Next Week's She

A List of Excelient Attractions Booked. Next week will be a big one for shows, all of which are very good. On Monday Will Grover, who has the pantomim company formerly managed by Jay Rial, will appear. This is a show at low prices with good attractions, a feature of the attraction is the band. On Tuesday evening A. C. Gunter's well known play of "Two Nights in Rome," which was so success fully given here last year ; Miss Jeffreys-Lewis, a gifted young actress, long leading Lewis, a gifted young actress, long leading lady at the Union Square theatre, New York (not Wallacks, as a slip of the pen caused us to state yesterday), will access in the leading mart. On appear in the leading part. On will Wednesday evening we are to have the piece entitled "The Professor," by W. H. Gillette, and the company which played the piece so long at the Madison played the piece so long at the Madison Square theatre. The printing used by this party is very handsome and a great deal of it is used. They are liberal advertisers party is very handsome and a great deal of it is used. They are liberal advertisers and believe in printer's ink. On Friday night H.B. Mahn's opera company will sing Boecaccio" here. This troupe was to have appeared here early in the season, but cancelled on account of Garfield's death. They will now appear for certain having made arrangements to do so with Manager Mishler. To fulfil all engage-ments next week they will be obliged to run a special train from Buffalo to Wilkesbarre, and one from Wilkesbarre to Pottsville.

## "My Tormented Back,"

"My Tormented Back," is the exclamation of more than one poor hard-working man and woman. Do you know why it aches? It is because your kidneys are over-tasked and need strengthening, and your system needs to be cleansed of bad humors. Kidney-Wort is the medicine you need. "It acts like a charm," says a well known physi-cian, "I never knew it to fall." Liquid or dry sold by druggists.—Boston Post. n25-1wd&w

This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is sim-ply and purely OZONE, as produced and applied by an entirely new process. OZONE is the antiseptic principle of every substance, and possesses the power to preserve animal and vegetable structures from decay,

THERE IS NOTHING ON THE FACE OF THE EARTH LIABLE TO DECAY OR SPOIL WHICH OZONE, THE NEW PRESERVATIVE, WILL NOT PRE-SERVE FOR ALL TIME IN A PERFECTLY FRESH AND PALATABLE CONDITION.

he value of OZONE as a natural preserver has been known to our abler chemists for years, but until now no means of producing it in a practical, inexpensive and simple manner have been discovered.

have been discovered. roscopic observations prove that decay is due to septic matter, or minute germs that de-velop and teed upon animal and vegetable structures. OZONE, applied by the PREN-TISS METHOD. solves and des.roys these germs at once, and thus preserves. At our offices in Cincinnati can be seen almost every article that can be thought of preserved by this process, and every visitor is velcome to come in, taske, smell, take away with him, and test in every way the merits of OZONE as a preservative. We will also preserve tree of charge ray article that is brought or scat prepaid to us, and return it to the send-or, for him to keen and test. r, for him to keep and test.

er, for him to keep and tett. EGGS can be treated at a cost of less than one dollar a thousand dozen, and be kept in an condition, and the eggs as tresh and perform the day they were deted, and will sell as strictly "choice." The advantage in preserving eggs is readily seen; there are seasons when they can be bought for 8 or 10 cent's a dozen, and by hotding them can be sold for an advance of from one hundred to three hundred per cent. One man with the method can preserve 5,009 zen a day.

**FRUITS** may be permitted to ripen in their native climate, and can be transported to any part of the world. The juice expressed from fruits can be held for an intefinite per-fod without termentation—hence the great value of this process for producing a Temperance

Beverage. MILK AND CIDER CAN BE HELD PERFECTLY SWEET ANY LENGTH OF TIME. VEGETABLES can be kept for an indefinite period in their natural condition, retaining their odor and flavor, treated in their original packages, at ... small expense.

All GRAIN, FLOUR, MEAL, etc., are held in their norma' condition. FRESH MEATS such as BEEF, MUTTON, VEAL, PORK, POULTRY, GAME, FISH, etc., pheric changes, and return to this country IN A STATE OF PEEF &T PRESERVATION.

After Being Treated by this Process

# WILL NOT BECOME RANCID.

BUTTER

DEAD HUMAN BODIES, treated before decomposition sets in, can be held in a natural condition for weeks, without puncin. ng the skin or mutilating the body in any way. Hence the GREAT VALUE or OZONE TO UNDERTAKERS. There is no change in the slightest particular in the appearance of any article thus preserved and no trace of any folding or unnal ural ordor or taste. There is no expensive apparatus or machinery required. A room filled with different articles such as ECCS, MOAT, FISH, etc., can be greated at the one time, wthout additional trouble or expense.

AP IN FACT THERE IS NOTHING THAT OZONE WILL NOT PRESERVE. "63 Ag- IN FACT THERE IS NOTHING THAT OZONE WILL NOT PRESERVE. Au Think of everything you can that is liable to sour, decay or spoil, and then remember that we guarantee that OZONE will preserve it in exactly the condition you want it for any length of time. If you will remember this, it will save asking questions as to whether OZONE will preserve this or that erticle, it will preserve anything and everything you can think of. There is not a township in the United States in which a live man cannot make any amount of money, from \$1,000 to \$10,000 a year, that he pleases. We desire to get a live man interested in each county in the United States, in whose hands we can place the Preservative' and through him secure the business which every county ought to produce.
