SCIENTIFIC PRIZES.

The Study of Astronomy and its Rewards. Mr. H. Warner, of Rochester, has concluded to continue the comet prizes during 1882, together with an additional prize for the discovery of meteors.

Prize First.—Two hundred dollars in gold for each discovery of a new comet made in the United States, Canada, Great Britain or Ireland. Conditions: 1. It may be discovered either by telescope or the naked eye, but must be unexpected, except as to the comet of 1812 which may reappear during the year. 2. The announcement of the discovery must be made confidentially and exclusively (by telegraph) to Dr. Lewis Swift, director of the Warner Observatory, Rochester, N. Y., and to him alone, and he will cause the same to be immediately telegraphed, together with the name of the discoverer, to all parts of the world.

Prize Second.—The sum of two hundred dollars, for any meteoric stone found in any of the above countries during 1882, which Prof. Henry A. Ward, of Rochester, N. Y., Francis Dawson, of Montreal, Canada, and J. Lawrence Smith, of Louisville, Ky., shall unanimously decide contains fossil remains of animal or vegetable life, thus proving the inhabitation of other planets.

Prize Third.—The sum of fifty dollars, for a specimen of any meteoric stone, (whether it contain organic remains or not,) seen to fall in the United States during 1882. Condition: A specimen (which shall become the property of the Warner Observatory) of not less than two ounces in weight, to be sent by mail to Dr. Swift, accompanied by a descriptive letter written in English, giving the time of its fall, depth of penetration in the soil, weight of the entire stone, direction of flight, and such other facts regarding it as will be of value to science.

A Remarkable Discovery.

A REAL SKIN CURE.

THERE IS ONLY ONE AND THAT WITH SIMPLE NAME.

Beware of impostors, pirates, or any old articles which now and then claim to be best. They have been tried and found wanting, while this has been proved a remarkable success.

NO POMPOUS NAME.

This curative needs no pompous or inconspicuous title of Greek or Latin to sustain it, but its simple English name appeals to the common sense of the people. And the people are signally manifesting their appreciation of this frankness by selecting and using Dr. Benson's SKIN CURE in preference to all other professed remedies.

Dr. C. W. Benson has long been well known as a successful physician and surgeon and his name is familiar to the people. He has a nervous system and of the skin; since he has been persuaded to put his New Remedy and Favorite Prescription as "A Skin Cure" on the market, various things have sprung up into existence, or have been worked up from the sleepy slumbers in which they were before, and now claim to be "The Great Skin Cure."

BENSON'S POKROUS PASTES—

Back Ache

POSITIVELY CURED BY Benson's Caprine Porous Plasters

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

FIRST. Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, and counter-inflammatory effects.

SECOND. Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

THIRD. Because they are the only plasters that relieve pain at once.

FOURTH. Because they will positively cure diseases which other remedies will not even relieve.

FIFTH. Because over 5,000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

SIXTH. Because the manufacturers have received the only medals ever given for porous plasters.

SATURDAY:

We spoke yesterday of a general lowness of prices here; and showed some caution about seeming to mean too much. It is out of the question for one merchant to sell some things any lower than other merchants sell them. To try it would be to bring upon himself the combined attack of everybody who sells those things in his city; they would all put their prices down and defeat him. We stated in a careful way that our general policy is to make prices just about as near to the necessary costs as we can.

But sometimes prices get so low as to seem absurd; so low as to have no relation to original costs or proper values. Bargain is a word so often misused that the word itself is in discredit. But it is a necessary word. It declares a part of our policy, which is true and good and useful, to us, to you, and to the mercantile world.

Lincoln used to complain that round men would get into square holes, and square men would get into round holes; so that neither the round men nor the square men were as firm and substantial-efficient is the plain word—as they might be. Merchants, all the world over, have the same perversion. They are all the time getting into the wrong holes; getting goods that they can't sell. Somebody else can sell them; and they can sell other goods.

Bargains grow out of such mistakes, when the goods get around to a merchant who has a general trade and the wit of liberality. We can find use for almost every decent grade of the fifty classes of goods we deal in. We can buy almost any proper merchandise that seeks our help. It is almost always a question of price. If price is low enough, we can buy quantity enough. It is one of the functions of the gatherer of our daily store-news to point out these goods that are the savings of somebody's wreck. What somebody has lost, you gain. We are not going to point out any to-day. Rather we devote the day to this explanation of the fact, that we do almost always have some things at prices too low to cover their proper cost.

We have not a little satisfaction in the belief that our city is a better city to live in and to trade in, because we have here this great outlet for the mistakes of manufacturers, importers and merchants. But, we should spoil the good we do, if we lied about our goods. On this point excuse us from saying any more than that everybody is, in general, at liberty to bring back whatever he or she has made a mistake in buying. The exceptions are few and obvious.

It is almost misleading, and would be quite so to a stranger, to take up a whole day with this comparatively small part of our business. We trust nobody will estimate us by one day's advertisement.

JOHN WANAMAKER, Chestnut, Thirteenth and Market streets and City hall square.

Since writing the above the chief of one of our departments sends to our office the following. This is a fair illustration of what we mean by bargains:

"One of the most successful shapes in Gentlemen's Scarfs this season has been the 'Ventnor,' introduced by 'Lowrey,' New York.

"We have closed entire balance of lot and offer them at the uniform price of 50 cents. None of the patterns (of which there are 22) were made to sell less than \$1.25."

They are on sale to-day at the Furnishing Goods counter, just inside of the Chestnut street entrance, and our house, \$18 and \$20 Chestnut street.
