

COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE.

Along the Susquehanna—Greening and Around the Borough Picked Up by the Reporter. More About the Stove Works.

A large and enthusiastic audience assembled in Old Fellows hall last evening to hear the committee's report of their trip to Spring City.

The meeting was called to order at 8:30 by J. H. Meyer in the chair. The minutes of last meeting were then read and approved. Upon a motion, the name of the works was changed from O. B. Keeley stove company to the Keeley stove company.

The report of the committee's trip to Spring City was the next thing in order and was minutely given and delivered in a fine manner by Mr. Geo. H. Haldeeman. From the time they left Columbia to their return everything in fact was described in glowing language and proved very interesting to all present.

After the gentleman had finished, Wm. B. Given, esq., read the contract made and signed by the sellers and purchasers. It is complete in every detail and covers the whole ground, thanks to the perseverance of the committee and the willing disposition of Mr. Keeley.

A motion was made to raise the capital stock from \$150,000 to \$250,000 but upon being re-considered, another motion was made leaving the matter in the hands of the charter committee with power to set, Mr. S. S. Detwiler, chairman of the subscription committee, reported \$95,000 worth of stock as being taken.

Mr. H. M. North, esq., made a long address which was exceedingly interesting and to the point. He spoke of the necessity of organizing work at once; of the necessity of sending a man to Spring City to learn all about making stoves; in short, learn every thing necessary to the stove trade; in regard to the building of the works and last but not least, the appointing of a board of directors.

The opinion in the matter was that they should be appointed or selected by a committee. Whereupon Squire Grier moved that a committee of five, with H. M. North esq., as chairman, be appointed to select the gentlemen who are to compose the board of directors.

On motion of Mr. Wm. Patton, President J. A. Meyers, who was to appoint the committee, was elected to serve on the same. The committee is as follows: H. M. North, J. A. Meyers, A. Bruner, H. Herr, and Samuel C. Detwiler.

W. F. Pfahler, the gentleman elected to go to Spring City to look after and attend to the interests of the company. He was unanimously elected (no more popular or better suited man could have been selected) and his work was acknowledged by a loud clapping of hands and other plaudits.

On Tuesday afternoon a number of workmen with nine carts and horses arrived at the Gap, and on Wednesday they commenced the work of grading the railroad track at the station on the north side of the track westward. More men are expected in a few days.

Collier's "Banker's Daughter" combination gave a performance in Central hall last evening to a full house, but owing to the rainy weather the hall was not as full as it might have been otherwise. The play in every respect was a good one, and deserves credit. Marietta always holds out a willing hand to such combinations. The play will be repeated in Columbia this evening.

about again as though nothing had happened. There was "Much Ado About Nothing." There seems to be a strange fatality at the Reading & Columbia depot. Within one week, Mr. William Clark lost his beloved wife, Mr. Zellhuber his devoted and kind father, and on Tuesday a little son of Mr. Jacob Brimmer fell down a pair of cellar steps and broke his leg.

Yesterday afternoon eight young men went to the saloon of Peter Wirth, on North Christian street, above James, and called for drinks. As Mr. Wirth alleges, four of the young fellows were thought to be too young to drink, and refused to give them any drinks. The other men took drinks, but refused to pay for them. After some disturbance they left the house, and threw stones through the windows.

The men then went to Hollinger's bakery and took some biscuits, and from that to Meier's butcher shop. Here they ordered some pudding, which they got, but left without paying for it. In the evening Mr. Wirth went to the residence of John Finger, residing on Murray street, who was among the party of men; he asked for an explanation of his conduct, whereupon Finger knocked him down and beat him. Suit has been entered against him at Alderman Samson's for assault and battery, and Finger, together with three other men named Wilson, Long and Costello, has been sued for larceny by Mr. Marig, and for disorderly conduct.

This morning Samuel Esleman, of Market town, had a hearing before Alderman Sporrer on the charge of selling diseased meat. This charge is brought by Adam Snyder, who alleges that Esleman butchered a steer which had the swiney and sores on its legs, and then sold it around to different neighbors. Other witnesses testified that the steer was lame when killed. Esleman denied the charge, and swore that there was nothing wrong with the steer. George Shaff testified that the steer had had swiney, but was well before it was killed. Dr. Gatebell testified that if the steer had been suffering from the disease it would not have hurt the meat. Other witnesses for Esleman were also called. The alderman reported the case. Esleman has a slender suit pending against Snyder who he alleges circulated reports about him selling diseased meat.

An annoying mistake occurred in "Gap Items," in both the daily and weekly INTELLIGENCER, on Wednesday last concerning the contract of reducing the Gap grade. John Grant has the contract of reducing the grade west of this place, instead of the "cut" as was stated, and Keller has nothing to do with the grading. The company intend to reduce the grade of the "cut" itself, as contracted, and the terms of the contract are on account of the quicksands.

AMBERHAM, Mass., Jan. 14, 1880. I have been very sick over two years. They all gave me up as past cure. I tried the most skillful physicians, but they did not reach the worst part. The lungs and heart would fill up every night and distress me, and my throat was very bad. I tried my children's Laxative. I have taken two bottles. They have helped me very much indeed. I am now well. There was not a sick folk here who would not see how they helped me, and use them and are cured, and feel as thankful as I do that there is so valuable a medicine made.

"What we all admire, and how to secure it: A fine head of hair in its natural color is such an adjunct to beauty that few women whose good looks should neglect to use 'London Hair Color Restorer,' the most cleanly and delicate article ever introduced to the American people. It is totally different from all other hair dyes, and is free from all impure ingredients that render many other preparations objectionable. It thickens thin hair, restores gray hair to its new life, keeps the scalp clean and healthy, causing the hair to grow where it has fallen out or become thin, does not soil or stain anything, and is so perfectly and elegantly prepared as to make it the best hair dressing and toilet article in London. Hair Restorer is sold by all druggists, at 75 cents a bottle. Six bottles for \$4.
