

COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE. Two tramps were placed in the lockup last night to keep out of the way. A young boy employed at the Shawnee rolling mill, while driving iron, his left hand badly burned last evening. Some new additions are being made at the Suplee works. A new office has also been erected. The members of the band will meet at the Franklin house to-morrow evening, at 6:45 sharp, to play for "Billie Taylor."

A well known railroad man fell in a gutter last evening and skinned his nose. He says the pavements are awfully slippery. Reserved seats for "Billie Taylor," by Ford's English opera company, are selling fast and a large audience is expected. A disagreeable evening was that of yesterday, as at an early hour rain and hail fell in large quantities, deserting our streets. Suplee's steam engine works and McBride & Maulfrier's mill, have been connected with the telephone exchange. Several of the churches are holding revival meetings with considerable success. Last night one and all had slim congregations.

The supper for the benefit of the Fourth Street Presbyterian Sunday school opens this evening in the Odd Fellows' hall. An excellent bill of fare has been provided. First Sergeant F. A. Bennett is now happy. He is a father. We congratulate him and at the same time wonder if the "boy" will be made second sergeant of Co. C.

Several Columbians are interested in the proposed insurance companies and are sick of it. They want advice how to withdraw. If they had taken the advice offered through these columns all would have been well. The recent accidents on the railroads have scared a number of our citizens so badly that they resigned their positions. They should join the Presbyterian church and learn to understand predestination, for what will happen surely will.

Again will the worn-out play of "Uncle Tom's Cabin," produced in the opera house next Saturday evening. Our citizens are sick of it, and the troupe, although it may be a good one, will be an imposition, as we have already had the play six or seven times. Mrs. Jane Coner, of Washington borough, died at her home last evening of consumption, in her 38th year. She leaves a husband and three young children. A pleasant sociable was held at the residence of Mr. Wm. B. Given last evening. A number of ladies and gentlemen were present and a most enjoyable time.

Miss Edith Denny, of Harrisburg, is visiting Miss Caddie Patton. A young son of Smith Woods, while helping to unload a wagon of furniture, fell a marble top of a table fall upon his right foot, severely hurting his ankle. For the past couple of weeks parties from Wrightsville have been in the habit of sneaking their way into the bridge. One of them was caught and made an example of on Tuesday. \$2.14 is a heavy toll to pay for one passage across the river. Moral—your toll.

The lockup was filled to overflowing last night and at 6:30 in the evening there were 25—mostly tramps—in. While later in the evening at least a dozen more were locked up. Crossing on Locust street, above Fifth, was broken up by the policeman on account of the annoyance to the neighbors and impeding the highway. Mr. Charles W. Ryan is the guest of Mr. Robert Lyon.

Spines lazy this morning—see four cheeks thick.—Work on the Upp & Black contract stopped this morning on account of weather.—Haverly's minstrel troupe passed through here this morning, bound for York. Mr. Ernest Witters, his poster, has opportunity. No doubt it arose from the lawsuit at a few weeks ago. At that time we blamed Witters for not properly attending to his work. We meant it; but at the same time we did not mean to influence men who are now his opposers, to take as only means of support from him.

LET THERE BE LIGHT. The Electric Light in Lancaster. Our enterprising fellow-citizen, Mr. S. Spencer, of the Conestoga cotton mills, has the first to try the electric light in Lancaster. The first electric light in the city, and last night for the first time a part of South Prince street and No. 2 mill were illuminated by this means. Mr. Martin Van Buren, agent of the Fuller Electric Light company, put up the electric light in the warehouse room, in the machine shop and one outside, in front of the tower of the mill. At 6 o'clock the machine was put in motion and instantly the square between Conestoga and German streets was brilliantly illuminated by an electric light of 2,000 candle power, and for several squares further the light was sufficiently strong to pale the sickly yellow glare of the street lamps. The warehouse room and the machine shop were also brilliantly lit with a light as intense as sunlight. The lamps were allowed to burn only for a short time, as they were lit merely as a matter of experiment.

