the Shiffler Committee. At a meeting of the trustees of the Sun fire company and the special fire committee of councils, held last evening the Sun steam fire engine was transferred to the city, the company agreeing to accept in payment an approved bill, payable eighteen months after the date of the contract, and to allow the city to take the engine away at such time and locate it at such place as may be deemed expedient. It is understood that the steamer will be placed in convenient quarters in the southern section of the city.

The American.

The fire committee of councils and committee of the American fire company met in the office of B. F. Eshleman, esq. this morning, for the purpose of complet ing the contract authorized to be entered into between the city and the company respectively, for the transfer of the American steamer to the new fire department; but there appears to be a "hitch" in the negotiations. The councils' committee was ready to complete a contract for a lease of the steamer for eighteen months at the rate of \$350 per annum, and to buy the property at the end of that time for \$2,500, if the call system should prove a success; and if not, to return the steamer to the company in as good condition as it is now. The representatives of the company, however, wanted the city to buy at once for \$2,500 and to give a mayor's warrant or other negotiable paper payable in eighteen months; or instead of this arrangement, to lease the steamer for eighteen months at \$350 per annum, with the condition annexed that it should be purchased and paid for at the end of the lease.

The Snubbers Snubbed. Last evening P. S. Goodman, on behalf of a committee of the Shiffler fire company called upon the special committee of councils to present "officially" the series of resolutions adopted by the Shiffler company Thursday evening.

Mr. Zecher, on behalf of the special com-

mittee, informed Mr. Goodman, that the committee refused to hold any further communication with the Shiffler company, whose gross insults to the committee at the meeting on Thursday evening, had convinced the committee that any further communication with the company would be unworthy of notice. For the president and some other members of the Shiffler, who proved themselves to be gentlemen or the occasion referred to, the committee have the kindest feeling, but decline to hold any further official intercourse with the company.

OBITUARY.

Death of John A. Madden John A. Madden, morocco dresser, died last evening at his residence No. 327 West Orange street, aged about \$1 years. Mr. Madden's life was quite an eventful one. Born in Ireland, he early left his native country, and traveled both by land and sea over a great portion of the earths sar-face—having visited at different times most of the countries of Europe, the Holy Land and other parts of Asia, the nothern countries of Africa, and nearly all the state of America. Coming to Lancaster many years ago, he made it his permanent home, and followed his trade of morocco dressing He was three times married, but survived his last wife. Large Fox Chase at Leaman Place.

Yesterday being the last day for the chasing of foxes, the occasion was celo-brated in a grand old style at the hotel of George Diller, at Leaman Place, where a fox chase was held. There were a large number of sportsmen present, among them being Brisbin Skiles, Jacob Rutter, Jacob Bair, Milton Roop and at least twenty additional horsemen, besides a great many others. At 3 o'clock a very fine, large red fox, which had been caught near Andrew's Bridge, was let loose, and some time afterwards a large pack of dogs was started.
The fex went in a southerly direction and seemed to be making for his old home.

Boston, March 18 .- The strike of the Western Union telegraph company's messenger boys, which was reported yesterday afternoon as adjusted, was renewed during the evening.
