our higher civilization. People are also more in summer than in winter, more in cities than in rural districts, more among the educated than the illiterate. more among working people than profesional men, and more among the poor than the well to-do. The Danes are the most and the Portuguese the least self de-French, the French more than the English, and the English more than the Austrians, Russians, Italians or Spanish. Apart from latitude, climate has no effect The seasons, however, exert an important influence. Most people preier to take themselves off fine weather. Spring and summer are the favorite times. July offers to the vic tim the most and November the fewest attractions. The number of suicides is twice as great in May, June or July, as in any winter mouth. That women, more than men, should shun death by their own hand, and should make up but a fourth of the ill-starred list is but natural and proper. Nor is it strange that convicts and prostitutes, who know neither shame nor fear, do not die voluntary deaths in any appreciable ratio. But why should the tendency to self-slaughter increase steadily and surely with advancing years, and old age rather than early life become the suicidal period? For this strange fact appears to be established by statistics and that in proportion to the number of individuals of each age suicides are about as frequent above three score and-ten as between the ages of twenty and forty. The favorite methods of death are hanging and drowning, poisoning and the knife hav-ing gone out of fashion.

PAREWELL NOTICE.

DR. GREENE takes this opportunity to let his numerous friends and patrons know that in a few months he will establish offices in Washington, D. C., and hence would suggest to the afficted, the chronic cases of disease, to test OMNIPATHY before it is too late. Dr. Greene has treated over 3,000 patients since January 1st, 1880, made up largely from those turned away as incurable by other M. D. Over 1,500 deaths have occurred under others practices, and not a half-dozen using his remedies. Most of the 1,500 have died prematurely. Physicians have lost their wives and children during this time. Over 1,000 persons have been cured, and all benefited, by his methods, with a few exceptions. His claim is simply to cure all the various illsot mankind by external applications of remedials, and that he does not make a drug shop of the stomach, and he will before leaving publish a large pamphlet containing hundreds of names of persons cured in this city and county, many of them very extraordinary. A banker's wife cured of sick headache of over thirty-five years, and her glasses removed, reacing and sewing with natural vision. Mr. Sutter, of 329 Middle street, cured of 5 years terrible annoyance of dyspepsia, in one day. Epileptic Fits of twenty years cured of 5 years terrible annoyance of dyspepsia, in one day. Epileptic Fits of twenty years cured in one week. Tumors, Cancers and Cataracts removed without any pain or use of the knife.
