MONDAY EVENING, MARCH 13, 1882.

THE TOBACCO MARKET.

SEED LEAF AND HAVANA.

For the Week Ending Saturday, March 11, 10 A. M.

United States Tobacco Journal.

The revival of activity in manufacturing circles a few weeks ago has proved only temporary.

Dullness and quietness again prevail in most of our large shops.

The uncertainty of the tax question and the precarious state of business in the South are given as the reasons.

There is without inanimation, and transactions are few and far between.

Nevertheless there is no concession as regards prices on the part of holders.

except on very inferior goods. A prominent feature of the market is elsewhere.

They will bring inferior '80 New York Big Flats to a state of perfection by a reweaving process.

It is to be hoped that their efforts will be successful and that several unfortunate holders of such stock will be relieved of their burden.

For the week ending Saturday, March 11, 1882, several reports were made during the week, but no sales are reported.

For fine '80 Pennsylvania the demand is good. It has been quite largely examined, but in spite of the demand the sales seem to be very small.

by reason of the unsatisfactory yield which is wholly out of proportion to the prices demanded.

There appears to be no help for the manufacturers except either to buy it or stop manufacturing.

The market is very bare of fine wrappers, which will cause the '81 to be taken off unusually early by the trade.

Already there are reports of changes of ownership of two packings of '81 Wisconsin Havana seed, and also of several hundred cases of Connecticut seconds, but this may be only an effect of the pulling of wires by brokers.

all of whom are busily engaged in securing promises of preference from packers concerning the first exhibition of their samples to their (the brokers') customers.

The unsatisfactory state of business at present need not be taken as a sign of a general depression in the industry.

Before long the volume of business will be as great as last year's, if not greater.

The sales of the week were as follows:

Pennsylvania—Crop '80: 200 cases; 12 1/2 to 20 cents.

Connecticut—Crop '80: 150 cases; 27 1/2 to 42 cents.

Ohio—Crop '80: 200 cases; 4 1/2 to 9 1/2 cents.

Wisconsin—Crop '80: 250 cases; 8 to 12 cents.

Havana—Market active. Sales 800 bales. Prices firm.

If the small cigar manufacturers want the tax reduced they must bestir themselves without delay.

Unless they take action at once no change in the present rate of tax will be made.

Gans' Report.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., tobacco brokers, No. 131 Water street, New York, for the week ending March 13, 1882.

200 cases 1880 Pennsylvania—fillers, 6 to 6 1/2, assorted, 11 to 17, 180 cases 1880 New England wrappers, 16 to 35, 100 cases 1880 State p. 1., 250 cases 1880 Ohio—fillers, 4 1/2 to 6 1/2, wrappers, 10 to 14 cents, 128 cases 1880 Wisconsin—fillers, 3 1/2 to 4 1/2; wrappers, 9 to 12 cents. Total 838 cases.

A Good Crop.

John Haverstick, of Kirkwood, delivered on Saturday last a crop of three acres of tobacco to Rosenwald & Bro., and received for the same a check, amounting to \$857.61—20 cents around.

The Mississippi's Overflow.

Not so bad as it has been pictured—The Water Slowly Receding.

The chief state engineer says that the overflow in Louisiana covers a large part of the rear lands of East Carroll, Madison, Tensas, Concordia, and large areas in West Carroll, Morehouse, Richland, Ouachita, Caldwell, Franklin and Catahoula, and is caused by the Mississippi river water escaping through the broken levees in Chicot and Desha counties in Arkansas, below the mouth of the Red river. A large territory is being overflowed by the Point Coupee crevasse, which is likely to increase in depth and extent. There is also much overflow along the Red river bottom, and in every parish on the Mississippi. The annual production of cotton alone in the parishes overflowed is fully 200,000 bales, valued at \$15,000,000.

News from Helena, Ark., says that the river is falling, and that the levees are believed to be safe. The Mississippi is backing the overflow on the city, and the water in the overflowed districts rose seven inches yesterday, but as this rise may go down in a few days no alarm is felt.

The Vicksburg Herald says: "The situation of the people of the valley is bad enough without its being exaggerated. The sensations that have been printed and pictured of the situation have, in our opinion, done great harm. Where crevasses have occurred, the land, to a greater portion of it, is for the time being lost. There are very many persons of the valley injured as yet. We have no doubt that fair crops will be raised in almost all portions of the valley. While people in many places are inconvalescing and losing some of their livestock, they are not in such a dreadful plight as has been described, as there are two months before cotton time is past, and the water is almost sure to subside in time to raise crops. "But what of these overflows that carry so much dread with them? Do they not enrich the land, and are not heavier crops made upon them? We incline to the opinion that, in point of fact, inundations are beneficial."

At the request of Gov. McEnery, the secretary of war has telegraphed instructions to the commissary of New Orleans to purchase and deliver 100,000 rations to commissioners already appointed by the governor for the relief of the sufferers by the flood. The secretary has also directed that 10,000 additional rations be delivered to Commissioner Wilson at Mound City, Ill., for the relief of sufferers at that point.

Many of the colored people in Bolivar county will not leave their homes, though offered free passage northward. They can be seen in large numbers sitting on platforms on top of their houses with the water rushing six inches below them, and nothing can induce them to leave. Hundreds probably have been washed away and drowned. It is in the Mississippi flood in a hundred years. At Memphis the river is higher than it was in 1815.

Lady Sufferers.

Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes with the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such rich blood, good health, strength and beauty as Hop Bitters. A trial is certain proof.

Bradford, Pa. Thomas Fitch, Bradford, Pa., writes: "I enclose money for Spring Blossom, as I said I would if it cured me. My dyspepsia has vanished, and in its place I have gained a healthy, robust, and hearty appetite, and I feel as if I should never be without it in the house. Price 25 cents. For sale at H. B. Cochran's drug store, 137 North Queen street, Lancaster."

Remedy.

A fortune may be spent in using electrical machines, when by applying Thomson's Electric Oil a speedy and economical cure can be effected. In case of rheumatism, neuralgia, neuralgic affections, or pains of every description, it affords instant relief. For full particulars, call on H. B. Cochran's drug store, 137 North Queen street, Lancaster."
