlotte street, and Prosecutor J. Kahler Snyder, appeared to-day some of of the persons arrested upon Snyder's complaint, for having committed the misde meaner of practicing medicine without having their names and diplomas or statements in Prothonotary McMellen's books. The case against "Dr." B. M. Frick of Willow Street was dismissed upon his oath that he did not practice medicine. "County for costs."

"Dr." Henry Hess, of Marticville, who declares that he always goes to a doctor himself when he wants medicine and that he don't practice, and who is said to "pow wow." asked for "time" and was given

"Dr." Joseph F. Herr, of Willow Street, an old man and nearly blind, who is a "sympathetic" doctor and practices only by "pow wow" or laying on of hands appeared with a friend. They had a control of the friend. They had a control of the friend of the fri sultation in the side room with the prosecutor and he agreed to "settle it," and the alderman so marked the case and disposed of it. The defendant paid Snyder something less than \$100.

District Attorney Davis says that it is a misdemeanor ; defendants can pay Snyder to let up if they see fit.

So they can. If they will.

THE NEW CITY BOILERS. A Needed Improvement Successfully Com-

pleted. As stated in the INTELLIGENCER of Saturday, the work of connecting the new nest of boilers at the city water works with the big Worthington pumping apparatus was begun on Saturday morning and was successfully completed by 7 o'clock Sunday morning. The new boilers were at once filled with cold water, fires were ht under them, and in one hour and ten minutes there was sufficient steam generated to run the pumping engine. The steam was raised to 80 pounds pressure (the maximum used in the old boilers) and everything was found to work admirably. Connected with the safety-valve of the new boilers is an ingenious automatic arrangement which opens the dampers of the furnaces whenever steam blows off damper as soon as the safety-valve closes, thus regulating the heat of the furnaces and keeping the steam at a uniform pressure. The safety-valve can be adjusted to blow off steam at any pressure desired between 40 and 100.

A great many people, including engineers and machinists visited the works yesterday, and highly commended the work done by Mr. Best, Superintendent Kitch and their corps of mechanics.

During the time the big Worthington pump was stopped the city reservoirs lost only fourteen inches of water, the little Worthington pump, having been connected with the old boilers and furnished a partial sapply of water while the work was going on.

The new boilers, four in number, were in all. They will furnish ample steam to drive a 5,000,000 pump, which in the near tuon. EL ply the city with water.

At that gathering American dentistry was recognized, as it is everywhere, as being the most advanced in the world. Our dentists are the best, and their appliances and inventions are acceptsaries to the practice of dentistry and dental surgery.

DEIGART'S OLD WINE STORE.

Brandy as a Medicine.

The following article was voluntarily sent to Mr. H. E. Slaymaker, Agent for Reigart's Old Wine Store, by a prominent practising physician ot this county, who has extensively used the Brandy referred to in his regular practice, It is commended to the attention of those a's flicted with

Indigestion and Dyspepsia. BRANDY AS A MEDICINE. BRANDY AS A MEDICINE.

This now much abused Alcoholic Stimulant was never intended as a beverage, but to be used as a medicine of great potency in the cure of some of the destructive diseases which sweep away their annual thousands of victims. With a purely philanthropic motive we present to the favorable notice of invalids—especially those afflicted with that miserable disease Dysnepsis, a specific remarks which is ease Dyspepsia, a specific remedy, which is nothing more or less than

Brandy.

The aged, with feeble appetite and more or less debility, will find this simple medicine, when used properly, A Sovereign Remedy

or all their ills and aches. He it, however strictly understood that we prescribe and use but one article, and that is REIGART'S OLD BRANDY,

Sold by our enterprising young triend, if E SLAYMAKER. This Brandy has stood the test for years, and has never failed, as he as our experience extends, and we therefore give it the preference over all other Brandles, no matter with how many jaw-breaking Frenchtilles they are brundled. One-fourth of the money that is yearly thrown away on various impotent dyspepsia specifies would suffice to buy all the Brandy to cure any such case of ases. In proof of the curative powers of Reigart's Old Brandy,

In cases of Dyspepsia, we can summon numbers of witnesses—one case in particular we

A hard-working farmer had been addeted with an exhaustive Dyspepsia for a number of years; his stomach would reject almost every kind of food; he had sour cructations constantly—no appetite—in fact, he was obliged to restrict his diet to crackers and stale bread, and as a beverage he used McGrann's Root Beer. He is a Methodist, and then, as now preached at times, and in his discourses often declaimed carnestly against all kinds of strong drink. When advised to try

Reigart's Old Braudy,

In his case, he looked up with astonishment

but after hearing of its womierful effects in the cases of some of his nerr acquaintances, at at last consented to follow our advice. He used the Brandy mithfully and steadily; the used the Brandy mithfully and steadily; the first bottle giving him an appetite, and before the second was taken he was a sound man, with a stomach capable of digesting anything which hecknose to eat. He still keeps it and uses a lit-tle occasionally; and since he has this medi-cine he has been of very little pecuniary bene-fit to the doctor,—A Practising Physician.
