Another New Agricultural Machine.

The West is the source of nearly all of our new agricultural machines and implements. There farming is conducted on a gigantic scale that inventors are all the time engaged in contriving some new machine or implement by which labor may be diminished and the cultivation of the soil increased, and as a consequence the profits augmented.

The last invention we have noticed, of course emanating in the West, is the "Scrow Pulverizer," which is claimed to be a combination of the original, the world over, and every farmer can see at a glance the enormous amount of hard labor it saves.

The comparative advantages of applying fertilizers to land, in liquid form, or after the liquid has been taken up and made solid by absorbents, have not been fully settled by intelligent farmers generally.

On a large scale, and with complete tanks and appliances, the use of liquid manure may be attended with less labor in applying than if they were all first absorbed and then drawn out in solid form.

Very few farmers have barns, stables, drains, cisterns, etc., in which liquid manure can be stored and used as it is produced.

When absorbents cannot be had the liquid may be saved by excavating a shallow cistern beneath the stable, making the sides so sloping that the water-lime mortar may be spread on the smooth face of the earth.

These pills are prepared expressly to cure headaches, neuralgia, nervousness and dyspepsia, and will cure any case, no matter how obstinate it may be, of either sick, nervous or dyspeptic headache, neuralgia, nervousness or dyspepsia.

HOSTETTER'S DRY GOODS

CELEBRATED STOMACH BITTERS.

A remedy with such a reputation as Hostetter's Stomach Bitters deserves a fair trial. If you are dyspeptic, your malady will eventually yield to it. If you are feeble, lack flesh and feel despondent, it will both build and cheer you up; if you are constipated, it will loosen, regulate, and healthily stimulate your liver.