The electricity was evolved from the machine by a three horse power engine in the machine shop. The engine operated with great rapidity—1,500 revolutions to the minute, inside the box is coiled an immense number of thin insulated copper wires and strips of copper, and perhaps other metals. The motion of the shaft produces the electricity which by the contact of wires is carried to the carbon pencils in the lamp, and these are at once set on fire and their combustion produces the light. The pencils are calculated to burn for about eight hours. The machine will be put in motion every evening at 7 o'clock. It proved that the operators go to and depart from the mill, and on Saturday evening the lamps will be lit until 10 o'clock. Mr. Spencer says it will cost perhaps \$10,000 to purchase machinery to light all the rooms in No. 2. It is 3 miles from the mill to the city, and the cost of lighting will be a mere trifle.

STRUCK BY FAST LINE. A Painter Badly Injured This Afternoon. Thomas Wilson, aged 22 years, residing at No. 312 Atlantic street, Philadelphia, who is employed by the Pennsylvania railroad company as a painter, met with a serious accident at Bellemonte, just east of Leaman Place, this afternoon. He was painting on a bridge about 15 feet in length when a freight train, consisting of 11 cars, came rushing toward him. He attempted to get out of the way, and about that time Fast Line went careening around the curve and struck him before he could get away. He was knocked for some distance and had his right leg broken, right arm broken, and sustained very serious internal injuries. He was picked up by Fast Line and brought to this city. He was removed to the county hospital, where Drs. Roland and Muhlenberg attended him. He is a single man and resides with his mother.

Preliminary Injunction. On petition, presented by J. W. Johnson, for Mary M. Danner, No. 319 North Queen street, a preliminary injunction was granted by the court against J. W. and N. N. Brubaker, to restrain them from building a wall on the property of plaintiff, which she alleges they have declared their intention to do.

Bishop Howe's Semi-Centennial. The fifth anniversary of Bishop Howe's ordination to the ministry was celebrated yesterday in Christ church, Reading. The church was profusely decorated with flowers and there was a large attendance of the clergymen present. Bishops Clark, Rhode Island, and Whidson, of Pittsburgh, Archbishop Kirby, of England, and Rev. Dr. Tyng, of New York. The principal feature of the celebration was the presentation to the venerable bishop of a pastoral staff made of ebony, sandal and oak wood and inlaid with jewels.

As our esteemed and venerable typographical contemporary, Dr. A. Hitz, was passing up South Queen street this afternoon, arrayed, as usual, in a stylish and elegant manner, he fell off from the roof of Baldwin's store, battered and damped the immaculate tile. The Dr. was the subject of universal commiseration from all who appreciated the spotless appearance of a well-dressed man.

There were 399 rations of soup distributed from the soup-house this morning to poor and needy applicants.

"Give the Little Folks a Chance." This was the Junior missionary society of the smallest folks that could be found at its literary and musical festival this evening at 7 o'clock. In fact, almost the entire program has been given over to the hands of the smallest folks that could be found at the entertainment will certainly be one of unusual interest and enjoyment.

THE SCOURGE AT CHICAGO. CHICAGO, Jan. 19.—Dr. Dawolf, health commissioner of this city, says that unless the people protect themselves by vaccination, smallpox will be rampant here, and not a man, woman or child will be safe. Chicago has enough cases of its own, but the neighboring towns and states are doing their best to increase them. Yesterday seven tramps, broken out and covered with the filthy disease, came from other cities and walked into the health office here. Last night Joseph Ackerman, who arrived here by way of New York from Germany by a steamer, walked into the health office with a very bad case of the disease. He was sent to the pest house at once.

The woman was of unsound mind, but it was not deemed necessary to subject her to restraint. Smith worked in a saw mill close by, and seeing his wife approach went to meet her. She consented to return home, but after walking a few steps she stopped, drew a revolver, and shot her husband in the abdomen. There is no hope of his recovery. Mrs. Smith, who is now in jail at Pennington, has stolen the revolver with which she committed the deed from a neighbor.
