Reading Stocks and Bonds.

Before sailing for Europe, Mr. Gowen makes agnouncement of a general clearing up of P. & R. floating debts and says : "The net earnings of last year were over expected. \$10,000,000. In 1882 they may be expected to reach \$11,000,000 and they will before long be over \$12,000,000. With net earnings of \$12,000,000 and fixed charges of \$8,000,000 there will remain a dividend fund of \$4,000,000, equal to about six per cent. on the share capital and six per cent. upon the par, or twenty percent, upon the issue price of the deferred income bond's." As stock dividends will hereafter be only six per cent. for a time at least, he urges stockholders to secure deferred bonds at once.
