Humpty Dumpty by Tony Denier's Company. -Tony Denier's pantomime company arrived in town this morning from Columbia at 9:30. They gave a -treet parade at noon with a full brass band of fine musicians and a donkey which created lots of fun and which will appear in the pantomime this evening. This city, whose criminal escapades made him is an excellent company and the specialty portion is very fine. Of this donkey a newspaper tells the following story : " An engine moved slowly up: it stopped within a few feet of the beast; the engineer blew one of those terrible screams, prolonged and car-piercing -- uch a blast as makes the sleeping Millerite dream of the day of judgment. Did he scare? Not worth a cent. Did he shake the sloth from his limbs, erect his tall and speed away like the asses of Bassorah, faster than the Bedouin coursers ran back to the chapparal? No, he didn't. He turned one ear toward the engine, just as a deaf man uses his tin ear trumpet and caught every particles of the sound. And when the steam whistle ceased its notes, and all the echoes died away, the animal straightened out his neck, opened his mouth, and in voice that deatened all the railroad men and caused the freight clerk to drop his pen, he roared : "I can't ! I can't ! I can't ! I can't ! be beat! be beat! be beat! I ca-n-t bebe-be-beat !"

GREAT FLOOD OF WATERS. The South and West Devastated

The Little Rock, Ark., Gazette's Helena special says: The disaster caused by a break in the levec at Williamson's Place prevented communication with the outside world to a considerable extent. The Iron Mountain railroad track was submerged and the telegraph lines broken last Thurs day night. The levee has been tempo rarily rebuilt. The entire lower street at the corner of Market and Ferry streets is under water and the only communication with West Helena is by skiffs. The prospect is very gloomy, as all mills, the foundry and other industrial establishments are closed and many work. men and laborers are thrown out of employment. There is little doubt that great distress will result among the working classes in this city, as it will be at least two weeks before the water falls sufficiently to permit resumption of business. The water is still rissng.
