CHARGED WITH LARCENY. Sensations from the Extreme East and West Ends. Frank Kassar, an employee of the Lancaster wool factory, has been arrested on a charge of larceny. The facts of the case, as alleged, are to the effect that the defendant for some time past, aided by some friends, has been secretly constructing a watch from the material and with the tools belonging to the company. The watch was almost completed when it was given over to an employee, who was to have done some work on it.

COLUMBIA NEWS. OUR REGULAR CORRESPONDENCE. Fox cubs are becoming numerous in the country around Wrightsville and Ironville. The high water makes the river a thing of beauty nowadays, especially at the "spin wheel" near the tunnel. It is hoped the Columbia orchestra will play for the entertainment given by the library committee, March 15, gratuitously. A false alarm of fire was given at the fire department for a race. The Vigies had their new steamer out, and from the time they left their house until they returned, about eight minutes, had 40 pounds of steam, beating all previous records. Mr. C. C. Haldean, formerly of this place, and Mr. Walter Barr, formerly of Lancaster, but both now working in stores in Philadelphia, paid our town a flying visit on Monday. A full week in the opera house this evening "Marble Heart" will be presented; "Suebaker's Majesties" to-morrow evening; two riding parties and three surprise parties on Thursday evening; Mr. and Mrs. John Fendrich's silver wedding, and on Saturday evening in the opera house will be "Rooms for Rent."

CONCEITS SHOULD BE EARNEST. Water, bill poster, the opera house at the same rental which is charged Managers Mesler and Miller. They get in a good number of shows to this place. Witdo does the same but has to pay full price. During the past winter he has brought several excellent troupes to town, but what little he could make has to be paid for the opera house.

THE MUSICAL SUCCESS OF THE E. E. LUTHERAN CHURCH QUARTETTE choir has occasioned a generous rivalry among our churches which culminates in the style of a fairy house. Each corner is handsomely engraved, while the designs are inlaid with gold. The syrup faucets are silver-plated and lined with gold tin, and also the draft tubes. On top of the fountain is a large glass water jet, with a marble figure of one of the Muses.

THE PLANT CLUB LAST EVENING. A good audience met at the hall of the Y. M. C. A. last evening, it being the occasion of the fifth meeting of the plant club. After the regular work of the club had been run through with, and the progress of the class since its organization had been reviewed, the lecturer of the evening, Mr. Benj. A. Spindler, was introduced. His subject, "Fossil Botany," was treated in an admirable manner, and he held the fixed attention of his audience throughout its entire length. At the next meeting of the club, to be held on the 20th inst., Prof. S. B. Heiges, of York, will lecture on "Botany and Agriculture."
