TRULY RURAL SOME AGBICULTURAL EXPERIENCE.

With a Few suggestions Appropriate to the Season-A Decorated Cook of the Walk. iew York Times.

It is very easy to say that the decorative mania leads our women to waste time and to deface crockery and other objects. In-stead of thus ridiculing those whom we ing earth from its previous bed; with one hand hold the plant in position, in the hole, while with the other pour water to fill the hole. If properly done the mellow soil will fill in about the roots and should treat with the most tenderness, why do we not take them by their respective hands - figuratively speaking, of course-and lead them into fields where nearly fill the hole and hold the plant, so that, if freshly taken from its bed, it will not wilt, even if transplanted in hot sun course—and lead them into nelds where their passion for decoration can be exer-cised in a way that will be of real benefit to the race? That this can be done has been practically demonstrated by Mr. Simeon Brewster, of West Middletown, Mass., and his example deserves to be held up in the imitation of his fellow-men throughout the country. throughout the country.

Miss Sophonisba Brewster has for some time delighted in decorating the family china—including the preserve jars and the porcelain-lined preserve kettle. Mr. Brew-ster regarded his daughter's labors with ster regarded his daughter's labors with great disdain, but, unlike most men, he knew that ridicule would be of no use. Whether he had in view the train of con-sequences which followed his suggestion that Sophonisba should decorate ' our new rooster," or whether he merely men-tioned the "rooster" he image tioned the "rooster" because he imag-ined that his daughter would regard the meatiness, perfect coloring and ripening. bird as beneath her notice, is not positively known, but in view of the fact that his daughter believed the proposal to be made in perfectly good faith, and prepared to carry it into execution, we may assume that he made it with a full knowledge of what w ld follow.

The term "rooster" is, as every one knows, applied in the New England dia-lect to the male fowl of the chicken va-Thin planting, pruning and tying to stakes will obviate this difficulty in nearly every instance ; so that where the plants are riety. Mr. Brewster's poultry yard at the time in question contained but two fowls properly raised and trained from the ground, little damage is to be apprehend. -the new "rooster" and a venerable hen, and hence did not yield a large daily crop of eggs. Miss Brewster, in accordance with her father's wishes, caught the "rocster," and binding him firmly, so as to prevent him from struggling, decorated him with admirable taste. Her first op-Nelson Ritter in Country Gentleman. eration was to paint him a rich dark blue as a background. Upon this she spread designs in white or in gold-such as golden heads of grain, golden grasshoppers, pure white lilies and arabesques of mingled gold and white. The appearance of that fowl when completed would have drawn tears of admiration from the most hardened naturalist. He was simply magnifi-cent, and when he had surveyed himself in a mirror thoughtfully provided for the purpose, he expressed his own apprecia-tion of Miss Brewster's work by a tri-

Incredible.

Treatment of an Orchard.

A round, Bmooth, thick-meated fruit is to F. A. Scratch, druggist, Ruthven, On f. writes: "I have the greatest confidence in your Burdock Blood Bitters. In one case with which I am personally acquainted their suc-cess was almost incredible. One lady told me that half a bottle-did her more good than hun-dreds of dollars' worth of medicine she had previously taken." Price \$1. For sale at H. B. Cochran's drug store, 137 North Queen St., Lancuster. be preferred, other things being equal. The best is the Acme. Rot sometimes attacks the tomato, its cause being largely due to warm, wet weather and heavy dews, expecially where the plants spread and lie low, or on the ground in mass. ancaster.

MEDICAL. THOMAS' ELECTRIC OIL.

AKRON, Erie county, N. Y., December 6, 1881. To the Proprietors of Thomas' Eelectric Oil:

GENTS-Last March I took a severe cold, and I purchased my present place fifteen being negligent in doctoring it, brought the years since. There was an orchard on it, Asthma on me very severe. I could not lie containing one and one-half acres, that down or sleep for wheezing and shortness of breath. I took this thing and that, and tried had been set five years. The apple trees were set 30 by 30 feet, with alternate rows of pear trees. The pear trees bore fair different doctors, but tound no relief. Six months ago I saw an advertisement in the papers recommending Dr. Thomas' Eclectric crops for a time, but gradually succumbed. Ofl, so I thought I would try that, and wor to the blight. Those which did not so sucderful to relate, yet neverthelsss true, the first cumb have been cut out, as the apple trees dose I took relieved me in a lew minutes, and before I had taken one fourth of a 50-cent botoccupy all the ground. Many of the trees are now from 12 to 14 inches in diameter, tle I could breathe treely and sleep as well as the branches interlocking, and I wish that ever. It is equally as magical for cuts they had been set 40 feet apart instead of bruises, burns and rheumatism, 1 woke up a 30. I grew strawberries and raspberrics- tew mornings since with such pain in my previously set-among the trees for two chest that I could not draw a long breath. My years ; then one crop of potatoes. After- wile said "rub on Thomas' Electric Oil." wards the trees were kept thoroughly cul- did so, and in a lew minutes the pain was

LUSICAL-BOXES BARGAINS.-To make a clean sweep before closing our salesrooms for the season, we make the following sweeping reduction on the bai ance of our stock now here. (Only large and medium sizes yet on hand):
